a321 business class turkish airlines: Havayollarında hizmet: konfor, faaliyet ve performans ilişkisinin değerlendirilmesi Dr. Tüzün Tolga İNAN, 2019-10-20 17 Aralık 1903 tarihinde Wright Kardeşlerin ilk başarılı motorlu uçuş denemesiyle başlayan sivil havacılık tarihi günümüzde dünyanın en büyük endüstrilerinden biri haline gelmiştir. Her ne kadar 2003 yılına kadar ülkemiz için sivil havacılık büyük bir aşama kaydetmese de, 2003 yılından sonra milat niteliğinde gelişmeler gerçekleşmiştir. Doktor ünvanını aldığım halen sivil havacılık alanında lisanslandırmaya sahip tek Üniversite olan Anadolu Üniversitesi ile başlayan sivil havacılık alanında ihtisas veren Üniversite ve Meslek Yüksekokulları, özellikle 2011 yılından itibaren sayıca üst limitlere ulaşmıştır. Ancak unutmamak gerekir ki, havacılık bir nevi aşkla ifa edilmesi gereken bir meslektir. İçerisinde pilotaj, hat ve bakım teknisyenliği, uçuş hareket yöneticiliği (dispeçerlik), uçuş ve misafir kontrol uzmanlığı, kabin, hareket, yolcu hizmetleri ve kargo memurluğu olmak üzere birçok iş tanımı bulundurmaktadır. Kendim için düşündüğüm zaman bana havacılığı sevdiren kişi babam olmuştur. Özellikle sektörel olarak 30 yılın üzerinde Türk Hava Yolları tecrübesinin bulunması ve beni havacılık alanında doktora yapmaya itmesi kariyerim için en önemli adımlardan bir tanesi oldu. Tabii herşey burada anlatmak istediğim kadar güllük gülistanlık olmamakla birlikte, vardiyalı çalışma düzeni ve yoğun tempo havacılığın olmazsa olmazıdır. Bu nedenle öğrencilere ve bu alanda kariyer yapmak isteyenlere tavsiyem, havacılığın para için yapılacak bir meslek olmadığının bilincinde olmaları gerektiğidir. Bu kitabı yayımlama sebeplerimden bir tanesi de kamuoyu tarafından bilinmeyen ya da bilindiği zannedilen bu endüstride hizmet-konfor ve performans parametrelerinin ne olduğunun ve bir havayolu şirketini hangi ölçüde etkilediğini göstermek istememdir. Bu kitap umarım hem akademik hem de sektörel camiada tüm havacılık çalışanlarına ve havacılık sevdalılarına faydalı olacak bir eser olacaktır. Unutmamak gerekir ki burada önemli olan konu 5 yıllık değerler ile 2016 yılında hangi verilerin elde edildiği değil, bu verilerin havacılık şirketleri için öneminin farkına varılması olacaktır.

a321 business class turkish airlines: Wings Over the World: The Journey of Turkish Airlines Navneet Singh, Introduction Turkish Airlines, the national carrier of Turkey, is more than just an airline. It is a symbol of the nation's ambition, progress, and global connectivity. From humble

beginnings to becoming one of the world's leading airlines, Turkish Airlines' journey has been marked by resilience, innovation, and a commitment to quality service. This book seeks to explore the fascinating history, growth, and impact of Turkish Airlines, shedding light on its role as a global carrier bridging East and West, and its position in the modern world of aviation.

Chapter 1: The Birth of Turkish Airlines In this chapter, we explore the early history of Turkish Airlines, founded in 1933 as State Airlines Administration under the direction of the Turkish government. Initially, it was a small operation with a limited fleet, primarily servicing domestic routes. The challenges of the early years, including the influence of global conflicts and economic difficulties, shaped the airline's foundations. Key milestones: The first flights and the transition from a governmental service to a commercial airline. The introduction of international routes in the 1950s. The significance of the airline's early international expansion as a way to establish Turkey's presence on the world stage.

Chapter 2: The Expansion Era (1960-1980) As Turkey's economy began to grow in the post-war era, Turkish Airlines focused on expanding its fleet and routes. This chapter discusses the importance of international relations, with a special focus on Europe and the Middle East, as well as how Turkish Airlines built strategic partnerships with global carriers during this period. Key milestones: The launch of the first transatlantic flights in the 1980s. The introduction of jet aircraft into the fleet. The airline's first steps towards becoming a global player in aviation.

Chapter 3: Modernization and Globalization (1990-2000s) The 1990s were a time of significant transformation for Turkish Airlines. This chapter takes readers through the airline's modernization efforts, including fleet upgrades, technological advancements, and the expansion of its global network. The introduction of new services, such as business class and expanded in-flight entertainment, played a role in making Turkish Airlines a highly competitive player on the global stage. Key milestones: The rise of Istanbul as a major aviation hub. The establishment of Turkish Airlines as a prominent player in Europe, Asia, and Africa. The airline's membership in the Star Alliance in 2008.

Chapter 4: Turkish Airlines in the 21st Century - Innovation and Growth The new millennium marked a period of explosive growth for Turkish Airlines. As one of the fastest-growing airlines in the world, it began to dominate both short and long-haul routes. This chapter focuses on how Turkish Airlines' strategy of focusing on both quality service and cost-effectiveness allowed it to thrive. Key milestones: The launch of the "Widen Your World" campaign and the global brand recognition it brought. The modern fleet and the arrival of the Boeing 777 and Airbus A350. The role of Istanbul Airport as a global aviation hub.

Chapter 5: Service Excellence and Innovation Turkish Airlines is often lauded for its exceptional in-flight service, and this chapter dives deep into the airline's approach to hospitality. We explore its iconic in-flight meals, luxurious business class offerings, and dedication to delivering a cultural experience, all while maintaining world-class efficiency. Key topics: The impact of its partnerships with renowned chefs for in-flight cuisine. How Turkish Airlines crafts a cultural experience for passengers, combining hospitality with Turkish heritage. Innovations in customer service, including the use of technology to enhance the flying experience.

Chapter 6: Sustainability and Environmental Efforts As a major global airline, Turkish Airlines is also committed to sustainability. This chapter looks at the airline's green initiatives, such as reducing carbon emissions, adopting more efficient aircraft, and its environmental responsibility programs. Key areas of focus: The development of sustainable aviation fuel (SAF). The fleet's move towards more eco-friendly models. Turkish Airlines' efforts to minimize its environmental footprint at Istanbul Airport.

Chapter 7: Challenges and Resilience No journey is without its obstacles. This chapter covers some of the significant challenges that Turkish Airlines has faced, including financial crises, geopolitical tensions, and global pandemics. The resilience of Turkish Airlines in these challenging times speaks to the strength of its leadership and its ability to adapt to an ever-changing world. Key topics: The impact of 9/11 and global crises on the airline industry and Turkish Airlines' survival strategy. The financial difficulties and restructuring efforts in the early 2000s. Coping with the effects of the COVID-19 pandemic and the airline's strategies for recovery.

Chapter 8: Turkish Airlines Today: A Global Leader Today, Turkish Airlines stands as one of the largest and most respected airlines in the world. This chapter explores the airline's current standing in the aviation world, its global reach, and its future direction.

Key topics: The airline's global network, now serving over 300 destinations worldwide. The strategic role of Istanbul Airport in the airline's success. The ongoing commitment to innovation and technological advancements. Chapter 9: The Future of Turkish Airlines What's next for Turkish Airlines? In this final chapter, we look forward to the airline's future, focusing on its plans for fleet expansion, sustainability, and further increasing its global influence. The role of Turkish Airlines in the future of air travel, especially as the aviation industry grapples with new technologies, climate challenges, and evolving consumer preferences, is examined. Key considerations: The role of artificial intelligence and automation in improving operations. The impact of new, greener technologies on air travel. The continuing importance of strategic partnerships with other airlines. Conclusion Turkish Airlines' journey is one of ambition, innovation, and dedication. From its modest beginnings to its position as one of the leading global airlines, Turkish Airlines has overcome challenges, embraced opportunities, and connected the world through the skies. As it continues to innovate and evolve, Turkish Airlines remains a beacon of Turkish pride and a key player in the global aviation industry.

a321 business class turkish airlines: Merger Talks Between Lufthansa and Turkish Airlines Tim Wiebusch, 2014-05-13 Seminar paper from the year 2013 in the subject Business economics - Investment and Finance, grade: 1,0, University of Applied Sciences Wildau (Institute of Technology), language: English, abstract: During the last visit of the Turkish Prime minister Recep Tayyip Erdogan in Germany in November 2012 the German chancellor Angela Merkel told him that she would like the two countries to work on a joint management and operations of the two airline giants, Lufthansa (LH) and Turkish Airlines (TK). Erdogan seemed quite flattered about the offer responding later in an interview with the Turkish media (translated quote): During my visit to Germany, Chancellor Merkel offered to establish joint management for LH and TK. And I have responded positively to Merkel's offer. We have already had plans for joint projects and I hope to take such a joint step together. Since then there have been numerous rumours in the news about a possible merger between LH and TK. The intent of this paper is to discuss what is behind these rumours and analyse the possibility of such a merger. For this purpose we have split the paper in four parts. In the first part we will talk about the present situation of the European aviation business, specifically in the case of LH and TK. We are also going to introduce the two companies and analyse several aspects of them i.e. past development, performance of the last years, current

financial situation and company strategy. Additionally we will present the strengths and weaknesses of each company and the challenges they are facing at the moment. In the second part we will analyse what possible benefits could arise from a merger of the two companies and briefly outline some of the challenges the airlines will have to overcome to make a merger successful. In the third part the possible forms of cooperation will be discussed. Finally in the fourth and last part, we will assess the future perspective and the external impact of such a merger. Throughout the paper
