dubai hills estate business park 1: The World by Design A. Eugene Kohn, Clifford Pearson, 2020-10-01 Sharing stories and inspiring lessons on leadership and design, one architect explains how he helped build one of the world's most successful firms Founded on July 4, 1976, Kohn Pedersen Fox quickly became a darling of the press with groundbreaking buildings such as the headquarters for the American Broadcasting Company (ABC) in New York, 333 Wacker Drive in Chicago, the Procter & Gamble headquarters in Cincinnati, and the World Bank Headquarters in Washington, DC. By the early 1990s, when most firms in the U.S. were struggling to survive a major recession, KPF was busy with significant buildings in London, Germany, Canada, Japan, Korea, and Indonesia—pioneering a model of global practice that has influenced architecture, design, and creative-services firms ever since. Like any other business, though, KPF has stumbled along the way and wrestled with crises. But through it all, it has remained innovative in an ever-changing field that often favors the newest star on the horizon. Now in its fifth decade, the firm has shaped skylines and cities around the world with iconic buildings such as the World Financial Center in Shanghai, the International Commerce Centre in Hong Kong, the DZ Bank Tower in Frankfurt, the Heron Tower in London, and Hudson Yards in New York. Fortright and engaging, Kohn examines both award-winning achievements and missteps in his 50-year career in architecture. In the process, he shows how his firm, KPF, has helped change the buildings and cities where we live, work, learn, and play. A must-read for all of those who love cities and the buildings and skylines that define them. —Stephen M. Ross, chairman and founder of The Related Companies

dubai hills estate business park 1: Branding the Middle East Steffen Wippel, 2023-10-04 This edited volume investigates place, product, and personal branding in the Middle East and North

Africa, including some studies from adjacent regions and the wider Islamic world. Going beyond simply presenting logos and slogans, it critically analyses processes of strategic communication and image building under general conditions of globalisation, neoliberalisation, and postmodernisation and, in a regional perspective, of lasting authoritarian rule and increased endeavours for “worlding.” In particular, it looks at the multiple actors involved in branding activities, their interests and motives, and investigates tools, channels, and forms of branding. A major interest exists in the entanglements of different spatial scales and in the (in)consistencies of communication measures. Attention is paid to reconfigurations of certain images over time and to the positioning of objects of branding in time and space. Historical case studies supplement the focus on contemporary branding efforts. While branding in the Western world and many emerging economies has been meticulously analysed, this edited volume fills an important gap in the research on MENA countries.
