**brother elijah family business: Our Family Dreams** Daniel Blake Smith, 2025-09-23 In the early years after the Revolution, Americans were on the move, seeking to establish a new way of life. And, more than the church or the school or the courthouse, it was the family that nurtured the American Dream. In this novel-like narrative, Daniel Blake Smith vividly brings to life the Fletchers, a family of loving, ambitious, at times insecure pioneers who scattered across the vast expanse of post-revolutionary America but kept in touch through letters despite their wildly different life paths. On a hard scrabble farm in Vermont, the patriarch, Jesse Fletcher, struggled with debt and depression but managed to educate his children, especially his son Elijah, a Yankee who moved to Virginia, shocked by the horrors of slavery but then seduced by the plantation lifestyle. Another son, Calvin, left at age 17 for Indianapolis to become a self-made lawyer, banker, and a prominent citizen and passionate abolitionist. The grandchildren include Indiana, a women's education activist who donated her home to create Sweet Briar College; black sheep Lucian, who went to California to join in the gold rush; and physician Billy captured as a spy during the Civil War. Through letters and diaries, we find in *Our Family Dreams* that the Fletchers appear surprisingly similar to us; they dream, fret, fight, and love. Despite numerous heartaches and setbacks, their spirit of enterprise, sacrifice, mobility, and education endures as American values to this day.

**brother elijah family business: Arthur Mervyn; or, Memoirs of the Year 1793** Charles Brockden Brown, 2008-03-15 Set during the epic Philadelphia yellow fever epidemic of 1793, Charles Brockden Brown's classic gothic novel *Arthur Mervyn; or, Memoirs of the Year 1793* connects the outbreak with the upheavals of the revolutionary era and the murderous financial networks of Atlantic slavery. This edition of *Arthur Mervyn* offers selections from key contemporary texts as well as excerpts from Brown's own writings on slavery, race, and the uses of history in fiction.

**brother elijah family business: The Emancipator** Elihu Embree, 1995 Elihu Embree and his family were Quakers who were committed to the cause of abolishing slavery in the American South. Over a few short years, he raised the public consciousness in East Tennessee and achieved wide recognition with the publication of *The Emancipator*, the first periodical in the United States devoted solely to the abolitionist cause. The seven issues of the monthly publication are reproduced here, together with a brief history of Elihu and the Embree family's migration from France to Washington County, Tennessee.

**brother elijah family business: The United States of Appalachia** Jeff Biggers, 2007-03-10 This fascinating in-depth history celebrates Appalachian heroes from Nina Simone to Cormac McCarthy, challenging traditional stereotypes of the American South. Few places in the United States confound and fascinate Americans like Appalachia, yet no other area has been so markedly mischaracterized by the mass media. Stereotypes of hillbillies and rednecks repeatedly appear in

representations of the region, but few, if any, of its many heroes, visionaries, or innovators are ever referenced. Make no mistake, they are legion: from Anne Royall, America's first female muckraker, to Sequoyah, a Cherokee mountaineer who invented the first syllabary in modern times, and international divas Nina Simone and Bessie Smith, as well as writers Cormac McCarthy, Edward Abbey, and Nobel Laureate Pearl S. Buck, Appalachia has contributed mightily to American culture—and politics. Not only did eastern Tennessee boast the country's first antislavery newspaper, Appalachians also established the first District of Washington as a bold counterpoint to British rule. With humor, intelligence, and clarity, Jeff Biggers reminds us how Appalachians have defined and shaped the United States we know today.

**brother elijah family business: Ormond; or, the Secret Witness** Charles Brockden Brown, 2009-09-15 As it tells the story of Constantia Dudley, from her family's financial collapse to her encounters with a series of cosmopolitan revolutionaries and reactionaries, Charles Brockden Brown's *Ormond; or The Secret Witness* (1799) develops a sustained meditation on late-Enlightenment debates concerning political liberty, women's rights, conventions of sex-gender, and their relation to the reshaping of an Atlantic world in the throes of transformation. This edition of *Ormond* includes Brown's *Alcuin* (1798), an important dialogue on women's rights and marriage, as well as his key essays on history and literature, along with selections from contemporary writings on women's education and revolution debates that figure in the novel's background and in the charged atmosphere of the late 1790s.

**brother elijah family business: Marking Time** Fred Brown, 2005 The roadside historical markers of East Tennessee highlight the fascinating personalities and significant events of a culturally and historically rich region. For three years, Knoxville News Sentinel columnist Fred Brown presented the stories behind the local markers placed by the Tennessee Historical Commission. He searched the highways and back roads of East Tennessee, tracking down markers with directions that were sometimes no more specific than "Highway 11, Greene County." Arranged by county, the entries link East Tennessee's past and present and highlight the enormous diversity of the state's history from its prehistoric past through its involvement in World War II. The markers detail bitter struggles with Native Americans in the eighteenth century, but also explain the unique contribution of Cherokee culture and civilization, such as Sequoyah's development of the Cherokee syllabary. Brown commemorates the numerous Civil War sites throughout the region, but he also includes the service of East Tennesseans in later wars. One marker commemorates Kiffin Yates Rockwell, a founding pilot of the Lafayette Escadrille, a famed squadron of aviators in World War I. Another marker details the achievements of Sgt. Elbert L. Kinser of Greene County, who was posthumously decorated for his leadership of a First Marine Division Rifle Platoon on Okinawa. The markers also showcase East Tennessee's unique political history. They tell the story of the "lost state" of Franklin in the 1780s and record the region's efforts to secede from the state when Tennessee left the Union in 1861. Brown's narrative also explains the nature of opposing political factions throughout the decades through the biographies of their leaders, such as Elihu Embree, a Quaker abolitionist who founded an antislavery paper in East Tennessee. From the vantage of the armchair or out on the road, *Marking Time* is a surprising and engaging trip on the byways of East Tennessee's politics, culture, and history through the stories of the men and women who shaped the state.

Newman Award from the American Historical Print Collectors Society (2009) Winner of the Betty M. Linsley Award from the Association for the Study of Connecticut History (2010) This is the first book-length account of the pioneering and prolific Kellogg family of lithographers, active in Connecticut for over four decades. Daniel Wright Kellogg opened his print shop on Main Street in Hartford five years before Nathaniel Currier went into a similar business in New York and more than twenty-five years before Currier founded his partnership with James M. Ives, yet Daniel and his brothers Elijah and Edmund Kellogg have long been overshadowed by the Currier & Ives printmaking firm. Editor Nancy Finlay has gathered together eight essays that explore the complexity of the relationships between artists, lithographers, and print, map, and book publishers. Presenting a complete visual overview of the Kelloggs' production between 1830 and 1880, *Picturing Victorian America* also provides museums, libraries, and private collectors with the information needed to document the Kellogg prints in their own collections. The first comprehensive study of the Kellogg prints, this book demands reconsideration of this Connecticut family's place in the history of American graphic and visual arts. CONTRIBUTORS: Georgia B.
