

cwu business

cwu business represents a significant area of study and practice that encompasses various aspects of commerce and management. Central Washington University's business programs are designed to equip students with the necessary skills and knowledge for thriving in the competitive business landscape. This article will explore the various business degree offerings at CWU, delve into the unique aspects of its curriculum, highlight notable faculty and resources, and discuss the career opportunities available to graduates. By understanding CWU's business programs, prospective and current students can make informed decisions about their educational paths and career trajectories.

- Overview of CWU Business Programs
- Curriculum and Specializations
- Faculty and Resources
- Career Opportunities for Graduates
- Student Organizations and Networking
- Conclusion

Overview of CWU Business Programs

Central Washington University offers a comprehensive array of business programs designed to cater to the diverse interests and career goals of its students. The programs are housed within the College of Business, which is accredited by the Association to Advance Collegiate Schools of Business (AACSB), a recognition that underscores the quality and rigor of the educational offerings.

Students at CWU can pursue undergraduate degrees in various fields, including:

- Business Administration
- Accounting
- Finance
- Management
- Marketing
- Information Technology and Administrative Management

Additionally, the university offers several graduate programs, including a Master of Business Administration (MBA), which allows students to enhance their leadership and analytical skills in preparation for advanced positions in the business world. The diverse range of programs ensures that students can find a path that aligns with their career aspirations.

Curriculum and Specializations

The curriculum at CWU is designed to provide students with a solid foundation in business principles while also allowing for specialization in areas of interest. Core courses typically cover essential business topics such as finance, management, marketing, and operations. This foundational knowledge is crucial for understanding how different business functions interrelate.

Core Curriculum

Students in the business programs at CWU can expect to take foundational courses that include:

- Principles of Accounting
- Business Law
- Principles of Marketing
- Financial Management
- Strategic Management

These courses not only equip students with theoretical knowledge but also emphasize practical application through case studies, group projects, and real-world business simulations.

Specialization Areas

In addition to the core curriculum, students have the opportunity to specialize in areas such as:

- Human Resource Management
- Digital Marketing
- Entrepreneurship

- Supply Chain Management

These specializations allow students to tailor their education to meet industry demands and personal career goals, preparing them for specific roles in the business landscape.

Faculty and Resources

CWU's College of Business boasts a distinguished faculty with extensive academic and professional experience. Many faculty members are recognized experts in their fields, contributing to academic research and engaging with the business community. This expertise enhances the learning experience and provides students with valuable insights into current industry practices.

Supportive Learning Environment

Students benefit from a supportive learning environment that includes:

- Personalized academic advising
- Access to state-of-the-art facilities
- Extensive library resources
- Networking opportunities with industry professionals

The resources available to students at CWU are designed to foster academic success and provide the necessary tools for professional development.

Career Opportunities for Graduates

Graduates of CWU's business programs are well-prepared to enter a competitive job market. The university's emphasis on practical experience, such as internships and cooperative education programs, ensures that students graduate with relevant experience that enhances their employability.

Job Placement and Career Services

CWUs Career Services Center provides comprehensive support for students seeking employment. Services include:

- Resume and cover letter assistance
- Interview preparation
- Job search strategies
- Career fairs and employer networking events

These services are vital in helping students transition from academic life to the professional world, increasing their chances of securing desirable positions post-graduation.

Industry Connections

The university's strong connections with local and national businesses provide students with numerous opportunities for internships and job placements. Many alumni maintain relationships with CWU, often returning to recruit new graduates, which further enhances job placement rates.

Student Organizations and Networking

CWU encourages students to engage in extracurricular activities that complement their academic studies. There are numerous student organizations related to business, including:

- Business Club
- Accounting Society
- Marketing Association
- Entrepreneurship Club

Participation in these organizations fosters networking opportunities, leadership development, and collaboration among peers, which are invaluable in building a successful business career.

Conclusion

Central Washington University's business programs offer a comprehensive education that prepares students for the complexities of the business world. With a strong curriculum, expert faculty, and extensive resources, CWU equips students with the skills needed to succeed in their chosen fields. The university's commitment to student success is evident in the robust career services and networking opportunities available. As the business landscape continues to evolve, CWU remains a relevant and dynamic choice for aspiring business professionals.

Q: What types of business degrees does CWU offer?

A: Central Washington University offers a variety of business degrees, including undergraduate programs in Business Administration, Accounting, Finance, Management, Marketing, and Information Technology. Additionally, they offer a Master of Business Administration (MBA) program for graduate students.

Q: Is CWU's business program accredited?

A: Yes, the College of Business at Central Washington University is accredited by the Association to Advance Collegiate Schools of Business (AACSB), which is a mark of excellence in business education.

Q: What are the career prospects for CWU business graduates?

A: Graduates from CWU's business programs have strong career prospects due to the comprehensive education they receive and the university's connections with local and national businesses. Many students secure positions in various sectors such as finance, marketing, management, and entrepreneurship.

Q: How does CWU support students in finding internships?

A: CWU provides robust career services that assist students in finding internships. These services include resume reviews, interview preparation, and job search strategies, as well as hosting career fairs where students can connect with potential employers.

Q: Are there networking opportunities available for business students at CWU?

A: Yes, CWU offers numerous networking opportunities through student organizations, career fairs, and connections with alumni who often return to recruit new graduates.

Q: Can students specialize in certain areas of business at CWU?

A: Absolutely. CWU allows students to specialize in various areas such as Human Resource Management, Digital Marketing, Entrepreneurship, and Supply Chain Management, enabling them to tailor their education to their career goals.

Q: What resources are available to CWU business students for academic success?

A: CWU business students have access to personalized academic advising, state-of-the-art facilities, extensive library resources, and networking opportunities that support their academic success.

Q: What makes CWU's business programs stand out?

A: CWU's business programs stand out due to their AACSB accreditation, experienced faculty, practical curriculum, strong emphasis on internships, and the supportive learning environment that fosters student engagement and success.

Q: How does CWU integrate real-world experience into its business education?

A: CWU integrates real-world experience through internships, cooperative education programs, case studies, and group projects that allow students to apply their knowledge in practical settings.

Q: What are the benefits of joining student organizations at CWU?

A: Joining student organizations at CWU provides benefits such as networking opportunities, leadership development, collaboration with peers, and a chance to gain experience in specific areas of interest within the business field.

There are helpful links to in-depth descriptions about a specific graduate program or department, faculty members and their research, and more. Also find valuable articles on financial assistance, the graduate admissions process, advice for international and minority students, and facts about accreditation, with a current list of accrediting agencies.

cwu business: The Complete Guide to IT Service Level Agreements Andrew Hiles, 2002 Covering all aspects of Information Technology Service Level Agreements (SLA's), this essential manual is a step-by-step guide to designing, negotiating and implementing SLA's into your organization. It reviews the disadvantages and advantages, gives clear guidance on what types are appropriate, how to set up SLA's and to control them. An invaluable aid to IT managers, data center managers, computer services, systems and operations managers. This unique, comprehensive guide is a major update of Andrew Hiles' landmark 1991 guide to Service Level Agreements and 2000 Second Edition.

cwu business: NACUBO Business Officer National Association of College and University Business Officers, 2002

cwu business: Merely for Money? Sheryllynne Haggerty, 2012-01-01 In 1780 Richard Sheridan noted that merchants worked 'merely for money'. However, rather than being a criticism, this was recognition of the important commercial role that merchants played in the British empire at this time. Of course, merchants desired and often made profits, but they were strictly bound by commonly-understood socio-cultural norms which formed a private-order institution of a robust business culture. In order to elucidate this business culture, this book examines the themes of risk, trust, reputation, obligation, networks and crises to demonstrate how contemporary merchants perceived and dealt with one another and managed their businesses. Merchants were able to take risks and build trust, but concerns about reputation and fulfilling obligations constrained economic opportunism. By relating these themes to an array of primary sources from ports around the British-Atlantic world, this book provides a more nuanced understanding of business culture during this period. A theme which runs throughout the book is the mercantile community as a whole and its relationship with the state. This was an important element in the British business culture of this period, although this relationship came under stress towards the end of period, forming a crisis in itself. This book argues that the business culture of the British-Atlantic mercantile community not only facilitated the conduct of day-to-day business, but also helped it to cope with short-term crises

and long-term changes. This facilitated the success of the British-Atlantic economy even within the context of changing geo-politics and an under-institutionalised environment. Not working 'merely for money' was a successful business model.

cwu business: Business Carol Neild, Carol Carysforth, Mike Neild, 2004-08-23

cwu business: The Complete Guide to IT Service Level Agreements Andrew Hiles, Hon FBCI, EIoSCM, 2016-06-01 Most suppliers lose around 16% of their customers each year. The reason? Poor service — whether perceived or real. Any technology-based support service, whether in-house, contracted or outsourced, stands to be accused of being insensitive to the requirements of its customers (or users). Equally, customers of a support service may have unrealistic expectations of what can be reasonably provided. Service Level Agreements (SLAs) can overcome these gulfs. A Service Level Agreement can create harmony between parties and can prevent disputes between customers and suppliers. It can justify investment and identify the right quality of service. It can mean the difference between business success and failure. SLAs are potentially a strategic tool to align all support services (particularly IT) directly to business mission achievement. In the past, few organizations used them in this way. Armed with this book and the companion SLA FRAMEWORK, more and more businesses are now succeeding. Where are SLAs going? Increasingly business-focused. Increasingly measured in real-time. Simple documents that cover complex service infrastructures. Providing a competitive edge. Embracing penalties. The brave, who commit to tight SLAs and perform against them will win the commercial spoils. This book provides the knowledge and tools based on fifteen years of intensive development to ensure your enterprise is among the winners.

cwu business: The Meaning of Militancy? Gregor Gall, 2017-11-01 This title was first published in 2003. This book explores many of the major issues of concern to researchers studying trade unionism. It offers: a definition, elaboration and contextualisation of militancy (industrial, union and worker); an examination of the relationship between workplace unionism and the wider body of the union; a study of factionalism and industrial and political consciousness; and an analysis of the construction and mobilisation of conflict and cooperation (social partnership). These themes are considered through examining the relatively militant response of British postal workers to increased commercialisation of their industry. By comparing this response to that of postal workers in nine other major industrial countries, the study provides an explanation of why UK postal workers have been relatively successful in resisting new management techniques and privatisation through militancy and oppositionalism. One aspect given particular attention is the uneasy relationship within the postal workers' union between shop floor militancy and the social partnership approach followed by the union's leadership.

cwu business: Outlook , 1999 The professional publication for California CPAs.

cwu business: Saving the Royal Mail's universal postal service in the digital age Richard Hooper, Great Britain Department for Business, Innovation and Skills, 2010-09-10 The Coalition Government asked Richard Hooper to update the 2008 report Modernise or decline: policies to maintain the universal postal service in the United Kingdom (Cm. 7529, 2008, ISBN 9780101752923). He finds the universal postal service still under serious threat, with most of the original causes for concern having got worse: the market and Royal Mail's market share continue to decline; the company has still not modernised sufficiently; the accounting pension deficit has grown from £2.9bn to £8.0bn; the current regulatory regime is not fit for purpose. The 2008 recommendation that private sector capital is required by Royal Mail is reiterated, for several reasons. The company is unlikely to generate sufficient cash to finance the modernisation required. Private sector capital will inject private sector disciplines and reduce the risk of political intervention in commercial decisions. And the state of the public finances means that Royal Mail will find it harder to compete for Government capital against other public spending priorities. But private capital will not be attracted without action on the pension deficit and the regulatory regime. The historic pension deficit should be taken over by the public purse. A new regulatory framework

must be created that increases certainly for investors in the postal services sector in general and in Royal Mail in particular. Postcomm has recently consulted on a new framework, and this should be built upon. This update sets out the high level principles that should guide regulation, ensuring the overall burden is reduced.

cwu business: Leveraging Brands in Sport Business Mark Pritchard, Jeffrey Stinson, 2013-08-15 This edited text compiles advanced material relating to strategy and marketing in the field of sports business. Featuring contributions from experts across the sports business field, the book approaches strategy from the standpoint of managing and marketing a brand. With integrated current-day examples highlighting practices and issues, as well as 'real-world' applied video cases, this book is ideal for marketing students and sports business practitioners looking to gain strategic insights into the industry.

cwu business: Unions in a Globalized Environment Bruce Nissen, 2016-09-16 How can American unions survive in our increasingly globalized business environment? With the trend toward multinational corporations, free trade pacts, and dismantling import barriers, organized labor has been steadily losing ground in the United States. This book argues that to reverse this trend, U.S. unions must create ties with workers and unions in other countries, and include the ever-increasing number of immigrant workers in their ranks. And it calls for a shift toward social movement unionism, which would change unions' orientation from exclusively market-focused and more toward social issues and rights.

cwu business: Handbook of Human Performance Technology James A. Pershing, 2006-03-31 The first two editions of the Handbook of Human Performance Technology helped define the rapidly growing and vibrant field of human performance technology - a systematic approach to improving individual and organizational performance. Exhaustively researched, this comprehensive sourcebook not only updates key foundational chapters on organizational change, evaluation, instructional design, and motivation, but it also features breakthrough chapters on performance technology in action and addresses many new topics in the field, such as certification, Six Sigma, and communities of practice. Boasting fifty-five new chapters, contributors to this new edition comprise a veritable who's who in the field of performance improvement, including Geary Rummler, Roger Kaufman, Ruth Clark, Allison Rossett, Margo Murray, Judith Hale, Dana and James Robinson, and many others. Praise for the third edition of the Handbook of Human Performance Technology If you are in the business of trying to improve organizational performance, this Handbook should be the first place you look for answers to questions about human performance technology. - Joseph J. Durzo, CPT, Ph.D., senior vice president and chief learning officer, Archstone-Smith This newest edition of the Handbook provides an unparalleled, all-encompassing survey of the latest theory and its practical application in this emergent field. This book is a must-have reference for any professional wishing to systematically improve performance within their organization. - Weston McMillan, CPT, manager, training and development, eBay Inc. An invaluable, engaging resource for anyone charged with improving workplace performance. It not only provides the background and foundations of our profession, but more importantly, it also provides the most up-to-date descriptions of how to apply HPT to drive results. - Rodger Stotz, CPT, vice president and managing consultant, Maritz Inc. This book is filled with insights--both for those who are new to the field and also for those who are experienced. It offers concrete advice and examples on how to use HPT to impact business results and how to work successfully within organizations. - Anne Marie Laures, CPT, director, learning services, Walgreen Co. The Handbook contains many of the secrets for improving the performance of individuals, groups, and organizations. - Robert F. Mager, author, *Analyzing Performance Problems and How to Turn Learners On...Without Turning Them Off*

cwu business: CompetitiveEdge: A Guide to Business Programs 2013 Peterson's, 2013-04-15 Peterson's CompetitiveEdge: A Guide to Graduate Business Programs 2013 is a user-friendly guide to hundreds of graduate business programs in the United States, Canada, and abroad. Readers will find easy-to-read narrative descriptions that focus on the essential information that defines each business school or program, with photos offering a look at the faces of students,

faculty, and important campus locales. Quick Facts offer indispensable data on costs and financial aid information, application deadlines, valuable contact information, and more. Also includes enlightening articles on today's MBA degree, admissions and application advice, new business programs, and more.

cwu business: *Jesus, Jobs, and Justice* Bettie Collier-Thomas, 2010-02-02 "The Negroes must have Jesus, Jobs, and Justice," declared Nannie Helen Burroughs, a nationally known figure among black and white leaders and an architect of the Woman's Convention of the National Baptist Convention. Burroughs made this statement about the black women's agenda in 1958, as she anticipated the collapse of Jim Crow segregation and pondered the fate of African Americans. Following more than half a century of organizing and struggling against racism in American society, sexism in the National Baptist Convention, and the racism and paternalism of white women and the Southern Baptist Convention, Burroughs knew that black Americans would need more than religion to survive and to advance socially, economically, and politically. Jesus, jobs, and justice are the threads that weave through two hundred years of black women's experiences in America. Bettie Collier-Thomas's groundbreaking book gives us a remarkable account of the religious faith, social and political activism, and extraordinary resilience of black women during the centuries of American growth and change. It shows the beginnings of organized religion in slave communities and how the Bible was a source of inspiration; the enslaved saw in their condition a parallel to the suffering and persecution that Jesus had endured. The author makes clear that while religion has been a guiding force in the lives of most African Americans, for black women it has been essential. As co-creators of churches, women were a central factor in their development. *Jesus, Jobs, and Justice* explores the ways in which women had to cope with sexism in black churches, as well as racism in mostly white denominations, in their efforts to create missionary societies and form women's conventions. It also reveals the hidden story of how issues of sex and sexuality have sometimes created tension and divisions within institutions. Black church women created national organizations such as the National Association of Colored Women, the National League of Colored Republican Women, and the National Council of Negro Women. They worked in the interracial movement, in white-led Christian groups such as the YWCA and Church Women United, and in male-dominated organizations such as the NAACP and National Urban League to demand civil rights, equal employment, and educational opportunities, and to protest lynching, segregation, and discrimination. And black women missionaries sacrificed their lives in service to their African sisters whose destiny they believed was tied to theirs. *Jesus, Jobs, and Justice* restores black women to their rightful place in American and black history and demonstrates their faith in themselves, their race, and their God.

cwu business: *Union Recognition* Gregor Gall, 2006-01-16 Several thousand new trade union recognition agreements have been signed since 1997, representing a major development within industrial relations in Britain. This has resulted from the interaction of union organizing efforts and the statutory union recognition provisions of the Employment Relations Act 1999. However for trade unions, recognition alone is not enough, a vital issue is whether, having gained union recognition, trade unions are now effectively delivering upon the promises and prospects of union recognition. These essays examine the substantive outcomes of these new agreements in regard to union representation and collective bargaining. In particular, they explore: the impact on terms and conditions of employment employers' behaviour and strategy the nature of the union-management bargaining relationship the building of workplace unionism. While the collection focuses primarily on Britain, the germane issues are also looked at in the context of Australia, Canada and the U.S.A. Conceptually and theoretically, *Union Recognition* offers contributions which develop our understanding of the relationship between workplace and national unionisms and of mobilization theory.
