awards won by anatomy of a fall: *Law and Film* Vittoria Becci, Alexia Katsiginis, Edward Van Daalen, 2024-12-31 This book explores how law can be understood through film by engaging creatively with the intellectual and aesthetic dimensions of both fields. Challenged to go beyond an instrumental analysis of a law and film, the contributors to this book instead consider the need to turn to film and what this means for how we come to understand law and its absences. The chapters explore a variety of narratives, aesthetics, cinematic epistemologies and legal phenomena; from assessing law in social debates to film as legal critique, from notions of justice to contemplations on evil, and from masculine vigilantism to radical feminism. Taken together, they constitute an inspiring body of work that embodies an urgency for diverse and subversive ways to challenge law's formalism and authority; and to think about and respond variously to law's impotence, its disappointment, or its boredom. This book will appeal to legal scholars and students in law and the humanities, especially those with interests in aesthetics, law and literature, law and culture, law and society, and critical legal theory.

awards won by anatomy of a fall: They Don't Want Her There Carolyn Chalmers, 2022-04-06 Before the nation learned about workplace sexual harassment from Anita Hill, and decades before the #MeToo movement, Chinese American professor Jean Jew M.D. brought a lawsuit against the University of Iowa, alleging a sexually hostile work environment within the university's College of Medicine. As Jew gained accolades and advanced through the ranks at Iowa, she was met with increasingly vicious attacks on her character by her white male colleagues—implying that her sexuality had opened doors for her. After years of being subjected to demoralizing sexual, racial, and ethnic discrimination, finding herself without any higher-up departmental support, and noting her professional progression beginning to suffer by the hands of

hate, Jean Jew decided to fight back. Carolyn Chalmers was her lawyer. This book tells the inside story of pioneering litigation unfolding during the eight years of a university investigation, a watershed federal trial, and a state court jury trial. In the face of a university determined to defeat them and maintain the status quo, Jew and Chalmers forged an exceptional relationship between a lawyer and a client, each at the top of their game and part of the first generation of women in their fields. *They Don't Want Her There* is a brilliant, original work of legal history that is deeply personal and shows today's professional women just how recently some of our rights have been won—and at what cost.
