New York Times bestselling author Carl Weber and Essence® bestseller La Jill Hunt return with a story of love, money, power, and respect in the next edition of the popular Family Business series. Five years ago, Orlando Duncan created the perfect drug in HEAT. It made the Duncans more than two hundred and fifty million dollars and was on its way to making them billionaires. However, they abruptly stopped manufacturing the drug when it was proven to cause cancer in rats. Yes, even as drug distributors, they still had a moral compass, placing lives over profit despite the overwhelming

demand. When Orlando is awakened by an alarm in his old lab, he discovers that not only have all his computers, equipment, and notes been stolen, but the robbers have also taken over a million tabs of HEAT that he'd left behind for future experiments—tabs that he had sworn to his family he would destroy. Dr. Brandi Richardson is one of the most brilliant research chemists in the world, but her propensity for cutting corners led to her firing from both Dow Chemicals and Dupont. She's now working at CVS as a clerk, but things are about to change for her in a big way. Billionaire Alexander Cora is known as the Moor by business associates and enemies. His company, Cora International, is a publicly traded EU defense contractor. It is also a front for one of the largest weapons, drugs, and illegal contraband smuggling rings in the world. For some reason, he has set his sights on the Duncan family. That can't be good, because Alexander plays for keeps, and he has not been known to lose. Niles Monroe, the handsome hitman and Paris Duncan's one true love, is back from the dead, and it's only a matter of time before he comes looking for her. These rich and powerful people are on a collision course. When the dust settles, who will still be alive, and who will be on top?

curtis duncan family business: House of Plenty Carol Dawson, Carol Johnston, 2022-02-24 The epic story of the rise, fall, and redemption of an iconic American restaurant, one of only five in

the Fortune 500. Scarred by the deaths of his mother and sisters and the failure of his father's business, a young man dreamed of making enough money to retire early and retreat into the secure world that his childhood tragedies had torn from him. But Harry Luby refused to be a robber baron. Turning totally against the tide of avaricious capitalism, he determined to make a fortune by doing good. Starting with that unlikely, even naive, ambition in 1911, Harry Luby founded a cafeteria empire that by the 1980s had revenues second only to McDonald's. So successfully did Luby and his heirs satisfy the tastes of America that Luby's became the country's largest cafeteria chain, creating more millionaires per capita among its employees than any other corporation of its size. Even more surprising, the company stayed true to Harry Luby's vision for eight decades, making money by treating its customers and employees exceptionally well. Written with the sweep and drama of a novel, *House of Plenty* tells the engrossing story of Luby's founding and phenomenal growth, its long run as America's favorite family restaurant during the post-World War II decades, its financial failure during the greed-driven 1990s when non-family leadership jettisoned the company's proven business model, and its recent struggle back to solvency. Carol Dawson and Carol Johnston draw on insider stories and company records to recapture the forces that propelled the company to its greatest heights, including its unprecedented practices of allowing store managers to keep 40 percent of net profits and issuing stock to all employees, which allowed thousands of Luby's workers to achieve the American dream of honestly earned prosperity. The authors also plumb the depths of the Luby's drama, including a hushed-up theft that split the family for decades; the 1991 mass shooting at the Killeen Luby's, which splattered the company's good name across headlines nationwide; and the rapacious over-expansion that more than doubled the company's size in nine years (1987-1996), pushed it into bankruptcy, and drove president and CEO John Edward Curtis Jr. to violent suicide. Disproving F. Scott Fitzgerald's adage that there are no second acts in American lives, *House of Plenty* tells the epic story of an iconic American institution that has risen, fallen, and found redemption—with no curtain call in sight. Intrigue, mystery, and strategy—all in a historical profile of Luby's Cafeterias. This is a book about an institution we all knew as home—never thinking that the foundation was a business plan destined to work for fifty years. What went wrong? Read on! A must for business schools everywhere, and a fun read for everyone.—Jon Brumley, *Forbes*

curtis duncan family business: Private foundations Great Britain: Parliament: House of Commons: International Development Committee, 2012-01-20
 The International Development Committee reports that private philanthropy is improving the lives of some of the world's poorest people, but the Department for International Development (DFID) must do more to engage private foundations in coordinated global efforts to improve the effectiveness of aid. While private foundations make a huge contribution, concerns have been raised about the transparency and accountability. Foundations should sign up to International Aid Transparency Initiative guidelines and be brought into global structures to ensure that they coordinate their work with other donors. DFID currently engages with foundations on an ad-hoc basis and the report recommends a more systematic approach to the Department's relationship with private philanthropic organisations. The Committee recognises that DFID officials cannot meet all small foundations on a one-to-one basis, but it believes that the Department should make more efforts to engage with them. A designated contact official for foundations should be established and a DFID minister should hold an annual meeting with groups of smaller foundations. The Department should produce a publication indicating what DFID funding foundations might apply for, and how to apply. DFID should include foundations as fully as possible in future development events and processes, including the High

Level Forum on Aid Effectiveness; the forthcoming Rio + 20 UN Conference on Sustainable Development; and discussions of a post-2015 Millennium Development Goal Framework.
