Everette E. Dennis, Sharon P. Smith, 2006-06-30 Ultimately, finding the best and most appropriate business school requires more than following trends and assessing rankings. Dennis and Smith offer an approach that is designed to help prospective MBA students cast their nets widely, thinking more expansively, creatively, and strategically, with both short- and long-term implications in mind. Discussing the pros and cons of a formal business education (in the context of evolving attitudes toward management and the role of the MBA in developing successful leaders), the authors help readers identify their underlying motivations for pursuing an MBA, learn how to read between the lines of the popular rankings, and utilize the concept of return on investment (ROI) to evaluate programs on the basis of their contribution to long-term professional and personal goals. At a time when one-fourth of all master's degrees conferred are in business, *Finding the Best Business School for You* offers practical insights for making wise decisions and getting the most out of the MBA experience. The truth is that, in response to changes in the global business environment, many schools are redesigning their curricula, forging closer ties with businesses, and giving students more freedom to customize their degrees. Some of the most innovative programs are being designed at public universities and other institutions out of the spotlight.

best business schools in the east coast: Business Ethics Education and the Pragmatic Pursuit of the Good Francis J. Schweigert, 2016-08-12 This book is an extended argument for the critical importance which justice and ethical leadership should have in business ethics education. The book examines the history of ideas and purposes in education, the contemporary role of business schools, and the social foundations of moral education to conclude that the pragmatic pursuit of the good must be a central aim of business strategy. To meet the challenges of facing society today, the masters of business must be moral craftsmen in a just and democratic private property economy that serves the common good. The author grounds this vision for business leadership in the centrality of systems of exchange in human society, in generating prosperity and providing for the general welfare. Business ethics education has focused primarily on moral formation of individual leaders and managers in the context of ethical codes, organizational culture, and legal compliance. Important as this approach is, it fails to generate a sufficient level of business responsibility to satisfy legitimate social concerns regarding the use of natural resources, environmental sustainability, reasonable limitation of systemic risk in capital markets, and fair allocation of goods and services. If the social purpose of business is not intentionally embraced and diligently pursued, the economy may enrich a few but impoverish the society, its resources, and its democracy. Hence this book argues for a new vision of business ethics that is grounded in public accountability of business operations and outcomes for the common good, as a matter of justice.

best business schools in the east coast: The Golden Season Madeline Kay Sneed, 2022-05-31 How do you love a place that doesn't love you back? Emmy Quinn is West Texas through and through: her roots run deep in the sleepy small town of Steinbeck, where God sees all and football is king. She loves her community, but she knows that when she comes out as a lesbian, she may not be able to call Steinbeck—which is steeped in the Southern Baptist tradition—home anymore. After a disastrous conversation with her dad, Emmy meets Cameron, a charismatic, whip-smart grad student from Massachusetts who hates everything Texas. But Texas is in Emmy's blood. Can she build a future with a woman who can't accept the things that make Emmy who she is? Steve Quinn has just been offered his dream job as head coach of the struggling high school football team, the Steinbeck 'Stangs. The board thinks he can win them a state championship for the first time—but they tell him he can't accept the position if he's got any skeletons in his closet. Steve is still wrestling with Emmy's coming-out: he loves his daughter, but he's a man of faith, raised in

the Baptist community. How can God ask him to choose between his dreams and his own daughter? This lush, gorgeously written debut is a love letter to the places we call home and asks how we grapple with a complicated love for people and places that might not love us back—at least, not for who we really are. The Golden Season is a powerful examination of faith, queerness and the deep-seated bonds of family, and heralds the arrival of a striking new voice in fiction. Don't miss Madeline Kay Sneed's next riveting novel, *Today Tonight Forever*, where one wedding weekend results in a dramatic reunion with layers of love, grief, and moving on...

best business schools in the east coast: Integrating Gender Equality into Business and Management Education Patricia M. Flynn, Kathryn Haynes, Maureen A. Kilgour, 2017-09-08 This volume addresses the need to integrate gender equality into business and management education and provides examples of leading initiatives illustrating how this can occur from various disciplinary and global perspectives. Gender inequality has a long history in business schools and the workplace, and traditions are hard to change. Some disciplines remain resolutely gendered, affecting both women and men; and case materials on women leaders and managers are still rare. The chapters provide conceptual and research rationales as to why responsible management education must address the issue of gender equality. They also identify materials and resources to assist faculty in integrating gender issues and awareness into various disciplines and fields. These include specific case studies and innovations that assess or address the role of gender in various educational environments. The book is designed to help faculty integrate the topic of gender equality into their own teaching and research and gain support for the legitimacy of gender equality as an essential management education topic. This is the first book in a series on gender equality as a challenge for business and management education, published with the Principles of Responsible Management Education (PRME) Working Group on Gender Equality.

This book tells the inspiring stories of 12 athletes drawn from a variety of backgrounds and sports. Men and women, black and white, Acadian and Mi'kmaq, able-bodied and non able-bodied. The common thread: young people who grow up in the Maritimes, with backgrounds that every reader will recognize, can and do chalk up impressive achievements. And they stay true to their roots in doing so. As CBC broadcaster Bruce Rainnie writes in the book's preface, In every character-defining way, [the featured athletes are exactly the same today as before any money or acclaim entered their lives. No wonder we punch so far above our weight. No wonder so many of our stories are 'unlikely but possible.' And no wonder we relish in hearing these stories told, as Philip Croucher does so tastefully in this book. Quiet confidence, humility, and a rock-solid base. What a mix. What an unbeatable mix. What a Maritime mix.

best business schools in the east coast: *When Things Go Wrong* Helmut K. Anheier, 1999-01-01 To understand success, you must first understand failure. This understanding is especially critical since failure is a phenomenon that is much more common to everyday life, businesses, and government practice than standard theory would lead us to assume. Failure manifests itself in many ways, including breakdowns, bankruptcies, and other forms of organizational catastrophes and fiascos. Thus, learning from failure will enable success. When *Things Go Wrong* brings together contributions from 24 leading scholars who examine the causes, patterns, process, and outcomes of such failures from economic, managerial, cognitive and political perspectives. This book presents failure as a relative concept in terms of the expectations and strategies of stakeholders putting a claim on the performance of the organization and the notion of success. It challenges future research in this field to combine both economic and non-economic performance measures to assess organizational tendencies toward success and failure and to differentiate between failure as process and failure as an outcome.
