china eastern business class 777: *Brave-ish: One Breakup, Six Continents, and Feeling Fearless After Fifty* Lisa Niver, 2023-09-19 Newlywed Niver was on the adventure of a lifetime. She had quit her job, rented out her condo, and was traveling around Asia. To the outside world, Niver was a woman living out her dreams of exploring ancient ruins in Cambodia and seeing orangutans in Borneo. In private, she was keeping a dark secret. But, when she found herself lying on a sidewalk in Thailand, looking up at the sky in severe pain, she knew things had to change. At age forty-seven, Niver found the courage to set course on a new life. Feeling like a failure, pushing fifty, and moving home to her parents' house to start again from scratch, Niver started taking one tiny "brave-ish" step at a time to take her life far away from the old one and into the adventurous world of travel writing. These small hurdles led to the challenge of trying fifty new things before turning fifty. From diving into shipwrecks, swimming with sharks, bobsledding at 3 Gs, to indulging in wild escapades, Niver found herself traversing the world on a journey of reinvention, personal growth, and discovering what it actually means to be "brave." While *Brave-ish* chronicles Niver's inspiring expeditions to distant corners of the world including Myanmar, Cuba, Morocco, Kenya and Mongolia this is more than a travelogue. Niver's story is a testament to the resilience of the human spirit and the power of perseverance. *Brave-ish* inspires readers to dream big, take risks, and embrace the unknown to create a life filled with wonder and excitement, even when courage seems elusive.

Authorities are shocked when Stan's beautiful wife is murdered. Although the evidence doesn't add up, Stan is arrested for her death. Now, the Agency must put together a skilled legal team to save their man. There are so many unanswered questions. If Stan used a hammer to murder his wife, why wasn't he covered in blood? And, why did Stan's young daughter flee the scene instead of staying with her father? Stan could be guilty, but there is another more ominous option: that Foreign Intelligence Officers murdered Stan's wife in an attempt to destroy him. In Maury Berthon's latest thriller, go behind the walls of the CIA, FBI, and Chinese Intelligence to witness justice being sought on behalf of a talented spy. Stan's innocence might be hard to prove, though, what with all the lies, intrigue, and political twists of high stakes espionage.

china eastern business class 777: Airline Operations and Management Gerald N. Cook, Bruce G. Billig, 2017-02-03 Airline Operations and Management: A Management Textbook is a survey of the airline industry, mostly from a managerial perspective. It integrates and applies the fundamentals of several management disciplines, particularly economics, operations, marketing and finance, in developing the overview of the industry. The focus is on tactical, rather than strategic, management that is specialized or unique to the airline industry. The primary audiences for this textbook are both senior and graduate students of airline management, but it should also be useful to entry and junior level airline managers and professionals seeking to expand their knowledge of the industry beyond their own functional area.
