business sale vancouver: Sale of Businesses in Australia S. A. Christensen, William David Duncan, 2009 This second edition of Sale of Businesses in Australia concentrates on the sale of small businesses trading as individuals or in partnership under the standard Sales of Business contracts promulgated by the various Law Societies and Real Estate Institutes. Several chapters also apply to the sale of businesses generally. Topics covered include: matters relating to the typical transaction: stock in trade, goodwill, plant and fixtures; additional matters such as intellectual property, business names, and the transfer of business leases; special contract provisions, including restraint of trade and employee provisions, and other special conditions commonly found in contracts; taxation implications of the sale; time stipulations; obligations on completion; disclosure obligations; remedies for commonly encountered types of breach by either party. The book serves as an ideal reference point for the busy legal practitioner involved in advising upon these transactions and has extensive references to the standard contracts in New South Wales, Victoria and Queensland.

business sale vancouver: Vancouver's Vengeance Barry Deane Stewart, 2013-07-03 In 1791, Captain George Vancouver is given a great opportunity to gain fame and fortune sail to the Pacific coast of North America and explore the coastline for the long-sought Northwest Passage back across the continent while taking possession of the vast territories of northwest America from the Spanish. Four years later, he returns home to dismissal and ridicule. He dies three years later at the age of forty, a sickly, impoverished man desperately trying to complete the publication of his journals. What happened? Now, there are two large collections of rare books related to the early exploration of northwestern America coming to auction, a major event in the modern world of antiquarian books. Many dealers and individual collectors are positioning themselves to be the successful bidders. The centerpiece of the auctions is a heretofore unknown, astonishing copy of the journals of George Vancouver printed over two hundred years ago. How much will it sell for? Is this, in some way, a vindication of Vancouver, maybe even his vengeance? The emergence of the special copy of Vancouver's journals causes President Ray Cartwright to re-examine the unique Sir Francis Drake document he bought years ago. Is it really legitimate? How can he find out? What should he do if it's a fake?
