Understanding Adjunct Professor Roles

Adjunct professors are part-time faculty who are hired on a contractual basis to teach specific courses at colleges and universities. In the realm of online business education, adjunct roles have become essential due to the flexibility and expertise they provide. These positions allow institutions to offer a diverse range of courses without the financial commitment of full-time faculty. Adjunct professors typically focus on teaching, while research responsibilities are usually minimal or nonexistent.

In an online business context, adjunct professors may teach various subjects, including finance, marketing, management, and entrepreneurship. The role often involves preparing course materials, delivering lectures, and evaluating student performance, all done through virtual platforms. The adaptability required to teach online, combined with an understanding of business concepts, makes this role vital in shaping future business leaders.

adjunct professor jobs online business: Issues in Global Business SAGE Publishing, 2021-03-11 In 2020, COVID-19 starkly demonstrated the global interconnectedness of business, as it disrupted supply chains and manufacturing operations, broadly shuttered retail stores, and led to restrictions on movement and travel around the world. Other events in 2019 also showcased the undeniable globalization of business, be it from the (un)expected ramifications of Brexit to the impacts of data breaches across various industries. Riots in Hong Kong over an extradition bill also sparked huge debate and controversy, and the U.S.-China trade war also caused concern. All of these events may have largely and immediately impacted one region, yet effects reverberate across larger swathes of the globe—ultimately affecting vast areas, industries, and sectors across the international landscape. Issues in Global Business explores all of these and more, across a wide range of topics, including the on-demand economy, global manufacturing, Bitcoin, data security, and many more. Coupled with a comprehensive overview of the business landscape around the world by Dr. Mamoun Benmamoun, an assistant professor at the Boeing Institute of International Business at Saint Louis University, this book provides students with the essential information they need to assess business practices through an international lens.

adjunct professor jobs online business: *Inglorious Pedagogy* Keren Dali, Kim M. Thompson, 2023-04-25 Topics and issues in library and information science education pedagogy are commonly discussed in panels, conferences, peer-reviewed articles, professional articles, and dedicated monographs. However, in this abundance of education-oriented discussions, there are several noticeable gaps and omissions. Not always do education-oriented publications involve theoretical grounding that could make them stronger in argumentation and more generalizable to other contexts. Addressing these gaps, the book stands to strengthen the less covered areas of library and information science (LIS) pedagogical thought; it enriches a theoretical foundation of pedagogical discourse and broadens its scope. This volume brings together a collection of essays from LIS educators from around the world who delve into difficult, unpopular, and uncommonly discussed topics—the inglorious pedagogy, as we call it—based on their practice and scholarship. Presenting perspectives from Australia, Canada, China, New Zealand, the United Kingdom, and the United States, each chapter is a case study, rooted not only in the author's experience but also in a solid theoretical or analytical framework that helps the reader make sense of the situations, behaviors, impact, and human emotions involved in each. The collective thought woven in the book chapters leads the reader through the milestones of (in)glorious pedagogy to a better understanding of the potentially transformative nature and wasted opportunities of graduate LIS education and higher education in general.

adjunct professor jobs online business: We Are the Ashes, We Are the Fire Joy

McCullough, 2022-02-08 From the author of the acclaimed Blood Water Paint, a new contemporary YA novel in prose and verse about a girl struggling with guilt and a desire for revenge after her sister's rapist escapes with no prison time. Em Morales's older sister was raped by another student after a frat party. A jury eventually found the rapist guilty on all counts--a remarkable verdict that Em felt more than a little responsible for, since she was her sister's strongest advocate on social media during the trial. Her passion and outspokenness helped dissuade the DA from settling for a plea deal. Em's family would have real justice. But the victory is short-lived. In a matter of minutes, justice vanishes as the judge turns the Morales family's world upside down again by sentencing the rapist to no prison time. While her family is stunned, Em is literally sick with rage and guilt. To make matters worse, a news clip of her saying that the sentence makes her want to learn how to use a sword goes viral. From this low point, Em must find a new reason to go on and help her family heal, and she finds it in the unlikely form of the story of a fifteenth-century French noblewoman, Marguerite de Bressieux, who is legendary as an avenging knight for rape victims. We Are the Ashes, We Are the Fire is a searing and nuanced portrait of a young woman torn between a persistent desire for revenge and a burning need for hope.
