Understanding Business Inclusion

Business inclusion refers to the practices and policies that ensure equal opportunities for all businesses, particularly those that have been historically underrepresented. In Charlotte, this concept is increasingly recognized as essential for fostering a vibrant and competitive economy. The city's

diverse population brings a wealth of ideas, perspectives, and innovations that can benefit the business environment.

Defining Business Inclusion

At its core, business inclusion encompasses a range of initiatives aimed at integrating diverse business owners into the economic framework. This includes providing access to resources, networks, and opportunities that may not have been available to them historically. The goal is to create an equitable landscape where every business, regardless of its owner's background, can thrive.

Importance of Business Inclusion

Inclusion is not just a moral imperative; it also has significant economic implications. Diverse companies often outperform their less diverse counterparts due to a broader range of ideas and perspectives. By embracing business inclusion, Charlotte can enhance its economic resilience and innovation capacity, making it an attractive destination for investment and talent.

Key Organizations Promoting Inclusion in Charlotte

Several organizations in Charlotte are dedicated to promoting business inclusion. These entities provide resources, support, and advocacy to ensure that all businesses have the opportunity to succeed.

Charlotte Regional Business Alliance

The Charlotte Regional Business Alliance plays a pivotal role in advocating for inclusive business practices. The organization works to connect diverse business owners with resources and networks that can help them grow and succeed. Through various programs, they aim to promote economic development that reflects the city's diversity.

Minority and Women Business Enterprises (MWBE) Program

The MWBE Program is designed to support minority and women-owned businesses in Charlotte. This program provides access to contracting opportunities, technical assistance, and financial resources. By actively promoting these businesses, the program helps ensure that they have a place in the city's economic development strategy.

Local Business Development Centers

Local business development centers offer a range of services aimed at supporting small and diverse businesses. These centers provide training, mentorship, and funding opportunities to help entrepreneurs navigate the challenges of starting and growing a business. Their focus on inclusion helps level the playing field for all business owners.

Benefits of Business Inclusion

Embracing business inclusion brings numerous benefits to both individual businesses and the broader community. Understanding these advantages can motivate stakeholders to prioritize inclusion in their operations.

Economic Growth

One of the most significant benefits of business inclusion is its contribution to economic growth. By supporting diverse businesses, Charlotte can tap into new markets and customer bases, fostering innovation and competition. This growth translates into job creation and increased economic activity, benefiting the entire community.

Enhanced Innovation

Diverse teams bring together a variety of perspectives, which can lead to enhanced creativity and innovation. Companies that prioritize inclusion are more likely to develop unique solutions and products that meet the needs of a broader audience. This innovation can give businesses a competitive edge in the marketplace.

Stronger Community Ties

Business inclusion fosters stronger ties within the community. When businesses are inclusive, they contribute to social cohesion and economic equity. This not only improves the quality of life for residents but also strengthens the overall community fabric, making Charlotte a more attractive place to live and work.

Strategies for Enhancing Inclusion in Your Business

Businesses looking to improve their inclusion practices can implement several strategies that promote diversity and equity. These strategies can lead to a more inclusive workplace and better business outcomes.

Develop Inclusive Hiring Practices

To enhance inclusion, businesses should focus on developing inclusive hiring practices. This can include implementing diverse recruitment strategies, creating partnerships with organizations that support underrepresented groups, and ensuring that job descriptions are free from biased language. By attracting a diverse talent pool, businesses can foster a more inclusive environment.

Provide Diversity Training

Offering training on diversity, equity, and inclusion can help raise awareness among employees and management about the importance of these issues. Training can cover topics such as unconscious bias, cultural competence, and the benefits of diversity in the workplace. Educated employees are better equipped to create an inclusive culture.

Engage with the Community

Active engagement with the local community can strengthen a business's commitment to inclusion. This can involve participating in community events, supporting local organizations that promote diversity, and collaborating with other businesses to create inclusive initiatives. Building these connections enhances the business's reputation and impact in the community.

Conclusion

Charlotte business inclusion is not merely a trend; it represents a fundamental shift towards a more equitable and prosperous economy. By understanding the significance of inclusion, recognizing the key organizations that support it, and implementing effective strategies, businesses in Charlotte can thrive

in a diverse marketplace. As the city continues to grow, embracing business inclusion will be essential for fostering innovation, economic growth, and stronger community ties. Ultimately, the success of Charlotte's economy hinges on the inclusion of all voices and perspectives in the business landscape.

Q: What is the importance of business inclusion in Charlotte?

A: Business inclusion is crucial in Charlotte as it promotes economic growth, enhances innovation, and strengthens community ties. charlotte business inclusion: Equity, Growth, and Community Chris Benner, Manuel Pastor, 2015-10-09 In the last several years, much has been written about growing economic challenges, increasing income inequality, and political polarization in the United States. Addressing these new realities in America's metropolitan regions, this book argues that a few lessons are emerging: first, inequity is bad for economic growth; second, bringing together the concerns of equity and growth requires concerted local action; and third, the fundamental building block for doing this is the creation of diverse and dynamic epistemic (or knowledge) communities, which help to overcome political polarization and to address the challenges of economic restructuring and social divides.

charlotte business inclusion: Charlotte, NC William Graves, Heather A. Smith, 2012-06-01

The rapid evolution of Charlotte, North Carolina, from “regional backwater” to globally ascendant city provides stark contrasts of then and now. Once a regional manufacturing and textile center, Charlotte stands today as one of the nation’s premier banking and financial cores with interests reaching broadly into global markets. Once defined by its biracial and bicultural character, Charlotte is now an emerging immigrant gateway drawing newcomers from Latin America and across the globe. Once derided for its sleepy, nine-to-five “uptown,” Charlotte’s center city has been wholly transformed by residential gentrification, corporate headquarters construction, and amenity-based redevelopment. And yet, despite its rapid transformation, Charlotte remains distinctively southern—globalizing, not yet global. This book brings together an interdisciplinary team of leading scholars and local experts to examine Charlotte from multiple angles. Their topics include the banking industry, gentrification, boosterism, architecture, city planning, transit, public schools, NASCAR, and the African American and Latino communities. United in the conviction that the experience of this Sunbelt city—center of the nation’s fifth-largest metropolitan area—offers new insight into today’s most pressing urban and suburban issues, the contributors to *Charlotte, NC: The Global Evolution of a New South City* ask what happens when the external forces of globalization combine with a city’s internal dynamics to reshape the local structures, landscapes, and identities of a southern place.

charlotte business inclusion: The New Builders Seth Levine, Elizabeth MacBride, 2021-04-20 Despite popular belief to the contrary, entrepreneurship in the United States is dying. It has been since before the Great Recession of 2008, and the negative trend in American entrepreneurship has been accelerated by the Covid pandemic. New firms are being started at a slower rate, are employing fewer workers, and are being formed disproportionately in just a few major cities in the U.S. At the same time, large chains are opening more locations. Companies such as Amazon with their deliver everything and anything are rapidly displacing Main Street businesses. In *The New Builders*, we tell the stories of the next generation of entrepreneurs -- and argue for the future of American entrepreneurship. That future lies in surprising places -- and will in particular rely on the success of women, black and brown entrepreneurs. Our country hasn't yet even recognized the identities of the New Builders, let alone developed strategies to support them. Our misunderstanding is driven by a core misperception. Consider a typical American entrepreneur. Think about the entrepreneur who appears on TV, the business leader making headlines during the pandemic. Think of the type of businesses she or he is building, the college or business school they attended, the place they grew up. The image you probably conjured is that of a young, white male starting a technology business. He's likely in Silicon Valley. Possibly New York or Boston. He's self-confident, versed in the ins and outs of business funding and has an extensive (Ivy League?) network of peers and mentors eager to help his business thrive, grow and make millions, if not billions. You'd think entrepreneurship is thriving, and helping the United States maintain its economic power. You'd be almost completely wrong. The dominant image of an entrepreneur as a young white man starting a tech business on the coasts isn't correct at all. Today's American entrepreneurs, the people who drive critical parts of our economy, are more likely to be female and non-white. In fact, the number of women-owned businesses has increased 31 times between 1972 and 2018 according to the Kauffman Foundation (in 1972, women-owned businesses accounted for just 4.6% of all firms; in 2018 that figure was 40%). The fastest-growing group of female entrepreneurs are women of color, who are responsible for 64% of new women-owned businesses

being created. In a few years, we believe women will make up more than half of the entrepreneurs in America. The age of the average American entrepreneur also belies conventional wisdom: It's 42. The average age of the most successful entrepreneurs -- those in the top .01% in terms of their company's growth in the first five years -- is 45. These are the New Builders. Women, people of color, immigrants and people over 40. We're failing them. And by doing so, we are failing ourselves. In this book, you'll learn: How the definition of business success in America today has grown corporate and around the concepts of growth, size, and consumption. Why and how our collective understanding of entrepreneurship has dangerously narrowed. Once a broad term including people starting businesses of all types, entrepreneurship has come to describe only the brash technology founders on the way to becoming big. Who are the fastest growing groups of entrepreneurs? What are they working on? What drives them? The real engine that drove Silicon Valley's entrepreneurs. The government had a much bigger role than is widely known The extent to which entrepreneurs and small businesses are woven through our history, and the ways we have forgotten women and people of color who owned small businesses in the past. How we're increasingly afraid to fail The role small businesses are playing saving the wilderness, small towns and redlined communities What we can do to turn the decline in entrepreneurship around, especially by supporting the people who are courageously starting small companies today.

charlotte business inclusion: Race, Work, and Leadership Laura Morgan Roberts, Anthony J. Mayo, David A. Thomas, 2019-08-13 Rethinking How to Build Inclusive Organizations Race, Work, and Leadership is a rare and important compilation of essays that examines how race matters in people's experience of work and leadership. What does it mean to be black in corporate America today? How are racial dynamics in organizations changing? How do we build inclusive organizations? Inspired by and developed in conjunction with the research and programming for Harvard Business School's commemoration of the fiftieth anniversary of the founding of the HBS African American Student Union, this groundbreaking book shines new light on these and other timely questions and illuminates the present-day dynamics of race in the workplace. Contributions from top scholars, researchers, and practitioners in leadership, organizational behavior, psychology, sociology, and education test the relevance of long-held assumptions and reconsider the research approaches and interventions needed to understand and advance African Americans in work settings and leadership roles. At a time when--following a peak in 2002--there are fewer African American men and women in corporate leadership roles, Race, Work, and Leadership will stimulate new scholarship and dialogue on the organizational and leadership challenges of African Americans and become the indispensable reference for anyone committed to understanding, studying, and acting on the challenges facing leaders who are building inclusive organizations.

charlotte business inclusion: **Lady Charlotte Guest** Victoria Owens, 2020-11-23 The remarkable biography of a mother of ten who stepped up to run her late husband's ironworks in Victorian Wales. When impoverished aristocrat Lady Charlotte Bertie married wealthy Welsh ironmaster John Guest of Dowlais in 1833, her relatives looked on with dismay. Yet despite their vast difference of background and age, over their nineteen-year long marriage husband and wife enjoyed great happiness and much adventure. There would be ten children, and while John built up an immense commercial empire, Charlotte championed Welsh culture. Crucially, she taught herself John's business from the inside. Over the years, she made the keenest observation of iron production, the fluctuations of the trade, and the engineering innovations. When John died in 1852, she was therefore uniquely placed to succeed him as head of the works—a remarkable position for a Victorian woman. She endeavored to introduce reforms, but also—rather to her dismay—had to weather a potentially destructive strike. But success came at a price. With her star seemingly in the ascendant, Lady Charlotte suddenly chose to abandon all, leave Wales, and marry her sons' tutor. This book traces the ardent, creative years of her first marriage, explores her determination to preserve John's legacy as a widow, and observes her growing devotion to the scholarly Charles

Schreiber.

charlotte business inclusion: **A Classified Look At The Great Satan Of America** Mark C. Russell, 2021-05-10 IT DEVELOPED INTO A DEATH THREAT... AND THEN MY PHYSICAL WELL BEING. It began at a very young age; I was inspired to be an accomplished springboard diver and an academic student. With an undefeated 3 year high school diving run I accomplished an unprecedented diving 3 time gold medal State Championship and a 3 time All America; also I earned a top 10% academic standing. At the University of Kentucky (i.e.UK) I earned a Bachelor's degree in accounting and at R.I.T. I earned a Master's degree in accounting. At UK I earned a full diving athletic scholarship which included co-captain and a closely contested outstanding 4th place finish in the SEC. I've always been and will be a devout Christian; thanks to my parents. It wasn't until my classified auditing job with the Department of Defense that my life went awry. I believe that Satan himself was trying to snatch me from my belief in Jesus Christ. A coworker kept on his regimen in blaspheming God until several times I had asked him to relent. The Government's Satanic System was and still is illegally surveillancing me and I told the Government I was going to expose them for their corrupt Satanic System. In turn, they gave me a death threat, threatened my physical well being and ever since then they have snatched away my pursuit of happiness. They are always watching my every move and up until now it has been a hellish journey. By finally publishing this book, hopefully the journey can now change direction.
