business professor job: **Act Like It's Your Business** Jonathan Flom, 2013-07-18 Many actors treat their profession as a purely artistic endeavor, rarely conceding that there is more to making a living than simply showing up on stage or in front of a camera. By refusing to seriously acknowledge that self-promotion is vital to their livelihoods, many performers can get quickly discouraged by the vicious circle of audition and rejection. However, with a little foresight and planning, actors can learn how to become their own best advocates for a career in the business of show. In *Act Like It's Your Business: Branding and Marketing Strategies for Actors*, Jonathan Flom helps actors and others in the arts understand the power of branding. This guide walks the reader through the process of creating a personal brand for a small business and then marketing that brand and broadcasting it through every step of the process—from choosing clothing, arranging headshots, and designing resumes to selecting a repertoire, building a website, obtaining business cards, and networking. Flom also offers advice on such real-world issues as goal-setting, finances, contracts, and day jobs and provides insight and guidance on how to approach agents, auditions, and casting directors. A book of empowerment meant to shift the balance of control to actors themselves, *Act Like It's Your Business* is aimed at professional performers as well as students who are getting ready to transition from college to career. This study is unique because it is a longitudinal analysis that covers 35 years it uses firsthand information from managers in major Japanese corporations; and by involving several of these managers in the research process the views of actual practitioners are made available.
