business qantas: Government In Business: Leading Or Lagging? Hwee Hua Lim, 2021-02-09 The evergreen debate over government's involvement in business continues in earnest. Participants straddle all stakeholder groups, from the state itself to the private sector to the public at large. Add to that debate increasing globalisation, and now de-globalisation, and the advent of technological advances. Criticism is often levelled at a government that is slow to act or one that belatedly introduces damning regulations. Many governments are already saddled with demands spanning mega infrastructural development to bulging fiscal deficits to evening out growth across the population. The politics of the day are however synonymous with short-termism. The Covid-19 pandemic has increased the bailout burden even more. The author attempts to provide a fair assessment of the potentially complementary roles that the public and private sectors can play in a fast-changing global economy, amidst the shifting expectations of society. business qantas: Beyond Lion Rock Gavin Young, 2012-04-26 In 1946 Roy Farrell and Syd de Kantzow's beloved, battered wartime DC-3 touched down in Shanghai for the first time. On board was a cargo of morning coats and toothbrushes from New York, forging the first post-war supply route across the treacherous eastern Himalayas. The international airline now known as Cathay Pacific was born. Gavin Young tells the swashbuckling story of an empire of the air, a thrilling, action-packed adventure that began in an era closer to Biggles and biplanes held together by wire and safety pins than to our own. 'Pioneers like Farrell and de Kantzow would have had plenty of time to enjoy the dawn over Kangchebjunga. Would they think of us with envy or contempt, cruising seven miles up with hundreds of passengers, air-conditioning, in-flight concerts, movies, hot four-course meals with an elaborate wine line and all mod-cons? . . . All this in forty years! Could the world have changed so much and so fast?' This is Gavin Young himself eloquently reflecting on the extraordinary changes in air travel. There can be little doubt where his own sympathies lie.
