azul business class: Women in Logistics, Transport and Commodity Sector Nor Aida Abdul Rahman, Emilia Vann Yaroson, Norlin Khalid, Fathien Azuien Yusriza, 2025-04-22 This book explores the fundamental human right of gender equality as a cornerstone for a peaceful, affluent, and sustainable world. Members of the Asia Pacific Economic Cooperation (APEC) and other countries have formulated strategies to increase the participation of women in business and leadership roles, highlighting its significance. Women currently hold 29% of senior or managerial positions, as noted in Catalyst (2019). Despite this progress, women's participation in logistics and transport remains low due to factors like low expectations, limited access to critical skills, and inadequate advancement, especially in aviation, maritime, and rail sectors. The book offers a comprehensive review and empirical study of women's capacity building, talent management, and leadership in logistics, transportation, and commodity sectors, including palm oil, gold, and copper. It covers female empowerment, leadership values, and challenges faced during crises such as COVID-19, wars, and natural disasters. With international case studies, this book is a vital resource for

students, scholars, and practitioners in logistics and transport. It aims to benefit advanced undergraduates, postgraduates, managers, and decision-makers worldwide.

azul business class: Competitive Dynamics Of Air Transport In Brazil: 2008-2014 Luiz Fernando Abel, 2021-06-04 Commercial aviation in Brazil has been facing great changes in the past years, from the regulatory point of view to a competition perspective, given the increase in demand, revision of past legislation and the rise of new players in this market. The airline business has showed to be very dynamic in Brazil, with the rise and fall of a number of companies. One of them specifically, called VARIG - Portuguese acronym for Viação Aérea Rio-Grandense -, which stopped operating domestic and international routes in 2006, changed the market significantly, since it was the longest standing air company in the country and also the market leader. This scenario of disruption, after VARIG's bankruptcy, gave room to the consolidation of other major companies already operating at that time - TAM and Gol -, as well as the emergence of Avianca Brazil and Azul, which absorbed part of the increasing demand for air transport in the country and placed this market into a new era of competition. All these factors combined with the flexibility given, due to revision of legislation - referring to prices and alliances, for example -, have transformed the way business in the industry are run. Hence the changes in the way air companies operate nowadays and provide different types of services. Thus, the purpose of this work is to understand what are the competitive advantages of the Brazilian airline companies to face the local competition, given the changes between 2008 and 2014 in this sector's environment. In addition, this work aims to identify competitive changes with possible new entrants to this market in the future.

Courtney Sullivan, *New York Times* bestselling author of *Friends and Strangers* “A vibrant and hilarious debut...Pineapple Street is riveting, timely, hugely entertaining and brimming with truth.” —Cynthia D’Aprix Sweeney, *New York Times* bestselling author of *The Nest* Darley, the eldest daughter in the closely-tied, carefully-guarded, old money Stockton family, made the classic feminine mistake and gave up her job for her children before she realized she’d sacrificed more of herself than she intended; Sasha married into the Stocktons, and finds herself the outsider looking into the fishbowl, wondering if she will ever understand their ways; and Georgianna, the baby of the family, has fallen in love with someone she can’t (and really shouldn’t) have, and must confront the kind of person she wants to be. azul business class: Comebacks Andrea Redmond, Patricia Crisafulli, 2010-04-26 Gold Medal Winner, Success and Motivation, 2011 Axiom Business Book Awards Insight from leaders who experienced major setbacks and redefined success In tough economic times, when careers are derailed and leaders are forced to rewrite their professional plans, this book enlightens and uplifts. Comebacks features an all-star cast of ten leaders who endured setbacks—for some a public fall in the midst of media scrutiny—then reassessed and moved ahead with new purpose. Based on revealing interviews, the book presents a behind-the-headlines glimpse into the lives of leaders; how they drew upon resources, both internal and external, to move on; and the lessons that helped them redefine success. Leaders profiled include: Jacques Nasser, former CEO of Ford Motor Co., recently appointed Chairman of BHP Billiton, the world’s largest natural resources company Patricia Dunn, former Chair of Hewlett-Packard, vilified for her alleged role in corporate espionage only to be exonerated from all charges, today active in philanthropy Jamie Dimon (JP Morgan), Herbert Pug Winokur (Enron Corp.), David Neeleman (JetBlue), and more Redmond, a top executive recruiter, and Crisafulli, author of *The House of Dimon*, show how all leaders face adversity, but true leaders turn adversity into success.

azul business class: *Racial Dynamics in Early Twentieth-Century Austin, Texas* Jason McDonald, 2012-06-14 This pioneering study sheds new light on racial dynamics in the urban Southwest at a critical juncture in the history of the region and the nation. It focuses upon the experiences of ethnoracial minorities, particularly African Americans and Mexican immigrants in Austin, Texas from the dawn of the Progressive Era to the onset of the Great Depression. Through this lens, McDonald explores the issues of migration, proletarianization, marginalization, adaptation, identity, and community. He reveals how, in response to the exponential growth of the local ethnic-Mexican population, the white elite of the Lone Star State’s capital adapted the city’s bipartite system of segregation, which had traditionally separated blacks from whites, to incorporate Mexicans as a third and separate element, neither black nor white. As well as examining how African Americans and Mexican Americans responded to life in a racially-stratified society, McDonald examines the often fraught relationship between these groups.
