integra business solutions: Multinational Management Rien Segers, 2016-01-29 This casebook demonstrates that the future of global business lies in how well the multinational landscape is charted and how the importance of Asian market leaders is deeply embedded in it. It offers international management students and researchers an extensive guide to the business history, strategy development, and foreign market entry modes used by emerging Asian multinationals. The cases focus on well-known companies such as Lenovo, Alibaba, Infosys, Huawei, Panasonic, and Rakuten. These companies, all of which generate huge revenues in their own countries (e.g. in China, India, South Korea, Taiwan, Vietnam), are now becoming increasingly sophisticated and striving to become global brands, while also enjoying the active support of their governments in terms of their international business. Readers will learn about the current multinational landscape in Asia, the management challenges, and the future implications for traditional western companies seeking to retain their market share. Chapters on corporate entrepreneurship, human resource management and intercultural competence, and current branding trends in Asia will provide a cutting-edge update on international business strategy for students and practitioners alike.

integra business solutions: FORCEnet Implementation Strategy National Research Council, Division on Engineering and Physical Sciences, Naval Studies Board, Committee on the FORCEnet Implementation Strategy, 2006-01-14 FORCEnet is currently defined as the operational construct and architectural framework for naval warfare in the information age that integrates warriors, sensors, networks, command and control, platforms, and weapons into a networked, distributed, combat force that is scalable across all levels of conflict from seabed to space and sea to land. Although this definition views FORCEnet as the operational construct and the architectural framework for the entire transformed Navy, some have viewed FORCEnet merely as an information network and the associated FORCEnet architecture merely as an information systems architecture. FORCEnet Implementation Strategy provides advice regarding both the adequacy of this definition and the actions required to implement FORCEnet.
