business can be started from home: 101 Businesses You Can Start with Less Than One Thousand Dollars Heather L. Shepherd, 2007 According to a study by the U.S. Department of Health and Human Services, people starting their working careers will face the following situation when they retire age at age 65: they will have annual incomes between \$4,000.00 and \$26,000.00. According to the Social Security Administration, today's retirees can only count on corporate pensions and Social Security for 61 percent of their income at retirement. This is a collection of businesses selected especially for retirees who are interested in augmenting their income. These businesses can be started with minimum training and investment and are all capable of producing extra income.
