best ideas for a home business: 48 Home Business Ideas Guide Manuela Willbold, Fernando Raymond, Introduction "Your time is limited, so don't waste it living someone else's life. Don't be trapped by dogma — which is living with the results of other people's thinking. Don't let the noise of others' opinions drown out your own inner voice. And most important, have the courage to follow your heart and intuition. They somehow already know what you truly want to become. Everything else is secondary. "– Steve Jobs, Co-founder of Apple Have you ever really taken the time to think about what you actually want out of your own life? It's not an easy task and many people don't make the effort as they probably feel it's not that important. But, if you're in a place where you're questioning your lifestyle and what you do for a living, then this should be the first step you take to identify what you really want to spend the majority of your time doing. At ClickDo Ltd., a digital marketing & SEO agency in London, the authors do what they love every single day and with this book they want to provide you with inspiration to find something you can see yourself doing in the near future. Fernando Raymond, the CEO of ClickDo Ltd., and Manuela Willbold, blogger & senior content writer at ClickDo Ltd., have created this guide with a mission to show people that as the internet marketplace grows, there are almost endless work options online for anyone with any talent and skill. With the creative support and vision of ClickDo senior web designer Kasun Sameera,

this book has come to life. “In 20 years, you will be more disappointed by what you didn’t do than by what you did.” – Mark Twain, American writer We’ve all gone through this same experience: we went to school, got a degree and worked – but did we do what we felt passionate about? Fernando started ClickDo Ltd. because he asked himself that exact question. His vision was to lead a free life where he could work from anywhere in the world. He identified his passion for SEO and digital marketing and set up ClickDo Ltd. with only a few clients in the early days. Kasun joined him and together they went on the journey of building many more online businesses like web hosting company SeekaHost. Manuela felt an emerging passion for writing while working as a teacher and found ClickDo while searching for WordPress Training to start her own blog. Now, she writes content and manages various ClickDo blogs. If they can do it, so can you!

Author Bio Publisher Introduction Being rather well acquainted with the youngsters of generation Z, - between the age of 18 and 35, especially when I was counseling them for their prospective career preferences, I noticed that a number of them had just one desire, start up a business of your own and become an entrepreneur and after 10 years become a multimillionaire. Seriously speaking, large number of ambitious young men and women are under the impression that entrepreneurship is a piece of cake, because there are so many business opportunities available all over the world for them, and they just have to open up the oyster grabbed the pearl inside. What they do not know is that many of these dreams remain just pipedreams, because of lack of proper advice, guidance and even financial resources. I was doing a little bit of research online and I was horrified to see a large number of books written by so-called startup manager gurus, which an ambitious person bought at prices ranging from \$19.99 - only for the next 48 hours. Otherwise you will have to buy it at \$38.99 and so on - to a higher price range. And all of them spoke about business plans, strategies, markets, setups and business this and that. All right, I learned it all, when I was getting my higher professional qualifications in business administration and management, in the age of the dinosaurs, when Peter Drucker ruled supreme as Tyrannosaurus Rex, and the more things change, the more they remain the same. We business professionals, just loved to make everything so complicated for our future students, to impress them about how knowledgeable we were. We had graphs, plans, flowcharts, and anything else which would look very impressive on the whiteboard or on paper, or on LCD presentations. And everybody would marvel and say, "Wow, our professor, really knows her subject really well, doesn't she. I could not understand half of what she was saying. But it was pretty impressive, yes, sirree, Bob." Been there done that, confused my students thoroughly. That is why, I am going to write a totally non-confusing book for all the youngsters out there, who have been thoroughly confused by their counselors, guided to within an inch of their lives by their advisors, or have had their gray matter scrambled well by their egghead professors. This book is going to tell you all about general tips and techniques, for ideas for businesses where you are going to be working from your home, and you do not have to go borrowing thousands of dollars for initial start up seed funding, from your bank or from your relatives because you wanted to start big, in keeping with your ego, status and to soothe your own self-respect and to make a splash in the neighborhood or business world.
