highest paying business major: My Life with the Saints James Martin, 2010-06 One of Publishers Weekly's Best Books of the Year - Winner of a Christopher Award - Winner of a Catholic Press Association Book Award Meet some surprising friends of God in this warm and wonderful memoir James Martin has led an entirely modern life: from a lukewarm Catholic childhood, to an

education at the Wharton School of Business, to the executive fast track at General Electric, to ministry as a Jesuit priest, to a busy media career in Manhattan. But at every step he has been accompanied by some surprising friends-the saints of the Catholic Church. For many, these holy men and women remain just historical figures. For Martin, they are intimate companions. They pray for me, offer me comfort, give me examples of discipleship, and help me along the way, he writes. The author is both engaging and specific about the help and companionship he has received. When his pride proves troublesome, he seeks help from Thomas Merton, the monk and writer who struggled with egotism. In sickness he turns to Thérèse of Lisieux, who knew about the boredom and self-pity that come with illness. Joan of Arc shores up his flagging courage. Aloysius Gonzaga deepens his compassion. Pope John XXIII helps him to laugh and not take life too seriously. Martin's inspiring, witty, and always fascinating memoir encompasses saints from the whole of Christian history- from St. Peter to Dorothy Day. His saintly friends include Francis of Assisi, Ignatius of Loyola, Mother Teresa, and other beloved figures. They accompany the author on a lifelong pilgrimage that includes stops in a sunlit square of a French town, a quiet retreat house on a New England beach, the gritty housing projects of inner-city Chicago, the sprawling slums of Nairobi, and a gorgeous Baroque church in Rome. This rich, vibrant, stirring narrative shows how the saints can help all of us find our way in the world. In a cross between Holden Caulfield and Thomas Merton, James Martin has written one of the best spiritual memoirs in years. -Robert Ellsberg, author of *All Saints* It isn't often that a new and noteworthy book comes along in this genre, but we have reason to celebrate *My Life with the Saints*. It is earmarked for longevity. It will endure as an important and uncommon contribution to religious writing. -Doris Donnelly, *America* An account . . . that is as delightful as it is instructive. -First Things In delightful prose Martin recounts incidents, both perilous and funny, that have prompted him to turn to the saints, and in doing so shows us a new way of living out a devotion that is as old and universal as the Church. -Avery Cardinal Dulles, SJ, Fordham University An outstanding and often hilarious memoir. -Publishers Weekly Martin's final word for us is as Jungian as it is Catholic: God does not want us to be like Mother Teresa or Dorothy Day. God wants us to be most fully ourselves. -The Washington Post Book World

highest paying business major: Major Trade-Offs Corey Moss-Pech, 2025-05-06 An eye-opening look at the relationship between students' majors and their entry-level jobs. Humanities majors are used to answering the question, "So, what are you going to do with that degree?" The common misconception is that students in humanities programs don't learn any useful skills for the real world. In *Major Trade-Offs*, sociologist Corey Moss-Pech argues that not only do humanities majors learn real-world skills, but they actually use them when they graduate. Despite this discrepancy, graduates with so-called practical degrees like business and engineering are much more likely to find employment, and they earn higher salaries. Why do we belittle a liberal arts education despite the valuable skills that students acquire during their studies? *Major Trade-Offs* addresses this question by following students from different majors as they enter the workforce. To understand the relationship between majors and entry-level jobs, Moss-Pech conducted nearly 200 interviews with roughly ninety students from four majors at a large Midwestern university: engineering, business, English, and communications. He follows these students through their senior years, chronicling their internships and the support their universities provide in helping them pursue their career paths. He found that graduates from practical majors entered the labor market

successfully, typically through structured internship programs. However, many ended up in entry-level jobs that, while well-paid, were largely clerical and didn't necessarily require a degree to perform. On the other hand, liberal arts majors rarely accessed structured internships and were largely left to carve out their own paths, but did use their degree skills once they secured a job. These results challenge popular myths about the "marketability" of these different majors and offer a new vision for the future of higher education. Liberal arts skills are essential in the labor market, and yet educators and policymakers still push resources into the practical arts, perpetuating the myth that those majors are more valuable while depriving students of a well-rounded education and leaving them no better prepared for the workforce than liberal arts students. Of interest to students, educators, and employers, Major Trade-Offs calls on colleges and universities to advocate for liberal arts majors, leveling the playing field for students as they plan for entry-level work.

highest paying business major: Tourism Geography Stephen Williams, 2009-06-02 Tourism is an intensely geographic phenomenon. It stimulates large-scale, global movement of people and forges distinctive relationships between people and the places they visit. It shapes processes of physical development and resource exploitation, whilst the presence of visitors exerts a range of economic, social, cultural and environmental impacts that often have important implications for local geographies. This second edition of Tourism Geography develops a critical understanding of how different geographies of tourism are created and maintained. Drawing on both historical and contemporary perspectives, the discussion - which is in three main parts - connects tourism to key geographical concepts relating to globalization, mobility, new geographies of production and consumption, and post-industrial change. Part one examines how spatial patterns of tourism are formed and evolve through time. Part two offers an extended discussion of how tourism relates to places that are toured, examining physical and economic development, socio-cultural and environmental relations and the role of tourism planning. Part three develops a range of new material for this second edition that considers important contemporary influences upon tourism geographies, including place promotion, new forms of urban tourism, heritage, identity and embodied forms of tourism. Featuring international case studies and supported by up-to-date statistics, the text offers a concise yet comprehensive review of tourism geography and how geographers can interpret this important contemporary process. Written primarily as a student text, each chapter includes guidance for further study and summary bibliographies that form the basis for independent work.
