air canada flights business class: Shanghai & Surroundings Travel Adventures Simon Foster, 2011-04-15 Eastern China is the country's boom-belt and its heart is the Pearl of the Orient, Shanghai, a city which was recently wonderfully described to me as Hong Kong on steroids. Shanghai is the country's most modern city, but manages to retain both its Chinese and European history and its economic development is also helping a renaissance in culture and the arts, along with a shopping and nightlife scene matched only by Beijing and Hong Kong. Around Shanghai, the Water Towns have picturesque canals lined with classic Ming architecture and can make for great day trips, and a little further out, the city of Suzhou offers more of the same, albeit on a larger scale, along with some of the country's finest gardens and the opportunity for some serious silk shopping. Nearly 100 miles south along the Grand Canal, the former Southern Song dynasty (1126-1279) capital of Hangzhou is set on pretty West Lake and is a prime tea-growing region. Away from the lake the city is much like any other Chinese city, but the surrounding countryside and its smattering of temples and tea villages make for some excellent bike rides. Some 110 miles west of Hangzhou, Huangshan is arguably the most beautiful of eastern China's mountains and offers the region's finest

scenery and best hiking. The mountain's mist-shrouded, jagged peaks, lone pines and perched temples are straight from a watercolor and it's no wonder Huangshan attracts so many visitors. But fortunately there are enough paths to ensure you can always find yourself a quiet spot. Known as the Pearl of the Orient, Shanghai has endured a boom-bust cycle like no other city in China and is a must-see for a glimpse into the China of the future. It currently has some 20 million residents. A walk along the Bund on the banks of the Huangpu River offers a cityscape to rival Hong Kong's, taking in the glory of Shanghai's colonial past, while at the same time giving views across the river to the city of tomorrow, Pudong. Less than 20 years ago, this was just marshy farmland, but today it boasts countless skyscrapers, among them China's highest tower, the Pearl Oriental TV Tower, and loftiest lodgings, the 88-floor Grand Hyatt. Traditional Chinese sights are a little sparse due to Shanghai's comparative youth, but its colonial and revolutionary history over the past 150 years has left it with a series of significant political buildings. What is more, there are modern activities aplenty, reflecting the city's dynamic and modern heart - fine dining, nightlife, shopping and a kaleidoscope of exhibition centers and good museums await. This a highly detailed guide to everything you need to know about Shanghai and its surroundings - the places to stay, the restaurants, and what to see and do - along with an extensive introductory section on China as a whole. The author lives in China and has been a tour guide there full-time for close to 10 years. This guide is an excerpt from his much larger guide to all of China, also published by Hunter, which is 650 pages in the print edition.

air canada flights business class: **Beijing and Surroundings** Simon Foster, 2011-04-15
Arrive in Beijing and spend a few days soaking up the Imperial sights at the Forbidden City, Temple of Heaven, Summer Palaces and the Great Wall. Spend your evenings enjoying Beijing duck, opera and maybe a trip to the acrobats. If you have time, take a train up to Chengde and spend a couple of days enjoying the imperial retreat before returning to the capital and flying on to Xi'an. Allow a full day at the Terracotta Warriors and another day to explore the fascinating walled city. Make sure you enjoy a Dumpling Banquet, as well as dinner in the Muslim markets. Reflect on your trip in the overnight train back to Beijing. Beijing, literally translated, means Northern Capital, a title it has held since the Ming Dynasty (see History) and a name that still holds true today. Whether imagining the past or marveling at the future, this city is most definitely still the cultural, political and, to the Pekinese, geographical, heart of the Middle Kingdom. While Beijing's modern appearance owes much to the Communist era and the recent influx of capitalist cash, its most impressive and inspiring monuments are recognition of its long imperial tradition. The scale of the city, with its population of 15 million, can initially be overwhelming, but even a short meander into one of Beijing's remaining hutong districts brings you close to the realities of daily life and all of a sudden the city seems human again. While the vast number of construction sites, flyovers and mirrored skyscrapers can

come as a shock to those hoping for a view of the years when Beijing was the emperor's seat, a visit to any one of the principal imperial sights (the Forbidden City, the Temple of Heaven or the Summer Palaces) easily remedies this. However, the greatest of Beijing's, if not the world's, sights lies north of the city. The Great Wall never ceases to amaze and it's worth spending a couple of days out of the city to fully appreciate its majesty. If you have enough time and want more imperial splendor, the rugged countryside around the capital holds Ming and Qing tombs, while, farther afield, the Mountain Resort at Chengde was long a popular emperor's haunt and has some wild scenery along with its subdued palaces and grand temples. This a highly detailed guide to everything you need to know about Beijing and its surroundings - the places to stay, the restaurants, and what to see and do - along with an extensive introductory section on China as a whole. The author lives in China and has been a tour guide there full-time for close to 10 years. This guide is an excerpt from his much larger guide to all of China, also published by Hunter, which is 650 pages in the print edition.

air canada flights business class: China's Pearl River Delta, Guangzhou & Shenzhen

Simon Foster, 2010-09-14 The economic heart of South China, the Pearl River Delta is both agriculturally and financially fertile and is one of the most developed parts of China. Intensely cultivated land is interspersed with some of China's newest and fastest-growing cities, which are linked by some of the country's best and most integrated transport services. The Delta's location makes it a popular trip from Hong Kong and a major gateway to enter China itself. Foremost among the Delta's gang of youthful upstart cities is Shenzhen, which was the first of China's Special Economic Zones (SEZs) and has grown from nothing to challenge the traditional heart of the region, Guangzhou, in less than 30 years. While Shenzhen has little in the way of historic sights, it offers shopping, skyscrapers and theme parks along with some insight as to what China's future looks like. Seventy miles to the north, Guangzhou has a longer history, but is also reaping the economic whirlwind. It's definitely worth a quick stop for its blend of Cantonese cuisine, markets, colonial relics and the gritty taste of a real Chinese city. With a population of seven million and long known in the West as Canton, modern Guangzhou provides many visitors with their first glimpse of a mainland Chinese city. Frenetically busy, polluted and steamily hot in summer, Guangzhou's conventional sights are comparatively sparse, but the city is renowned worldwide for its cooking and is worth visiting on these grounds alone. Before Hong Kong rose to prominence, Guangzhou was one of China's primary trading posts and as a result it has a wide ethnic diversity, including a large Hui (Muslim) population, and a smattering of colonial architecture, much of which is found on charming Shamian Island. Guangzhou is at the heart of the south's economic revolution. Although it is still undoubtedly a polluted city, attention is being paid to the environment, albeit often only in the most aesthetic sense. Every time I visit I notice new areas of greenery and the city is becoming more and more visitor-friendly. There is an ever-expanding subway network, a new airport and improved links with other Pearl River Delta destinations. There are also a host of sights to visit within a two-hour transport radius of Guangzhou and the city makes a good base from which to explore smaller towns such as Huizhou and Zhaoqing. This guide is based on our 640-page China Adventure Guide. Following are some reviews of that book: We travel to grow â€ Adventure Guides show you how. Experience the places you visit more directly, freshly, intensely than you would otherwise â€ sometimes best done on foot, in a canoe, or through cultural adventures like art courses, cooking classes, learning the language, meeting the people. This can make your trip life-changing, unforgettable. All of the detailed information you need is here about the hotels, restaurants, shopping, sightseeing. But we also lead you to new discoveries, turning corners never before turned, helping you learn about the world in a new way â€ Adventure Guides make that possible. Having traveled extensively through China over many years, I can see the book's intimacy, not only with the locations, but also with the locals in each place. The author reveals the secrets that he's learned from his long association with China. (Jason Williams, Managing Director, Grasshopper Adventures). A thorough guide not only to traveling in China but also to the country's history and culture, this should satisfy the novice and seasoned traveler alike. Each city and region is covered from all angles, including activities for those traveling with children. An informative read for those unfamiliar

with the country and an excellent way to brush up for the more experienced traveler, this is an excellent guide for planning a China vacation. (Publishers Weekly).
