business minor ut austin: *New Media, New Ethics?* Margaret Syverson, 2015-05-04 This book addresses a missing piece of the public conversations about ethics and digital media. The chapters in this book were written by college students at the University of Texas in a course called Ethics and New Media, offered in spring of 2015 and taught by Peg Syverson. The chapters reflect the students' deep inquiry through research on their peers, reading, online discussion, and editorial work. In its chapters, college students report their research on the ethical dilemmas faced by their peers. The results are provocative, wide-ranging, and surprising. They raise further questions about how we can continue to include the voices of those most affected by new media in our public discussions about ethics, internet regulation, appropriate use of technology by children, and wise guidance from parents, spiritual leaders, and teachers.

business minor ut austin: *The Texas Book Two* David Dettmer, 2012-12-04 In every corner of the sprawling enterprise that is the University of Texas at Austin, you will find teaching, research, artistic creation, and sports achievement that are among the best in the world. Mandated by the Texas constitution to be "a university of the first class," UT Austin strives for excellence across the curriculum, from the most traditional of liberal arts disciplines to the cutting edge of science and technology. For Texans interested in progress, whether students of the university or members of the public, there are few pleasures greater than uncovering the intellectual treasures that can be found by exploring the university's "Forty Acres" and all that they contain. The Texas Book, edited by Richard A. Holland and published in 2006, offered the first in-depth exploration of UT's history and traditions through a collection of profiles, histories, and reminiscences. Now The Texas Book Two continues the story, with a variety of contributors recalling particular events and personalities that have helped shape the university and the people whose lives it has touched. Twenty-one essays present personalities such as John A. Lomax, Anna Hiss, J. R. Parten, Harvey Penick, John W. Hargis, and Jorge Luis Borges; accounts of legislative battles and debates over campus architecture; histories of crown jewels such as the McDonald Observatory and Austin City Limits; and the reminiscences of Barbara Smith Conrad, Sam Hurt, and Cat Osterman, among others.

business minor ut austin: *Manifestations of Apprehension* William A. Cimino, 2023-09-18 Manifestations of Apprehension is a phrase that haunted Cimino but, ironically, became the key driver that enabled him to convert his failure into positive outcomes, each time gaining confidence and notable achievements. After a troubling and depressing military career start, Cimino maximized the support from others, and his determination to change his course enabled him to navigate each subsequent assignment with greater success. Cimino emphasizes that under achievements can be the seeds of opportunity and catalysts to achieving better results. His journey through aircrew training and operations in tactical reconnaissance, as an Air Force Navigator Instructor, working with the Canadian Forces, in the Headquarters Air Staff at the Pentagon, and with the Intelligence Community, where he managed the exploitation of products from some of the country's most sophisticated satellites, describes a path of devotion to mission and accomplishments. The memoir includes many stories - some funny, some heartwarming, and those containing sad moments during his military service. The Special Tributes section highlights his deep appreciation and respect for friends and family who have served in the military, who are gone but not forgotten.

business minor ut austin: Melt With You Jennifer Dugan, 2022-05-17 From the author of *Some Girls Do* and *Hot Dog Girl* comes a sweet and salty queer YA rom-com about two girls on a summer road trip in an ice cream truck. Fallon is Type A, looks before she leaps, and always has a plan (and a backup plan). Chloe is happy-go-lucky, flies by the seat of her pants, and always follows her bliss. The two girls used to be best friends, but last summer they hooked up right before Chloe left for college, and after a series of misunderstandings, they aren't even speaking to each other. A year later, Chloe's back home from school, and Fallon is doing everything in her power to avoid her. Which is especially difficult because their moms own a business together—a gourmet ice cream truck where both girls work. When a meeting with some promising potential investors calls their parents away at the last minute, it's up to Fallon to work a series of important food truck festivals across the country. But she can't do it alone, and Chloe is the only one available to help. Tensions heat up again between the two girls as they face a few unexpected detours—and more than a little roadside attraction. But maybe, just maybe, the best things in life can't always be planned.

business minor ut austin: Shadows of a Sunbelt City Eliot M. Tretter, 2016-03-15 Austin, Texas, is often depicted as one of the past half century's great urban success stories—a place that has grown enormously through “creative class” strategies emphasizing tolerance and environmental consciousness. In *Shadows of a Sunbelt City*, Eliot Tretter reinterprets this familiar story by exploring the racial and environmental underpinnings of the postindustrial knowledge economy. He is particularly attentive to how the University of Texas—working with federal, municipal, and private-sector partners and acquiring the power of eminent domain—expanded its power and physical footprint. He draws attention to how the university's real estate endeavors shaped the local economy and how the expansion and upgrading of the main campus occurred almost entirely at the expense of the more modestly resourced communities of color that lived in its path. This book challenges Austin's reputation as a bastion of progressive and liberal values, notably with respect to its approach to new urbanism and issues of ecological sustainability. Tretter's insistence on documenting and interrogating the “shadows” of this important city should provoke fresh conversations about how urban policy has contributed to Austin's economy, the way it has developed and changed over time, and for whom it works and why. Joining a growing critical literature about universities' effect on urban environments, this book will be of interest to students at all levels in urban history, political science, economic and political geography, public administration, urban and regional planning, and critical legal studies.

business minor ut austin: Public No More Andrew J. Policano, Gary C. Fethke, 2012-05-23

Public No More examines the quickly changing environment within higher education, including the permanent decline in state support for public universities. This book raises the question of how research universities can survive with reduced subsidies and increased competition from both non-profit and growing for-profit institutions. Authors Gary C. Fethke and Andrew J. Policano, both longtime university administrators, offer a strategic framework for determining how tuition and access should be set and how universities should decide on quality and program scope. Throughout the text, real-world examples illustrate successful and unsuccessful adoptions of the authors' proposals. Leadership within public higher education, policymakers, and researchers alike will find Public No More to be a sober and well-grounded guide to what lies ahead for universities across the nation.
