entertainment business idea: *One Vision Billion Dreams* Santosha K. Nayak, 2020-11-26 This book is all about the economic empowerment of the common man. More than 80% of the people are under sheer darkness and away from real development. When we talk and see of development, it is less than 20 % of the country. Historically and systematically large sections of the people were kept under darkness. And the trend hasn't seen light for quite some time despite all the efforts from many eminent persons from different walks of life. Perhaps, they all used only their minds and lacked in their heart while trying to find solutions. The author in this book has attempted afresh some steps with a bottom up approach to achieve real development of all, especially the left-out 80%; and achieve comprehensive economic development across every nook and corner of the country. This book talks about Unique Natural Endowment Theory, Graded Self-sufficient Model of Regional Economic Development; and analysed the structural needs in each sector of the economy so as to address the persistent on the ground problems. At present, entrepreneurial knowledge is at a low level among the larger mass; and challenges to micro entrepreneurship are high. The book also talks about entrepreneurial spirit and processes for the common man. This book discovers ways to reach new heights of growth and development in New India. This book has dreams for every common man and tries to find ways to materialise the individual dreams of the billion plus people of India. That's why this book is - One Vision for a Billion Dreams.

entertainment business idea: *Media and Entertainment Industry Management* Sunghan Ryu, 2024-04-19 The media and entertainment industry (MEI) differs significantly from traditional industries in many respects. Accordingly, the management of strategy, marketing and other business practices in the MEI necessitates a unique approach. Sunghan Ryu offers students focused and relevant insights into critical topics, illustrated by vivid examples from the MEI. Unlike typical introductory textbooks on business and management, this book does not overemphasize complicated layers of theory. Instead, it presents essential concepts and frameworks in a digestible manner and supplements them with opportunities to apply this knowledge to real-world cases. The textbook demonstrates how knowledge can be constructively implemented in business and management scenarios. It is structured into 12 chapters, divided into five core modules: (1) Overview of the MEI, (2) The Fundamentals of Management, (3) Marketing Management, (4) Digital Business and Management, and (5) New Business Models and Entrepreneurship. Students will gain the ability to explain key concepts and frameworks across core business and management domains and develop analytical skills through diverse real-world cases in the MEI. Based on this knowledge, they will be equipped to identify management-related issues in the MEI and arrive at practical and effective solutions. This book is an essential guide for students who wish to understand business and management in the dynamic world of the MEI.
