Many entrepreneurs need more accounting knowledge to learn or get professional help and know what to expect. They must impose a suitable system to keep their business at a better stage. I want to talk about myself. I was an accountant for a long time in the accounting industry. I had to leave my job in 2014 to help my partner. I have gone into online systems, eBooks, books, and accounting work for my clients and a coach. Besides, I used to teach math to many schoolchildren, and I also liked it because the kids who learned from me enjoyed it. I developed accounting methods for many businesses in the accounting field and helped the workers follow up on them. Therefore, I would be an excellent coach to assist you in studying what you would like to change for the better. My coaching plans will be: eBooks writing I have written 160 eBooks and love doing that; therefore, I am well-positioned to guide you through the process of writing an eBook. coaching for business course: How to Start a Life Coaching Business Maxwell Rotheray, The annual salary of a life coach can range from \$28,034 to \$251,068, according to Payscale's salary

database. Your salary as a life coach will, however, depend on several factors, including:

- Your chosen market – if you coach a top-level management cadre, you are likely to rake in more revenue.
- Your location – if you serve a niche within a city such as New York, you are likely to charge a higher fee but the cost of operation may also be higher.
- Your level of experience – if you are particularly sound professional and have an excellent delivery pattern, you are likely to charge more.
- Your training and credentials – if you have been recommended and your coaching services have received approval from the industry body, your brand equity will give you leverage to charge more.

The vast majority of life coaches' hourly rates fall within \$75 and \$200 per hour schooling a client, which doesn't usually include preparation time. When working on a retainer basis, however, coaches normally charge a client between \$500 and \$2,000 per calendar month. On the profit side, an ICF study of the Bureau of Labor Statistics shows that the average life coach earned \$61,900 in 2015. This is considerably higher than the average annual wage of \$36,200 in the same year. This book covers a comprehensive guide on how to generate over \$300,000 annual salary as a life coach. We will take you through a step-by-step process of setting up a life-coaching business and building your brand successfully. If you are ready to start an exciting career as a life coach, then this book is for you.
