business minor uw: *The New Normal* Denise Tillery, Ed Nagelhout, 2016-12-05 As colleges and universities across the country continue to deal with regular decreases in state funding, technical communication programs, in particular, are being forced to do more with less. As budget cuts become the new normal, the long-term health of technical communication depends on our ability to evolve and adapt to an array of internal, external, and technological pressures. *The New Normal: Pressures on Technical Communication Programs in the Age of Austerity* explores the ways technical communication programs are responding to conditions of economic austerity and investigates how smaller programs, or programs situated in smaller institutions, use increasingly limited resources to meet the challenges of increased student demand, the responsibilities of teaching service courses effectively, the technological demands for online education, and the constant pressure to prepare our students appropriately for the ever-changing needs of the job market in technical communication. More specifically, the contributors to this collection are overtly conscious of the marginalized/peripheral status of technical communication programs within both small and large institutions. This awareness allows them to articulate specific ways that austerity has had a direct, and local, effect on a particular technical communication program and to describe short- and long-term strategies for creating sustainable futures for a technical communication program, despite cuts and marginalization.

The attraction is instantaneous, but Kelsey immediately rules out anything but a platonic relationship with Cody. She is white and he is black. When their friendship and caring for each other morphs into yearnings they do not fully understand, Kelsey and Cody ignore family values and biblical teachings and succumb to their physical desires. But it is only a few weeks later when Kelsey realizes the consequences of her actions. With Cody in a downward spiral and Kelsey terrified, the young lovers leave the destiny of their unborn child to their parents who urge them to give the baby up for adoption. But when a sonogram shows two beating hearts instead of one, it sets into motion a chain of events that causes the twins to be separated at birth, forever binds both families with their secret, and culminates in an epic reunion. *Secrets Are Forever* tells a tale of forbidden love as life begins in a college town and comes full circle, causing a ripple effect across generations.

business minor uw: *Walker* Jill Loree, 2018-08-31 You remember Wild, the somewhat spiritual memoir about the author's amazing trek and heart-breaking backstory, right? This isn't that. Although there is some wandering around that leads to recovery and redemption. And hiking did

happen along the way. This could be *A Million Little Pieces*, but it's not. This story is actually all true. Might even be *Mommy Dearest*, but thankfully, it's not even close. For this story is told with heart and sensitivity. In fact, Walker is really about one woman's spiritual journey to open her heart and develop compassion. Through it all, her own gumption would be her steady companion. The title of Walker evolved from a line in a poem: "There is no road, walker, you make the road by walking." This phrase captures the narrative of Jill Loree's life on many levels. From *Proverbs* and *Tiny Songs* You walking, your footsteps are the road, and nothing else; there is no road, walker, you make the road by walking. By walking you make the road, and when you look backward, you see the path that you never will step on again. Walker, there is no road, Only wind-trails in the sea. – By Antonio Machado (1875–1939), translated by Robert Bly Walker starts out with a young girl raised in a singing Lutheran family where things looked good on the outside. But inside, Jill Loree was struggling. Later, she would "trudge the dreary road of destiny," as the AA Big Book puts it, getting sober at 26 and picking up only one white chip. That's not nothing, considering that most of Jill Loree's childhood memories are infused with her father's drinking. Her mother, on the other hand, had a controlling, co-dependent streak that wouldn't end. Sounds dreary indeed, right? In her spiritual memoir however, Jill Loree artfully lifts the story out of the ditch and finds the grace weaving between the lines. Walker also merges in a touch of poetry—her own, her sons' and even her Dad's—adding heart, depth and levity to the telling. Her gentle wit and brisk writing pace keeps things moving along. True to the title, there's no need to sit and stew in misery. Yes, hard things happened along the way, but there was also delight. Jill Loree was a working mom who bumped up against a few bricks but managed to flow around most of them. In the end, her career in advertising and the corporate world would prove both challenging and rewarding; her role as a mother would both exhaust and fulfill her. Practically from the get-go, a spiritual message gets laid down, and it grows sturdier as the journey unfolds. From a youth spent singing in a church choir, through those atheistic years of alcoholism, and onto the great discovery of a transformational path called Pathwork, her spiritual life has been a tenacious wildflower that keeps blooming with each new season, and thriving. Today, Jill Loree's spiritual path is filled with the light of Christ, which is what she has discovered emerges from the core of one's being after clearing away the detritus accumulated in youth. Just as the Pathwork Guide said it would. That's the deeper message she is now passionate about sharing, and which shines through in this warm telling of the story of her life.
