etihad seats business class: *Buying the Big Jets* Paul Clark, 2017-07-14 Selecting the right aircraft for an airline operation is a vastly complex process, involving a multitude of skills and considerable knowledge of the business. *Buying the Big Jets* has been published since 2001 to provide expert guidance to all those involved in aircraft selection strategies. This third edition brings the picture fully up to date, representing the latest developments in aircraft products and best practice in airline fleet planning techniques. It features a new section that addresses the passenger experience and, for the first time, includes regional jet manufacturers who are now extending their product families into the 100-plus seating category. Overall, the third edition looks at a broader selection of analytical approaches than previously and considers how fleet planning for cost-leader airlines differs from that of network carriers. *Buying the Big Jets* is an industry-specific example of strategic planning and is therefore a vital text for students engaged in graduate or post-graduate studies either in aeronautics or business administration. The book is essential reading for airline planners with fleet planning responsibility, consultancy groups, analysts studying aircraft performance and economics, airline operational personnel, students of air transport, leasing companies, aircraft value appraisers, and all who manage commercial aircraft acquisition programmes and provide strategic advice to decision-makers. It is also a valuable tool for the banking community where insights into aircraft acquisition decisions are vital.

With tips and information from the American Diabetes Association. In the middle of a yearlong backpacking trip around the world with his wife, Oren Liebermann is teaching English to young Buddhist monks in Pokhara, Nepal, when his body begins to fail him. He is constantly thirsty and exhausted, and by the time he steps on a scale, he has lost forty-five pounds. At a local clinic, a doctor gives him a diagnosis that will change his life forever: "I'm sorry to tell you, my friend, that you are a diabetic." Devastated, Liebermann is trapped in a freezing hospital room, trying to recover enough to fly home. His friends and family urge him to call off the rest of his trip. He had quit his job as a TV news reporter for this dream-come-true journey, but the nightmare diagnosis has thrown his world into disarray. However, Liebermann and his wife, Cassie, make a decision. They have an adventure to finish, and he has the rest of his life to live. Bold, raw, and poignantly candid, *The Insulin Express* tells the story of what happens when the best-made travel plans are subject to the

ever-present chaos of life, and how a major setback can turn into the opportunity of a lifetime. Despite struggling with a chronic disease that almost kills him in the Himalayas, Liebermann hikes along the Great Wall of China, conquers the Inca Trail to Machu Picchu, and sips cobra whiskey in Laos. What begins as a travel chronicle across thirty countries transforms into a single journey of resilience and self-discovery—going from hopelessly lost and then wonderfully found.

etihad seats business class: Still Walking Bill Moss AO, 2012-05-02 When Bill Moss decided in 1984 to leave a prestigious job and take a salary cut to join the boutique investment firm that later became Macquarie Bank, he faced the challenge of starting a real estate investment business from a small desk in an open-plan office, with just one fulltime employee working for him. In its first year of

operations, the business Moss had seemingly crazily agreed to take on made a profit of just \$40,000. Twenty-two years later, when he retired as the legendary head of Macquarie Bank's real estate and banking division and one of Australia's highest paid executives, Bill Moss AO had built a global business in real estate finance, development and funds management that stretched across five continents from Africa to Asia, Europe, Australia and North America, and created thousands of jobs. Yet up until a few years before deciding to retire from the 'Millionaire Factory', Moss fought every step of the way to conceal a grim personal secret from work colleagues, business associates and friends—and most of all from himself. When he was 27, Moss was told by doctors he had a degenerative and incurable muscle wasting disease, a form of muscular dystrophy called FSHD, which the ambitious, driven young businessman was assured would leave him crippled and in a wheelchair by the age of 50. These memoirs are the inspirational, moving, blunt and at times very funny account of how a senior and seemingly all-powerful Macquarie banker struggled for years through physical discomfort, pain and the many barriers thrown in the path of people with physical disabilities, not just to rise to the international heights of a notoriously difficult profession but also gradually to face and come courageously to terms with his disability. A multi-millionaire who began life in a fibro house in a working class suburb of Sydney, Moss is today a committed philanthropist, passionate campaigner for disability rights, and the founder of a global medical and scientific research foundation bringing hope to FSHD and other dystrophy sufferers around the world.

A lascivious beautiful blonde, crooked agents, an all-powerful Arab sheikh, a devious architect, Thai ladyboys, trade union skulduggery and the boys in the Frog and Nightgown - all come into play. To top it all, when the Oresundsbro Bridge collapses in Sweden, Marcus' bridge design is called into question - threatening financial ruin and prison. A fantastic follow-up to *The Horns of the Moon*, *A Donkey Up A Minaret* is an extremely entertaining, laugh-out-loud tale full of classic Marcus Moon fare. Terry White has done it again.

etihad seats business class: The Chairman's Lounge Joe Aston, 2024-10-28 Shortlisted for the 2025 ABIA Awards, General Nonfiction Book of the Year and The Matt Richell Award for New Writer of the Year From the must-read journalist on how power, money and influence work in this country, the full story of how one of the nation's favourite brands brought itself to ground. Before Covid, both Qantas and its CEO Alan Joyce were flying high, the darlings of customers, staff and investors. After Covid hit, only money mattered - in particular, the company's share price and extraordinary executive bonuses. Illegally redundant workers, unethical flight credits, abysmal customer service, antique aircraft: these became Qantas' new brand. How did things go so badly wrong? Why were customers at the end of the queue? And how did an increasingly autocratic Joyce constantly get his own way, with the Qantas board and with both Liberal and Labor governments, which handed over billions in subsidies and protected lucrative flight routes from foreign competition? For the first time, The Chairman's Lounge tells the full story of how one company banked the nation's loyalty and then cashed in on it. In his celebrated column Rear Window for the Australian Financial Review, Joe Aston's reporting of the ethical failings of Qantas spurred the early retirement of its CEO and the resignation of its chairman. With fresh interviews and revelations, written in Aston's trademark swashbuckling style, The Chairman's Lounge is the definitive account of how Qantas was brought to ground and who did it. It is a parable of our times. 'A masterclass in investigative journalism ... A scathing, unflinching takedown of greed, delusion and a shameless abuse of power, both jaw-dropping and brilliantly incisive' Adele Ferguson

etihad seats business class: Government In Business: Leading Or Lagging? Hwee Hua Lim, 2021-02-09 The evergreen debate over government's involvement in business continues in earnest. Participants straddle all stakeholder groups, from the state itself to the private sector to the public at large. Add to that debate increasing globalisation, and now de-globalisation, and the advent of technological advances. Criticism is often levelled at a government that is slow to act or one that belatedly introduces damning regulations. Many governments are already saddled with demands spanning mega infrastructural development to bulging fiscal deficits to evening out growth across the population. The politics of the day are however synonymous with short-termism. The Covid-19 pandemic has increased the bailout burden even more. The author attempts to provide a fair assessment of the potentially complementary roles that the public and private sectors can play in a fast-changing global economy, amidst the shifting expectations of society.
