gift for new business owners: The Conscience of Capitalism Terry L. Besser, 2002-11-30 The common wisdom that business contributions to the common good are counterproductive in the new competitive global marketplace does not hold up to empirical research. In fact, doing good is good for business, and a majority of businesses do provide some form of community support, which Besser discovered in her exhaustive survey of the Iowa business community. Business owners and managers often act out of a sense of community spirit and a certain obligation to better the common good. While the increasingly globalized economy has encouraged a number of large corporations to become freewheelers, the vast majority of companies are firmly rooted in place and look at their locales with more than just a utilitarian eye. Extensive interviews with Iowa business owners, managers, and business and community leaders are combined with findings from prior studies of corporate citizenship, and the evidence clearly indicates that the majority of businesses provide some form of community support. Most owners feel they should do more than just make a profit, so they often seek ways to give back to their communities, a move that is usually nurtured within the business community itself. However, corporate altruism carries risks. Many business owners have

unwittingly offended customers and clients by their acts of civic spirit. Besser concludes her book by addressing the potential threats to business social responsibility posed by globalization and recommends steps to enhance socially responsible capitalism. Anybody interested in the complex interaction of businesses and the communities they reside in will enjoy reading this positive revisitation of the mutually supportive relationship between trade and polity.

gift for new business owners: Sovereign Entrepreneurs Courtney Lewis, 2019-04-10 By 2009,

reverberations of economic crisis spread from the United States around the globe. As corporations across the United States folded, however, small businesses on the Qualla Boundary of the Eastern Band of Cherokee Indians (EBCI) continued to thrive. In this rich ethnographic study, Courtney Lewis reveals the critical roles small businesses such as these play for Indigenous nations. The EBCI has an especially long history of incorporated, citizen-owned businesses located on their lands. When many people think of Indigenous-owned businesses, they stop with prominent casino gaming operations or natural-resource intensive enterprises. But on the Qualla Boundary today, Indigenous entrepreneurship and economic independence extends to art galleries, restaurants, a bookstore, a funeral parlor, and more. Lewis's fieldwork followed these businesses through the Great Recession and against the backdrop of a rapidly expanding EBCI-owned casino. Lewis's keen observations reveal how Eastern Band small business owners have contributed to an economic sovereignty that empowers and sustains their nation both culturally and politically.
