costco business center los angeles: *A New New Deal* Amy B. Dean, David B. Reynolds, 2011-05-15 In A New New Deal, the labor movement leaders Amy B. Dean and David B. Reynolds offer a bold new plan to revitalize American labor activism and build a sense of common purpose between labor and community organizations. Dean and Reynolds demonstrate how alliances organized at the regional level are the most effective tool to build a voice for working people in the workplace, community, and halls of government. The authors draw on their own successes to offer in-depth, contemporary case studies of effective labor-community coalitions. They also outline a concrete strategy for building power at the regional level. This pioneering model presents the regional building blocks for national change. A diverse audience—both within the labor movement and among its allies—will welcome this clear, detailed, and inspiring presentation of regional power-building tactics, which include deep coalition-building, leadership development, policy research, and aggressive political action. A New New Deal explores successful coalitions forged in Los Angeles, Boston, Denver, San Jose, New Haven, and Atlanta toward goals such as universal health insurance for children and sensible redevelopment efforts that benefit workers as well as businesses. The authors view partnerships between labor and grassroots organizations as a mutually beneficial strategy based on shared goals, resulting in a broadened membership base and increased organizational capacity. They make the innovative argument that the labor movement can steward both industry and community and make manifest the ways in which workplace battles are not the parochial concerns of isolated workers, but a fundamental struggle for America's future. Drawing on historical parallels, the authors illustrate how long-term collaborations between labor and community organizations are sowing the seeds of a new New Deal.

costco business center los angeles: Business Essentials for Strategic Communicators M. Ragas, E. Culp, 2014-12-17 The rise of digital media and the public's demand for transparency has elevated the importance of communication for every business. To have a voice or seat at the table and maximize their full value, a strategic communicator must be able to speak the language and understand business goals, issues, and trends. The challenge is that many communicators don't hold an MBA and didn't study business in college. Business Essentials for Strategic Communicators provides communication professionals and students with the essential 'Business 101' knowledge they need to navigate the business world with the best of them. Readers will learn the essentials of financial statements and terminology, the stock market, public companies, and more--all with an eye on how this knowledge helps them do their jobs better as communication professionals.

costco business center los angeles: The Retail Revolution Nelson Lichtenstein, 2009-07-21 The definitive account of how a small Ozarks company upended the world of business and what that change means Wal-Mart, the world's largest company, roared out of the rural South to change the way business is done. Deploying computer-age technology, Reagan-era politics, and Protestant evangelism, Sam Walton's firm became a byword for cheap goods and low-paid workers, famed for the ruthless efficiency of its global network of stores and factories. But the revolution has gone further: Sam's protégés have created a new economic order which puts thousands of manufacturers, indeed whole regions, in thrall to a retail royalty. Like the Pennsylvania Railroad and General Motors in their heyday, Wal-Mart sets the commercial model for a huge swath of the global economy. In this lively, probing investigation, historian Nelson Lichtenstein deepens and expands our knowledge of the merchandising giant. He shows that Wal-Mart's rise was closely linked to the cultural and religious values of Bible Belt America as well as to the imperial politics, deregulatory economics, and laissez-faire globalization of Ronald Reagan and his heirs. He explains how the company's success has transformed American politics, and he anticipates a day of reckoning, when challenges to the Wal-Mart way, at home and abroad, are likely to change the far-flung empire. Insightful, original, and steeped in the culture of retail life, The Retail Revolution draws on first hand reporting from coastal China to rural Arkansas to give a fresh and necessary understanding of the phenomenon that has transformed international commerce.

costco business center los angeles: Neoliberal Cities Andrew J. Diamond, Thomas J. Sugrue, 2020-08-25 Traces decades of troubled attempts to fund private answers to public urban problems The American city has long been a laboratory for austerity, governmental decentralization, and market-based solutions to urgent public problems such as affordable housing, criminal justice, and education. Through richly told case studies from Boston, Chicago, Cleveland, Los Angeles, New Orleans, and New York, Neoliberal Cities provides the necessary context to understand the always intensifying racial and economic inequality in and around the city center. In this original collection of essays, urban historians and sociologists trace the role that public policies have played in reshaping cities, with particular attention to labor, the privatization of public services, the collapse of welfare, the rise of gentrification, the expansion of the carceral state, and the politics of community control. In so doing, Neoliberal Cities offers a bottom-up approach to social scientific, theoretical, and historical accounts of urban America, exploring the ways that activists and grassroots organizations, as well as ordinary citizens, came to terms with new market-oriented public policies promoted by multinational corporations, financial institutions, and political parties. Neoliberal Cities offers new scaffolding for urban and metropolitan change, with attention to the interaction between policymaking, city planning, social movements, and the market.
