chanel business affinity: Luxury Fashion and Media Communication Paula von Wachenfeldt, Magdalena Petersson McIntyre, 2023-11-30 Using image and film advertisements, interviews, social media and public and private archives, *Luxury Fashion and Media Communication* offers an interdisciplinary approach to analyzing the value of the luxury object. Regular reports on consumption in media and frequent advertising on social media have allowed people all over the world to share in the issues and development of luxury; but how is it communicated, and how has it affected the consumer? An international range of scholars explore the material and immaterial value and meaning of luxury, how it is materialized and how it is communicated between the luxury industry and the consumer. Investigating French, Italian and Spanish luxury brands and their communication strategies on the global market, and including two chapters focusing specifically on the Chinese and American markets, they examine the ambiguity of the luxury commodity. This volume shows particularly the conflicting narratives between the idea of exclusivity and human skills and their mass marketing. In exploring theoretical perspectives alongside the practicalities of how luxury is communicated, *Luxury Fashion and Media Communication* reveals the value of the luxury object and the consumer's behaviour in relation to that value. It offers an innovative and important intervention in the inter-related fields of luxury fashion, media and communication, and key reading for scholars, students and practitioners wishing to explore the material and immaterial value of luxury.

channel business affinity: Resilience of Luxury Companies in Times of Change Gabriella Lojacono, Laura Ru Yun Pan, 2021-08-23 Why do some luxury companies remain resilient through times of change, while others do not? The reason is that these companies have unique skills to diversify their revenue generation by being ambidextrous. Luxury companies today cannot depend on their reputation or their creativity alone to remain resilient, rather they require the ability to be ambidextrous - to explore new trajectories for future growth and exploiting their iconic values. In past decades, the industry has shifted from product to customer centric and forced companies to adopt new strategies and approaches to succeed. This includes the adoption of digital platforms such as ecommerce, social media and mobile enabled tools to continually elevate customer experience. In addition, new business models have emerged to address growing pains, particularly in inventory issues, over manufacturing and sustainability. Brands today are forced to adopt evolution through innovation that is anchored by new values without compromising their DNA. Based on in-depth research and interviews with CEOs from leading luxury companies, Lojacono and Pan show how companies can hedge their risks and remain resilient in times of change.

channel business affinity: Empire of Love Matt K. Matsuda, 2005-01-20 In this broad-ranging survey of Paris, Tahiti, Indochina, Japan, New Caledonia, and the South Pacific generally, Matt Matsuda illustrates the fascinating interplay that shaped the imaginations of both colonizer and colonized. Drawing on a wealth of primary sources, Matsuda describes the constitution of a French Pacific through the eyes of Tahitian monarchs, Kanak warriors, French politicians and prisoners, Asian revolutionaries and Central American laborers, among others. He argues that French imperialism in the Pacific, both real and imagined, was registered most forcefully in languages of desire and

love--for lost islands, promised wealth and riches, carnal and spiritual pleasures--and political affinities. Exploring the conflicting engagements with love for and against the empire in the Pacific, this book is an imaginative and ground-breaking work in global imperial and colonial histories, as well as Pacific histories.
