Overview of King Hussein Business Park

King Hussein Business Park is an initiative established by the Jordanian government to create a conducive environment for businesses and entrepreneurs. Located in the heart of the country, it serves as a hub for various industries, including technology, manufacturing, and logistics. The park is designed to attract both local and foreign investments, providing a competitive edge through its strategic location and modern facilities. It aims to enhance Jordan's position as a regional business center and promote sustainable economic development.

History and Development

The conception of King Hussein Business Park dates back to the early 2000s, as part of Jordan's broader strategy to diversify its economy and reduce reliance on traditional sectors. Over the years, the park has evolved, attracting numerous companies and fostering a culture of innovation. This continuous development is supported by governmental policies that encourage entrepreneurship and

investment.

Key Features and Facilities

King Hussein Business Park boasts a range of features that make it attractive to businesses. The facilities offered are designed to accommodate various operational needs, providing flexibility and functionality for different industries.

Infrastructure

The infrastructure within the park is state-of-the-art, featuring:

- High-speed internet connectivity
- Modern office spaces and business incubators
- Logistical support services
- Meeting and conference facilities
- Access to transportation networks

This robust infrastructure ensures that businesses can operate efficiently while benefiting from the latest technologies.

Support Services

The park also provides a range of support services aimed at aiding businesses in their operations:

- Business advisory services
- Legal and financial consulting
- Human resources management support
- Marketing and public relations assistance

These services are crucial for startups and established companies alike, facilitating smoother operations and growth.

Economic Impact

King Hussein Business Park plays a significant role in the economic landscape of Jordan. By attracting investments and fostering innovation, the park contributes to job creation and economic diversification.

Job Creation

The establishment of businesses within the park has led to the creation of numerous job opportunities for Jordanians. This influx of employment helps reduce unemployment rates and enhances the overall economic stability of the region.

Attracting Foreign Investment

One of the primary objectives of King Hussein Business Park is to attract foreign direct investment (FDI). The park's modern facilities and supportive ecosystem make it an appealing destination for international businesses looking to establish a presence in the Middle East. This influx of foreign capital brings in additional resources and expertise that can benefit the local economy.

Opportunities for Businesses

Businesses operating in King Hussein Business Park can take advantage of various opportunities that can lead to growth and success. The park caters to a wide range of industries, allowing for diverse business models.

Technology and Innovation

The park is particularly well-suited for technology companies and startups. With dedicated spaces for research and development, businesses in this sector can thrive by leveraging the collaborative environment that the park fosters. Additionally, the presence of tech incubators and accelerators provides essential support for emerging companies.

Manufacturing and Logistics

For manufacturing companies, King Hussein Business Park offers an excellent location with access to essential logistical services. The park's infrastructure is designed to facilitate production and distribution, making it an ideal choice for businesses involved in manufacturing and supply chain operations.

Future Developments

As King Hussein Business Park continues to grow, plans for future developments are underway. These developments aim to enhance the park's facilities and expand its capabilities to meet the evolving needs of businesses.

Expansion Plans

Future expansion plans include the development of additional office spaces, more specialized facilities for different industries, and enhanced transportation links. These initiatives are intended to accommodate a growing number of businesses and support Jordan's economic objectives.

Investment in Sustainability

In line with global trends, King Hussein Business Park is also focusing on sustainability. Future developments will incorporate green building practices and energy-efficient technologies, ensuring that the park contributes positively to Jordan's environmental goals.

Conclusion

King Hussein Business Park represents a significant step forward in Jordan's economic development strategy. With its modern infrastructure, supportive ecosystem, and focus on attracting diverse industries, the park is poised to become a central hub for business and innovation in the region. As the park continues to evolve, it will play a crucial role in shaping Jordan's economic future, creating jobs, and attracting investments. This initiative not only enhances the business landscape but also fosters a culture of innovation and entrepreneurship that is essential for sustainable growth.

Q: What is King Hussein Business Park?

A: King Hussein Business Park is a major economic development initiative in Jordan, designed to provide a supportive environment for businesses and entrepreneurs with state-of-the-art infrastructure and facilities.

Q: Where is King Hussein Business Park located?

A: The business park is strategically located near the capital city of Amman, making it easily accessible to local and international businesses.

Q: What types of businesses can thrive in King Hussein Business Park?

A: The park supports various industries, including technology, manufacturing, logistics, and services, making it a versatile location for diverse business models.

Q: How does King Hussein Business Park contribute to the economy of Jordan?

A: The park contributes to economic growth by attracting foreign investments, creating job opportunities, and fostering innovation, thereby reducing unemployment and enhancing stability.

Q: What facilities are available at King Hussein Business Park?

A: The park offers modern office spaces, business incubators, conference facilities, high-speed internet, and various logistical support services to accommodate businesses' needs.

Q: Are there support services provided for startups?

A: Yes, King Hussein Business Park provides a range of support services, including business advisory, legal consulting, HR management, and marketing assistance to help startups thrive.

Q: What future developments are planned for King Hussein Business Park?

A: Future developments include expansion plans for additional office spaces, enhanced transportation links, and a focus on sustainability through green building practices.

Q: How can foreign businesses benefit from King Hussein Business Park?

A: Foreign businesses can benefit from a supportive ecosystem, modern facilities, and strategic location, making it an appealing destination for establishing a regional presence.

Q: What is the significance of sustainability in King Hussein Business Park?

A: Sustainability is a key focus for future developments in the park, aiming to incorporate energy-efficient technologies and green building practices to support Jordan's environmental goals.

Q: How does King Hussein Business Park promote innovation?

A: By providing dedicated spaces for research and development, as well as supporting tech incubators and accelerators, the park fosters a collaborative environment that encourages innovation.

king hussein business park jordan: *Higher Education in the Arab World* Adnan Badran, Elias Baydoun, John R. Hillman, 2020-06-10 This book is the first major account of innovation and entrepreneurship in the Arab higher-education sector. It provides an update of the current situation and advances reasons for the under-performance of Arab universities in international ranking tables and the weaknesses of Arab economies. Specific proposals are made for upgrading curricula and assessment procedures as well as providing an environment that fosters innovation and entrepreneurial behaviour. The roles of university-based technology and business parks are examined, with examples of successful business partnerships in the Arab region, Europe, and North America. Opportunities for innovation and entrepreneurship have never been greater with the wealth of rapidly developing transformative technologies that are driving the international knowledge economy. This book puts forward proposals for the management and exploitation of intellectual property, and for establishing businesses.

king hussein business park jordan: The Report: Jordan 2010 , 2010

king hussein business park jordan: Contemporary Business Research in the Islamic World John Fraedrich, Marina Pirtskalava, Tornike Khoshtaria, Hasan Terzi, Mehmet Bayirli, Baker Al Serhan, 2024-09-22 This proceedings volume presents a cutting-edge exploration of Islamic marketing, delving into the details of Muslim consumer behavior and Halal business practices, while offering invaluable strategies for navigating the dynamic world of commerce in Islam-oriented regions. Featuring selected chapters from the 14th Global Islamic Marketing Conference, it provides a comprehensive overview of research and insights into Islamic business practices, focusing on innovative marketing strategies. Readers can expect to find detailed analyses and practical guidance on topics such as the impact of neurotransmitters on Islamic research, the influence of religiosity on Muslim consumers' adoption of cryptocurrency, and how perceived price, quality, and trust affect purchase intentions for Halal products. The volume also explores whether Halal hotels in Malaysia align with green practices, factors driving customer behavior in online banking, and the digitalization of Halal food supply chains through blockchain. Further chapters investigate customer loyalty in Islamic traditional markets, the factors influencing brand love in Moroccan football, and the impact of sustainability and corporate governance in Bangladeshi microfinance institutions. Discussions include the economic implications of incomes of married women in Islamic contexts and models for the key drivers of Islamic insurance. Readers will also find comparative studies on challenges in online sales contracts within Islamic and Jordanian legal frameworks, and insights into the role of e-trust in the success of virtual organizations through knowledge sharing. The volume addresses contemporary issues such as consumer empowerment and privacy, the challenges and

opportunities for Islamic microfinance during COVID-19, and self-regulating social media behaviors among Muslim consumers. It also explores the integration of AI-driven chatbots in Halal marketing communication and the concept of faith-centric consumerism, offering a research agenda for Halal brand attitudes. This proceedings volume is an invaluable resource for academics and researchers seeking to deepen their understanding of these specialized topics and for business consultants looking for effective strategies to engage with markets in Islam-oriented regions. It provides both a theoretical framework and practical insights, making it a vital reference for anyone interested in the rapidly evolving fields of Islamic business, marketing, and economics.

king hussein business park jordan: A New Arab Social Contract? Maximilian Benner, 2019-05-27 This monograph offers a unique conceptual bridge between economic geography and Middle Eastern political economy. Arab economies are confronted with enormous structural difficulties such as high rates of youth unemployment in a challenging demographic context, exacerbated by intense spatial disparities. These structural problems demonstrate the breakdown of the Arab social contract, a social arrangement centered on a strong role of the state in welfare and employment provision, for which regimes demanded acquiescence to authoritarian rule. The book argues that the Arab social contract can be understood in terms of regulation theories known in economic geography and sociology. It uses the approaches such as the regulation school, national systems of innovation, social systems of production, and varieties of capitalism to analyze the structural difficulties of Arab economies and current reform efforts. The basic assumption is that Arab economies are currently faced with a structural crisis. After the breakdown of the Arab social contract, there is a mismatch between the economic and institutional spheres of society. The challenge is for Arab societies to develop new forms of socio-institutional regulation. The book proposes ways towards such new modes of regulation by developing a framework for regulation specifically targeted towards Arab societies, and by applying it to the cases of Tunisia and Jordan.

king hussein business park jordan: The Report: Jordan 2014 Oxford Business Group, 2014-10-30 A number of Jordan's key economic indicators have improved over the last year and GDP is forecast to grow by 3.5% in 2014. Jordan's reliance on energy imports is being addressed with increased focus on domestic oil shale reserves and nuclear energy, while plans to build a pipeline through the country from Iraq will provide a stable oil supply at discounted rates. Jordan's expanding population has put pressure on state services, particularly health, where the private sector is expected to play an increasingly prominent role. Tourism revenues rose in 2014 and, with the unveiling of a new arrivals terminal at Aqaba International Airport and plans for a national rail network, these are expected to rise further in the coming years. All in all, continued political stability, large scale transportation developments, the availability of a young, educated workforce and government efforts to reduce the fiscal deficit and the country's reliance on energy imports should ensure Jordan maintains its strong position in the region.

king hussein business park jordan: The Effect of Information Technology on Business and Marketing Intelligence Systems Muhammad Alshurideh, Barween Hikmat Al Kurdi, Ra'ed Masa'deh, Haitham M. Alzoubi, Said Salloum, 2023-03-12 Business shapes have been changed these days. Change is the main dominant fact that change the way of business operations running. Topics such as innovation, entrepreneurship, leadership, blockchain, mobile business, social media, e-learning, machine learning, and artificial intelligence become essential to be considered by each institution within the technology era. This book tries to give additional views on how technologies influence business and marketing operations for insuring successful institutions survival. The world needs to develop management and intelligent business scenario plans that suite a variety of crisis appears these days. Also, business and marketing intelligence should meet government priorities in individual countries and minimise the risk of business disruptions. Business intelligence - the strategies and technology companies that use it to collect, interpret, and benefit from data - play a key role in informing company strategies, functions, and efficiency. However, being essential to the success, many companies are not taking advantage of tools that can improve their business intelligence efforts. Information technology become a core stone in business. For example, the

combination of machine learning and business intelligence can have a far-reaching impact on the insights the company gets from its available data to improve productivity, quality, customer service and more. This book is important because it introduces a large number of chapters that discussed the implications of different Information technology applications in business. This book contains a set of volumes which are: 1- Social Marketing and Social Media Applications, 2- Social Marketing and Social Media Applications, 3- Business and Data Analytics, 4- Corporate governance and performance, 5- Innovation, Entrepreneurship and leadership, 6- Knowledge management, 7- Machine learning, IOT, BIG DATA, Block Chain and AI, 8- Marketing Mix, Services and Branding.

king hussein business park jordan: *City Maps Wadi as Sir Jordan* James mcFee, City Maps Wadi as Sir Jordan is an easy to use small pocket book filled with all you need for your stay in the big city. This collection of maps is up to date with the latest developments of the city as of 2017. We hope you let this map be part of yet another fun Wadi as Sir adventure :)

king hussein business park jordan: *Voices of Jordan* Rana Sweis, 2019-01-01 Jordan's diverse socioeconomic make-up encapsulates, like no other Middle Eastern state, both the array of pressing short-term problems facing the region, and the underlying challenges that Arab states will need to face once the current spate of civil conflicts is over: meaningful youth employment, female participation in politics, and integration of refugees into society. This book tells the story of Jordan through the lives of ordinary people, including a political cartoonist, a Syrian refugee, a Jihadist and a female parliamentarian. The raw voices and everyday struggles of these people shine a fresh light on the politics, religion, and society of a culture coming to terms with the harsh reality of modernization and urbanization at a time of regional upheaval. With her deep knowledge of Jordan's landscape, language and culture, Rana Sweis sketches an intimate portrait of the intricacies and complexities of life in the Middle East. Rather than focusing on how individuals are affected by events in the region, she reveals a cast of characters shaping their own lives and times. Voices of Jordan shares those stories in all of their rich detail, offering a living, breathing social and political history.

king hussein business park jordan: **The Economic Reconciliation Process: Middle Eastern Populations in Conflict** Ilan Bijaoui, 2014-06-06 The Economic Reconciliation Process develops hybrid cross-border models based on the free economic zone, the industrial district, and the cluster to generate a common economic interest between countries and populations in declared or potential conflict in the Middle East.

king hussein business park jordan: **The Report: Jordan 2009** ,

king hussein business park jordan: **Mapping affordable and transferrable climate-smart technologies for smallholder farmers** FAO; IFAD; IsDB., 2024-10-31 In response to the pressing need for innovative solutions to address food security challenges, a Tripartite Cooperation Agreement between FAO Regional Office for the Near East and North Africa region, the International Fund for Agricultural Development (IFAD), and the Islamic Development Bank (IsDB) initiated a comprehensive "Mapping exercise of affordable and transferrable food security-related technologies". This mapping targets 10 countries where smallholder farmers face different challenges, including Bangladesh, Brazil, Egypt, Jordan, Palestine, Morocco, Nigeria, Tajikistan, Tunisia, and Turkey. The mapping effort focuses on six technology thematic areas critical to improving food security: 1) postharvest, reducing food loss and waste; 2) water management and water saving technologies in face of climate change; 3) sustainable pest control and crop management; 4) e-commerce and market access, 5) fintech; and 6) green energy for farmers agribusiness operations. A screening criteria and three-level technology assessment methodology was developed focusing on affordable, reliable and easy-to-use green and environmentally friendly technologies that have potential to be leveraged and mainstreamed throughout the crop value chain for improving food security among smallholder farmers in selected countries.

king hussein business park jordan: Equity, Diversity, and Inclusion in Software

Engineering Daniela Damian, Kelly Blincoe, Denae Ford, Alexander Serebrenik, Zainab Masood, 2024-09-20 Creating an inclusive environment where different software developers can feel welcome and leverage their talents is an ethical imperative no company can ignore. Indeed, software organizations have in the last decade been trying to make changes for a more diverse and inclusive software development environment. The push for increased diversity in software has been a public one, from annual diversity reports by some of the worlds' most visible companies such as Microsoft, Google, and Facebook, to large projects such as Linux Foundation's Software Developer Diversity and Inclusion project that explores, evaluates, and promotes best practices from research and industry to increase diversity and inclusion in software engineering. Despite these many efforts, diversity remains low. Numbers from the software industry show that less than 25% of software engineers are women. Diversity is also low in regards to many other facets of diversity. This book provides an overview of research into the different aspects of diversity and inclusion in software engineering, as well as the tools, methods, and practices proposed to foster diversity and to build inclusive software teams and development environments. It describes research challenges in studying diversity and inclusion in software. Readers will be challenged to consider how they are contributing to a lack of inclusion and what they can do to improve inclusion in the software industry. What You Will Learn Aspects of diversity (e.g., age, culture, gender, race) and relationship to software engineering activities and outcomes How to measure diversity Investigations of intersectionality in software engineering Research methods for the study of diversity and inclusion in software engineering Empirical studies of effective practices to foster diversity and inclusion in software engineering Interventions and programs that have been used to successfully support retention in software engineering Software engineering education for diverse and inclusive software engineering, and proven teaching methods/environments that support diverse and inclusive software engineering Who This Book Is For For Researchers, the book presents a state-of-the-art collection of existing studies into many aspects of diversity, methods, and tools proposed and tried out in practice, challenges in research, and contributing to a research agenda on this topic for future studies. For Industry practitioners, the book describes efforts to investigate diversity in software teams, whether in corporate or open source environments. It also describes empirical evidence about effectiveness of certain methods and approaches to foster diversity and inclusion in software development. For Educators, the book describes practices and effective changes in Computer Science/Software Engineering curricula that were found as effective in engaging learners from minoritized groups, creating inclusive software teams that are diverse, and which relate to educational material useful for training for diversity, equity, and inclusion.

king hussein business park jordan: Routledge Handbook on Arab Media Nouredine Miladi, Noha Mellor, 2020-11-29 This handbook provides the first comprehensive reference book in English about the development of mass and social media in all Arab countries. Capturing the historical as well as current developments in the media scene, this collection maps the role of media in social and political movements. Contributors include specialists in the field from North America, Europe, and the Middle East. Each chapter provides an overview of the history, regulatory frameworks and laws governing the press, and socio-political functions of the media. While the geopolitical complexities of the region have been reflected in the expert analyses collectively, the focus is always the local context of each member state. All 38 chapters consider the specific historical, political, and media trajectories in each country, to provide a contextual background and foundation for further study about single states or comparative analysis in two or more Arab states. Capturing significant technological developments and the widespread use of social media, this all-inclusive volume on Arab media is a key resource for students and scholars interested in journalism, media, and Middle East studies.

king hussein business park jordan: On Our Own Terms Fernanda Moura e Taciana Mello, 2019-01-22 The book *On Our Own Terms - Stories of Women Entrepreneurs around the World* brings together stories from 24 countries. The book is the result of *The Girls on the Road* project spanning

99,534,000 kilometers, and more than 300 interviews on 5 continents with women entrepreneurs and experts. Women still face more obstacles to become entrepreneurs no matter the country, culture or environment. Over the course of 15 months, the duo also navigated the sociocultural aspects of the countries visited and had an experience that went beyond the interviews. We had the opportunity to get to know a little of the role and perception of women through them. It was an excellent exercise to break our own paradigms and prejudices, said the authors.

king hussein business park jordan: Innovation of Businesses, and Digitalization during Covid-19 Pandemic Bahaaeddin Alareeni, Allam Hamdan, 2022-07-07 This book constitutes the refereed proceedings of the International Conference on Business and Technology (ICBT2021) organized by EuroMid Academy of Business & Technology (EMABT), held in Istanbul, between 06-07 November 2021. In response to the call for papers for ICBT2021, 485 papers were submitted for presentation and inclusion in the proceedings of the conference. After a careful blind refereeing process, 292 papers were selected for inclusion in the conference proceedings from forty countries. Each of these chapters was evaluated through an editorial board, and each chapter was passed through a double-blind peer-review process. The book highlights a range of topics in the fields of technology, entrepreneurship, business administration, accounting, and economics that can contribute to business development in countries, such as learning machines, artificial intelligence, big data, deep learning, game-based learning, management information system, accounting information system, knowledge management, entrepreneurship, and social enterprise, corporate social responsibility and sustainability, business policy and strategic management, international management and organizations, organizational behavior and HRM, operations management and logistics research, controversial issues in management and organizations, turnaround, corporate entrepreneurship, innovation, legal issues, business ethics, and firm gerial accounting and firm financial affairs, non-traditional research, and creative methodologies. These proceedings are reflecting quality research contributing theoretical and practical implications, for those who are wise to apply the technology within any business sector. It is our hope that the contribution of this book proceedings will be of the academic level which even decision-makers in the various economic and executive-level will get to appreciate.

king hussein business park jordan: The Report: Jordan 2013 , 2013

king hussein business park jordan: The I.B. Tauris Handbook of Sociology and the Middle East Fatma Müge Göçek, Gamze Evcimen, 2022-11-17 What we understand by the 'Middle East' has changed over time and across space. While scholars agree that the geographical 'core' of the Middle East is the Arabian Peninsula, the boundaries are less clear. How far back in time should we go to define the Middle East? How far south and east should we move on the African continent? And how do we deal with the minority religions in the region, and those who migrate to the West? Across this handbook's 52 chapters, the leading sociologists writing on the Middle East share their standpoint on these questions. Taking the featured scholars as constitutive of the field, the handbook reshapes studies on the region by piecing together our knowledge on the Middle East from their path-defining contributions. The volume is divided into four parts covering sociologists' perspectives on: · Social transformations and social conflict; from Israel-Palestine and the Iranian Revolution, to the Arab Uprisings and the Syrian War · The region's economic, religious and political activities; including the impact of the spread of Western modernity; the effects of neo-liberalism; and how Islam shapes the region's life and politics · People's everyday practices as they have shaped our understanding of culture, consumption, gender and sexuality · The diasporas from the Middle East in Europe and North America, which put the Middle East in dialogue with other regions of the world. The global approach and wide-ranging topics represent how sociologists enable us to redefine the boundaries and identities of the Middle East today.

king hussein business park jordan: From Machine Learning to Artificial Intelligence Abdalmuttaleb M. A. Musleh Al-Sartawi, Manaf Al-Okaily, Anas Ali Al-Qudah, Fadi Shihadeh, 2025-02-01 The world is on a cusp of something great. Technology has advanced from solving simple issues to complex issues in both human life and other aspects such as social, economic, and

environmental issues. The significance of machine intelligence as a tool to propel human as well as economic development is an important and hot topic today. This book is about how modern machine intelligence, AI, and machine learning applications can be used by governments and firms for financial and economic inclusion, as well as for providing solutions to bridge the digital divide. It aims to cover philosophical discussions, frameworks, and applications on central topics in machine intelligence, deep learning, mesh networks, frugal engineering, frugal innovation, blockchain technology, alternate networks, and intelligent digital financial inclusion system architectures. This book also aims to discuss the initiatives, policies, strategies, and governance issues related to furnishing technologies for technology access, financial inclusion and in turn economic growth. Financial inclusion is defined as the proportion of people and corporations that use financial services. It further describes the fair, equal, and attainable access to financial services (Rawat et al., 2023). Financial inclusion is key to economic inclusion and economic growth as it enables the poor to improve their lives. Chapters in the book will improve our understanding of the advances and challenges of applying machine intelligence for financial inclusion and economic growth in different contexts including financial markets, governments, and corporations in both developing and developed countries. Access to financial services is essential to development efforts of markets, economies and eventually societies. Hence, in this context, financial inclusion can be explained as the process of ensuring that individuals particular impoverished people have access to essential financial services in the formal financial sector. Financial inclusion, recently, has been receiving traction from scholars and policymakers whereby it is one of the major strategies used by economies and societies in achieving UN's sustainable development goals. Rawat et al. (2023) argues that it is vital to increase the use of "low-cost digital methods" for the economically marginalized and under-served people and sectors. There is a need for financial inclusion for the rapidly dynamic Industry 4.0. Therefore, linking technology, more particularly machine intelligence with financial inclusion and technology access is quite crucial given the current technological environment. Additionally, financial inclusion helps in enhancing the level of economic and social inclusion in many societies and developing countries as well as help in reducing poverty levels. Policy makers in several countries continue to commit significant resources and technologies to increase the level of financial inclusion in their countries to reduce financial exclusion. In developing countries, financial inclusion remains below potential in part due to the digital divide, limited technology access and the challenge for financial institutions in developing products for the low-income mass market (Hook IV, 2019; Marimuthu et al., 2022). These matters are important topics to be researched and discussed, especially with the advancement of technology such as artificial intelligence, machine learning, blockchain, business intelligence, online education, in the current post-pandemic environment which catalysed these digital transformations. Therefore, this book has been proposed to discuss a very important and emerging topics which contributes significantly to policy and the SDGs in the digital economy.
