business journal milwaukee: [The Destruction of Black Milwaukee \(1950-2022\)](#) Dr. Michael Bonds, 2023-08-18 The Destruction of Black Milwaukee (1950-2022): A History of Racial Inequality and Injustice provides the most comprehensive study of Black Milwaukee since Joe Trotter's 1985 Black Milwaukee: The Making of an Industrial Proletariat 1915-45. In The Destruction of Black Milwaukee, the reader will learn how institutional racism, public policies, and individual racism contributed to racial inequality and injustices in the city of Milwaukee to the point where Milwaukee is considered the worst city for African Americans to live in the United States. The readers will learn how institutional racism, public policies, and individual racism perpetuated these practices over decades. As outlined in chapter 2 of The Destruction of Black Milwaukee, it shows that based on almost every major socioeconomic indicator (unemployment, poverty, income, welfare reform, and more), Blacks in Milwaukee rank at or near the bottom nationally. The Destruction of Black Milwaukee explores racial inequality in the areas of housing (redlining, racial covenants, home loan denial, refinance denials, gentrification, evictions, etc.), business (business loans denials, racist policies, lack of enforcement of policies, etc.), education (graduation rates, test scores, suspensions, etc.), limits of electoral politics, health disparities (infant mortalities, teen pregnancies, suicides, homicides, etc.) and hospital closings, and the criminal justice system (police killings of African Americans, rape, illegal frisks, brutality, etc.). The Destruction of Black Milwaukee also discusses the role that Black gangs, African American drug dealers, and Black-on-Black homicides contributed to the destruction of Milwaukee's Black community. Moreover, The Destruction of Black Milwaukee discusses the role of Black serial killers and White serial killers in causing deaths and chaos in Milwaukee's Black community during this period. The Destruction of Black Milwaukee concludes with a discussion on the outlook for African Americans in Milwaukee.

business journal milwaukee: Historical Black Milwaukee (1950 to 2022) Dr. Michael Bonds, 2023-08-23 In Historical Black Milwaukee (1950-2022), the author illustrates how an African American community grew over time and the people, events, and institutions that shaped Black Milwaukee. He also shows the contributions that African Americans made to the City of Milwaukee's growth and its history. Bonds provides a detailed discussion on historical Black Milwaukee. He shows how a small Black population of 21,772 (3.41%) out of Milwaukee's population of 637,392 in 1950 grew to become the second-largest racial group in Milwaukee with a total population of 223,962 (38.8%), based on the City of Milwaukee's 2021 estimated population of 577,222. The author discusses the people (community leaders, Black elected officials at every level of government,

and Black professionals in the public, private, and criminal justice sectors) who shaped historical Black Milwaukee. Moreover, he provides a detailed discussion of various institutions (Black businesses, schools, religion, media outlets (newspaper, radio stations, televisions, etc.), social service agencies, and more that shaped historical Black Milwaukee. And the book reveals the role of Black cultural institutions (museums, art galleries, bookstores, nightclubs, sports leagues, etc.), cultural events (festivals, art shows, and more), Black neighborhoods, and public landmarks (streets, buildings, murals, parks, etc.) named after Blacks who contributed to the growth of its community and the City of Milwaukee's history. This book discusses the challenges and opportunities that led to the integration of the Black population into the City of Milwaukee. Historical Black Milwaukee will become a book that can be updated regularly and can provide a one-stop reference book on Black Milwaukee for the period of 1950-2022. The book also discusses lessons learned from historical Black Milwaukee and their implications for other Black communities.

business journal milwaukee: **Bringing Jobs Back to the USA** Tim Hutzal, Dave Lippert, 2014-06-12 A follow-up to Tim Hutzal's previous book, *Keeping Your Business in the USA: Profit Globally While Operating Locally*, this book tells the stories of companies that have sent their jobs outside of the USA and the negative effects this had on the quality of their products and services, employees, supply chain providers, and consumers. *Bringing Jobs Back to the USA: Rebuilding America's Manufacturing Through Reshoring* reveals the motivation these companies had to offshore their jobs as well as the errors of omission they made by not understanding the true cost of offshoring. Exposing the true cost of offshoring to US organizations and citizens, it supplies concrete suggestions to help government officials and activists prevent offshoring and incentivize reshoring. The book provides food for thought for businesses currently thinking about sending US jobs to foreign countries. Outlining a roadmap for reshoring using a step-by-step methodology, it provides business leaders with the understanding to make the right decisions regarding reshoring their products back to America.

business journal milwaukee: **The Statues and Legacies of Combat Athletes in the Americas** C. Nathan Hatton, David M. K. Sheinin, 2024-05-15 The violence of combat sports left a mark on how fans and communities remembered athletes. As individual endeavors, combat sports have often produced more detailed, emotionally poignant, and deeply personal stories of triumph than those associated with team sports. Commemorative statues to combat athletes are therefore unique as historical markers and sites of memory. These statues tell remarkable stories of the athletes themselves, but also the people and communities that planned and built them, the cities and towns that memorialized them, the fans who followed them, and the evolution of memory and place in the decades that followed their inauguration. Edited by C. Nathan Hatton and David M. K. Sheinin, *The Statues and Legacies of Combat Athletes in the Americas* brings together an interdisciplinary team of scholars from across North America to interrogate the intimate and layered meanings attached to these monuments to the lives and legacies of combat athletes.

business journal milwaukee: **Catholic Bioethics and Social Justice** M. Therese Lysaught, Michael P. McCarthy, 2019-01-10 Catholic health care is one of the key places where the church lives Catholic social teaching (CST). Yet the individualistic methodology of Catholic bioethics inherited from the manualist tradition has yet to incorporate this critical component of the Catholic moral tradition. Informed by the places where Catholic health care intersects with the diverse societal injustices embodied in the patients it encounters, this book brings the lens of CST to bear on Catholic health care, illuminating a new spectrum of ethical issues and practical recommendations from social determinants of health, immigration, diversity and disparities, behavioral health, gender-questioning patients, and environmental and global health issues.

business journal milwaukee: **Automotive Global Value Chain** Wilson Kia Onn Wong, 2017-08-09 Today, some suppliers have grown increasingly powerful and in certain cases, earn

revenues that rival or even exceed that of their automaker clients. In the pre-globalisation period, automakers wielded absolute power over their significantly smaller suppliers. This book reveals the upending of this relationship, with the gradual shift in the balance of power from automakers to their suppliers in this era of globalisation. The book examines how suppliers in the global tyres, seats, constant velocity joints (hereafter 'CVJs'), braking systems and automotive semiconductor industries have evolved into powerful oligopolies through a mix of acquisition and organic growth strategies. It also highlights how joint ventures could be strategically deployed as springboards to acquisition, as they enable firms to familiarise themselves with their partners' markets and operations. Moreover, the book analyses the disruption stirred by the entry of well-resourced technology titans into this industry and their inevitable clash with the traditional incumbents. This book is an invaluable reference for anyone interested in learning more about the automakers' and now their suppliers' relentless quest to create market-dominating intelligent driving systems.

business journal milwaukee: *Both Hands Tied* Jane L. Collins, Victoria Mayer, 2010-05-15 Both Hands Tied studies the working poor in the United States, focusing in particular on the relation between welfare and low-wage earnings among working mothers. Grounded in the experience of thirty-three women living in Milwaukee and Racine, Wisconsin, it tells the story of their struggle to balance child care and wage-earning in poorly paying and often state-funded jobs with inflexible schedules—and the moments when these jobs failed them and they turned to the state for additional aid. Jane L. Collins and Victoria Mayer here examine the situations of these women in light of the 1996 national Personal Responsibility and Work Opportunity Reconciliation Act and other like-minded reforms—laws that ended the entitlement to welfare for those in need and provided an incentive for them to return to work. Arguing that this reform came at a time of gendered change in the labor force and profound shifts in the responsibilities of family, firms, and the state, Both Hands Tied provides a stark but poignant portrait of how welfare reform afflicted poor, single-parent families, ultimately eroding the participants' economic rights and affecting their ability to care for themselves and their children.

business journal milwaukee: *Right to the Road* Joseph A. Rodriguez, 2024-07-08 Car ownership is central to the U.S. culture wars about global warming and urban sprawl. While the environmental issues surrounding car use are well known, the car is also the focus of debates about urban redevelopment, racially biased policing, women's employment, immigration, homelessness, and disability rights. *Right to the Road: How Marginalized American Motorists Fought to Drive and Park* by Joseph A. Rodriguez discusses the central role of automobiles to determine how enforced automobile regulations have affected marginalized Americans both in the past and present day. Each chapter focuses on issues such as: Milwaukee's parking policies after World War II and urban redevelopment; Chicago's traffic and parking policies and the post-war rise in crime; white and Black women's increased employment post-war and the harassment they endured by police officers and motorists; the policing of Latino drivers and how anti-immigrant activists sensationalized automobile accidents to demonize Latinos as criminals; the disabled communities push for driving rights; the debates in cities and suburbs over the right to park overnight in safe parking spaces; and the use of the automobile and parking lots during the COVID-19 pandemic. This book highlights the various roles of the car in society throughout history.

business journal milwaukee: *Ted Mack and America's First Black-Owned Brewery* Clint Lanier, 2023-04-06 Born a sharecropper in rural Alabama in 1930, Theodore A. (Ted) Mack, Sr., fought in the Korean War and then played football at Ohio State while earning a college degree. Brewing and selling beer, he believed, would be just another peak to attain. After all, it couldn't be more challenging than his experience in organizing buses to the March on Washington or picketing segregated schools in Milwaukee. This is the story of Mack's purchase of Peoples Brewing Company in Oshkosh, Wisconsin. Though he had carefully planned for the historic acquisition, he

underestimated the subtle bigotry of Middle America, the corruption of the beer industry, and the failures of the federal government that plagued his ownership. Mack's ownership of Peoples Brewing is an inspirational story of Black entrepreneurship, innovation and pride at a time when America was at an important racial justice crossroads.

business journal milwaukee: **Community Benefits** Jovanna Rosen, 2023-03-14 In *Community Benefits*, Jovanna P. Rosen explores a new pattern in urban development: local residents and community representatives leveraging large-scale development projects for agreements that promise dedicated local benefits, such as parks and jobs. In general, such development projects have not produced impactful benefits for local residents, and often have contributed to significant community harm, including gentrification and displacement. In response, community activists have launched a fight to control development, using benefits-sharing agreements to ensure that projects produced better outcomes for local residents. While such agreements now exist across the nation, the process of negotiating and enforcing them remains challenging. This book dives deep into four case studies—in Los Angeles, Atlanta, Seattle, and Milwaukee—to answer the following questions: Who ultimately benefits from both the agreements and the projects in question? How do benefits get delivered, and who controls this process? What works for these agreements to successfully produce community outcomes? Rosen shows that, without agreements that promote accountability, developers and other project proponents can walk away from the negotiating table once the agreement is signed and the development moves forward. This disregard for community benefits and priorities can leave community residents solely responsible for benefits delivery during implementation, but with few viable avenues to ensure that outcomes materialize. The cases reveal specific elements that agreements require to achieve success during implementation: community participation, managerial connections, effective partnerships, responsiveness, and vigorous oversight with accountability mechanisms. Although creating these conditions is difficult, sometimes impossible, and contingent on fragile processes, Rosen concludes the book with recommendations for both the agreement negotiation and implementation phases to ensure success.
