And here, writer and music historian Marc Myers brings to life five decades of music through oral histories of forty-five era-defining hits woven from interviews with the artists who created them, including such legendary tunes as the Isley Brothers’ Shout, Led Zeppelin’s Whole Lotta Love, Janis Joplin’s Mercedes Benz, and R.E.M.’s Losing My Religion. After receiving his discharge from the army in 1968, John Fogerty did a handstand—and reworked Beethoven’s Fifth Symphony to come up with Proud Mary. Joni Mitchell remembers living in a cave on Crete with the mean old daddy who inspired her 1971 hit Carey. Elvis Costello talks about writing (The Angels Wanna Wear My) Red Shoes in ten minutes on the train to Liverpool. And Mick Jagger, Jimmy Page, Rod Stewart, the Clash, Jimmy Cliff, Roger Waters, Stevie Wonder, Keith Richards, Cyndi Lauper, and many other leading artists reveal the emotions, inspirations, and techniques behind their influential works. *Anatomy of a Song* is a love letter to the songs that have defined generations of listeners and “a rich history of both the music industry and the baby boomer era” (Los Angeles Times Book Review).

anatomy of a crush lyrics: *Northrop Frye's Notebooks for Anatomy of Criticism* Northrop Frye, 2008-12-15 Northrop Frye's *Anatomy of Criticism* (1957) is widely regarded as a masterpiece of literary theory. The product of years of reading and reflection, the book's value extends far beyond its impact on criticism as a whole; ultimately, it must be viewed as a synoptic defense of liberal learning by one of the twentieth century's most distinguished critics. In this, the twenty-third volume of the *Collected Works*, editor Robert D. Denham presents the notebooks to the *Anatomy*, blue-prints, as it were, for Frye's comprehensive account of literary conventions. Composed from the late 1940s to 1956, the notebooks document the struggle Frye underwent to provide a structure for his work. This involved incorporating previously published essays and developing new material that would maintain the continuity of his argument. This fully annotated volume contains seventeen holograph notebooks, each illuminating some aspect of the grand structure that eventually emerged. Altogether, the notebooks offer an intimate picture of Frye's working process and a renewed appreciation for his magisterial accomplishment.

anatomy of a crush lyrics: *I Miss You When I Blink* Mary Laura Philpott, 2020-04-07 NATIONAL BESTSELLER A charmingly relatable and wise memoir-in-essays by acclaimed writer and bookseller Mary Laura Philpott, “the modern day reincarnation of...Nora Ephron, Erma Bombeck, Jean Kerr, and Laurie Colwin—all rolled into one” (The Washington Post), about what happened after she checked off all the boxes on a successful life's to-do list and realized she might need to reinvent the list—and herself. Mary Laura Philpott thought she'd cracked the code: Always be right, and you'll always be happy. But once she'd completed her life's to-do list (job, spouse, house, babies—check!), she found that instead of feeling content and successful, she felt anxious. Lost. Stuck in a daily grind of overflowing calendars, grueling small talk, and sprawling traffic. She'd done everything “right” but still felt all wrong. What's the worse failure, she wondered: smiling and staying the course, or blowing it all up and running away? And are those the only options? Taking on the conflicting pressures of modern adulthood, Philpott provides a “frank and funny look at what happens when, in the midst of a tidy life, there occur impossible-to-ignore tugs toward creativity, meaning, and the possibility of something more” (Southern Living). She offers up her own stories to show that identity crises don't happen just once or only at midlife and reassures us that small, recurring personal re-inventions are both normal and necessary. Most of all, in this “warm embrace of a life lived imperfectly” (Esquire), Philpott shows that when you stop feeling satisfied with your life, you don't have to burn it all down. You can call upon your many selves to figure out who you are, who you're not, and where you belong. Who among us isn't trying to do that? “Be forewarned that you'll laugh out loud and cry, probably in the same essay. Philpott has a wonderful way of finding humor, even in darker moments. This is a book you'll want to buy for yourself and every

other woman you know" (Real Simple).

anatomy of a crush lyrics: *The Shadowed Country* Josh Gosciak, 2006-01-31 One of the most important voices of the Harlem Renaissance, Claude McKay is largely recognized for his work during the 1920s, which includes a major collection of poems, *Harlem Shadows*, as well as a critically acclaimed novel, *Home to Harlem*. But McKay was never completely comfortable with his literary reputation during this period. Throughout his world travels, he saw himself as an English lyricist. In this compelling examination of the life and works of this complex poet, novelist, journalist, and short story writer, Josh Gosciak sheds light on McKay's literary contributions beyond his interactions with Harlem Renaissance artists and writers. Working within English literary traditions, McKay crafted a verse out of hybridity and diaspora. Gosciak shows how he reinvigorated a modern pastoral through his encounters with some of the major aesthetic and political movements of the late Victorian and early modern periods. Exploring new archival material as well as many of McKay's lesser known poetic works, *The Shadowed Country* provides a unique interpretation of the writings of this major author.
