Kiss, 2017-09-29 Universal Studios created the first cinematic universe of monsters--Dracula, Frankenstein, the Mummy and others became household names during the 1930s and 1940s. During the 1950s, more modern monsters were created for the Atomic Age, including one-eyed globs from outer space, mutants from the planet Metaluna, the Creature from the Black Lagoon, and the 100-foot high horror known as Tarantula. This over-the-top history is the definitive retrospective on Universal's horror and science fiction movies of 1951-1955. Each receives a richly detailed critical analysis, day-by-day production history, interviews with filmmakers, release information, an essay on the score, and many photographs, including rare behind-the-scenes shots.

elga business account: Quality Management Competencies-in-use Jason Martin, 2019-10-21 Quality management is an established, widespread and well-researched management concept. Yet, surprisingly little research can be found on understanding the potential for action that is required in order to perform quality management work. The field of quality management has a strong emphasis not only on a customer and supplier focus (external), but also on a process focus (internal). This creates a constant challenge in the way in which quality management is conceived and realised. Another challenge is reflected in current research that describes the need for conceptual change in quality management due to extensive ongoing changes in society and the business environment. The nature and pace of technological development, coupled with changes in social behaviour, continuously bring out new customer needs and new ways for customers to interact with the producers of goods and services. This requires adaptive and innovative approaches for

organisations, in order to stay competitive and relevant. This thesis uses competence-based and practice-based perspectives to better understand the requirements placed on quality management in meeting these challenges. It investigates what quality management work is and what properties must exist, in terms of competence and practice, in order to make quality management work possible. The purpose of this thesis is, therefore, to explore how the theoretical perspectives of competence and practice can contribute to an increased understanding of what is required to perform quality management work. Three research questions are posed and answered. The first research question concerns the nature of quality management work and how its key factors may be characterised; the second research question deals with competencies of quality management and how these are interrelated with quality management work; the third research question concerns how the interplay between quality management competencies can be understood. The research questions are answered by interpreting the findings of five papers included in the thesis, using a conceptual framework. The results of the thesis suggest two main directions of quality management work: expansive and adaptive quality management work. Expansive work is characterised by explorative practice, radical change to existing processes or the development of new processes, a logic of development, an orientation towards development and innovation, a striving to increase external efficiency and a striving to increase process variation. Adaptive work is characterised by exploitative practice, incremental change to existing processes, a logic of performance, an orientation towards goals and productivity, a striving towards internal efficiency and a striving to decrease process variation. Quality management competencies relate to quality management work in combining role dependency and discretion. Role dependency signifies the potential and capability to assume multiple role-responsibilities. Discretion is the 'freedom of movement' for quality practitioners to engage in practices and choose quality management work directions according to task and situation. The interplay between quality management competencies is understood as the combined effects of two competence antecedents: individual and/or collective dispositions to change and learning. This thesis extends research on quality management by increasing our knowledge and understanding of the requirements needed, not only to select and perform existing quality management practices, but also to adopt and engage in practices where emergence is accommodated by ambidexterity.

Kvalitetsutveckling är ett etablerat, utbrett och välbeforskat managementkoncept. Trots detta går det att hitta förvånansvärt lite forskning vilken fokuserar på en ökad förståelse för de handlingsförmågor som faktiskt krävs för att utföra kvalitetsutveckling. Som koncept särskiljer sig kvalitetsutveckling i sitt dubbla fokus på både ett internt, processrelaterat innehåll och ett externt, kundfokuserat innehåll. Detta skapar en konstant utmaning för hur kvalitetsutveckling kan förstås och omsättas i praktiker. En annan utmaning som beskrivs i forskningen är behovet av konceptuell förändring som krävs i kvalitetsutveckling för att möta kunna samhällseliga och marknadsmässiga förändringar. Hastigheten och innehållet i den tekniska utvecklingen samt förändringar i sociala beteenden utvecklar hela tiden nya kundbehov och nya sätt att interagera med leverantörer av varor och tjänster. Detta kräver anpassningsinriktade och innovativa förhållningssätt för organisationer att vara relevanta samt att kunna bibehålla och öka konkurrenskraften. Kompetensteoretiska och praktikteoretiska perspektiv används i avhandlingen för att bättre förstå de krav som kan ställas på modern kvalitetsutveckling i att möta dessa utmaningar. Avhandlingen undersöker vad modern kvalitetsutveckling är och vilka egenskaper som måste finnas, i termer av kompetens och praktik, för att möjliggöra att modern kvalitetsutveckling utförs. Syftet med denna avhandling är således att utforska hur kompetensteoretiska och praktikteoretiska perspektiv kan bidra till en ökad förståelse för vad som krävs för att utföra kvalitetsutvecklingsarbete. Tre olika forskningsfrågor behandlas. Den första forskningsfrågan handlar om vad kvalitetsutvecklingsarbete är och hur det kan karaktäriseras i termer av nyckelfaktorer. Den andra forskningsfrågan berör kompetenser för kvalitetsutveckling och hur dessa kan kopplas till arbete med kvalitetsutveckling. Den tredje forskningsfrågan handlar om hur samspelet mellan kompetenser för kvalitetsutvecklingsarbete kan förstås. Forskningsfrågorna besvaras genom att tolka de empiriska resultaten i fem bilagda artiklar utifrån ett konceptuellt ramverk. Avhandlingens resultat visar på två huvudsakliga inriktningar på

innehållet i kvalitetsutvecklingsarbete: expansivt och adaptivt kvalitetsutvecklingsarbete. Nyckelfaktorer i expansivt arbete är "explorative" praktik, radikal förändring av existerande processer eller utveckling av nya processer, utvecklingslogik, utvecklings- och innovationsorientering, extern effektivitet samt ökning av processvariation. Nyckelfaktorer i adaptivt arbete är "exploitative" praktik, inkrementell förändring i existerande processer, prestationslogik, mål och produktivitets-orientering, intern effektivitet samt att minska och styra processvariation. Kopplingen mellan kompetenser för och arbetet med praktiker i kvalitetsutveckling utgörs av en potential för rollberoende och handlingsfrihet. Rollberoende beskriver en individuell och/eller kollektiv kapacitet att kunna tillägna sig samt byta mellan olika definierade rollansvar. Handlingsfrihet beskriver kapaciteten att kunna välja inriktning på innehållet i arbetet beroende på uppgift och situation. Samspelet mellan kompetenser för kvalitetsutvecklingsarbete kan beskrivas som den samlade effekten av två förutsättningar (eng. antecedent) för kompetens: individuell och/eller kollektiv benägenhet för förändring och lärande. Avhandlingens resultat bidrar till forskningen om kvalitetsutveckling på två huvudsakliga sätt. Dels genom att öka kunskap och förståelse för de krav som ställs på att välja och prestera existerande kvalitetsutvecklingspraktiker. Dels genom att öka förståelsen om hur anpassning och utövande av dessa praktiker går till där framväxandet av praktiker stimuleras genom att möjliggöra organisatorisk ambidextri.

elga business account: Nightmare in the Pacific Michael Doyle, 2025-03-17 Artie Shaw took his clarinet to war, where he roused the troops and paid the price. A pugnacious and strong-willed musician, Shaw abandoned civilian celebrity to lead World War II's most colorful navy band on an island-hopping odyssey that raised military morale but brought him into dark waters. Nightmare in the Pacific: The World War II Saga of Artie Shaw and his Navy Band recounts the offbeat wartime adventures of the bandleader and the musicians he recruited for the hard-swinging outfit popularly dubbed Shaw's Rangers. This team of all-stars, seasoned pros, and promising up-and-comers included the brilliant but troubled drummer Dave Tough, the diminutive trumpet master Max Kaminsky, and, until he jumped ship, the composer and piano ace Claude Thornhill. Officially designated as Navy Band 501, they were unmatched musically though never exactly squared away. The group's eleven-month overseas deployment started with an extended stay as a house band at a Pearl Harbor club for enlisted men. The cushy gig turned serious when Shaw's Rangers shipped out on a battleship for the far reaches of New Caledonia, the New Hebrides, and, most fatefully, Guadalcanal. It was there that the musicians would come under fire and Shaw's own indomitable will would crack. But then, in an unexpected and poignant coda, the band that Artie Shaw conjured into existence would reach its musical peak once he was out of the picture. Tapping a trove of navy personnel files, medical records, court documents and archival materials, as well as contemporary accounts, Nightmare in the Pacific combines musical and military history into one unique saga.

elga business account: *The Ferryman* Shreya Ganguly, 2021-09-24 Every myth is a tale half-told... When the darkest of vice meets red-stained ice, we hear it all unfold! It is 2035 CE (covid era). Este, a disgraced and broken ex-intelligence officer, finds herself in the middle of a small isolated island community, frozen and barren— on the edge of the world, with the ‘virus’ at the core of its existing divisions. She has come here searching for a second chance, a chance to redeem herself from the demons of an unforgiving yet forgotten past. In doing that, as she tries hard to blend into this near-about dystopian world, she realises that subtle is scarce; ominous rituals, ‘handsome’ dead bodies, the flaring ‘mythical’ and a sinister Belief surround her, shadowing the darkness that is growing within her. Sleuthing skills, a favouring instinct and an overbearing empathy act as her only shield, as she navigates between the intrigues of this remote coastline and that of her mind, much desperate to untangle the meaning of her long-quested salvation. She is also confident. Perhaps a little too much. She thinks she has all the reins— of both probe and patriarchy. But nothing is as it seems. Not even her. She is much more than who she is... much more than she will ever know! Hence, when the land dangles a mirror in front of her, it is she who must choose. The End. Of her and of this story.

elga business account: *Babayaga* Toby Barlow, 2024-09-04 By the author of *Sharp Teeth*, a novel of love, spies, and witches in 1950s Paris—and a cop turned into a flea Will is a young American ad executive in Paris. Except his agency is a front for the CIA. It's 1959 and the cold war is going strong. But Will doesn't think he's a warrior—he's just a good-hearted Detroit ad guy who can't seem to figure out Parisian girls. Zoya is a beautiful young woman wandering les boulevards, sad-eyed, coming off a bad breakup. In fact, she impaled her ex on a spike. Zoya, it turns out, has been a beautiful young woman for hundreds of years; she and her far more traditionally witchy-looking companion, Elga, have been thriving unnoticed in the bloody froth of Europe's wars. Inspector Vidot is a hardworking Paris police detective who cherishes quiet nights at home. But when he follows a lead from a grisly murder to the abode of an ugly old woman, he finds himself turned into a flea. Oliver is a patrician, fun-loving American who has come to France to start a literary journal with the help of friends in D.C. who ask a few favors in return. He's in well over his head, but it's nothing that a cocktail can't fix. Right? Add a few chance encounters, a chorus of some more angry witches, a strung-out jazzman or two, a weaponized LSD program, and a cache of rifles buried in the Bois de Bologne—and that's a novel! But while Toby Barlow's *Babayaga* may start as just a joyful romp through the City of Light, it quickly grows into a daring, moving exploration of love, mortality, and responsibility.
