Trienens, 2000 Against a background of controversy over the possibility that works of art owned by American collectors may have originally been stolen by the Nazis from Jews later killed in the holocaust, the story of one work of art *Landscape with Smokestacks* by Degas captured the headlines. As told by the media, the story is straightforward. The landscape, owned by Jewish banker in the Netherlands, was sent to Paris in 1939. The Nazis occupied France and stole the Landscape. The Jewish banker and his wife were killed in the Holocaust. Their heirs searched for the landscape but did not locate it until, half a century later, it was found in the possession of an art collector in Chicago. The heirs sued to recover the work.

lili business bank: Living across connectivity Beatrice Zani, Isabelle Cockel, 2024-06-04 This volume fills a major gap in publications on migration and digital media worlds by bringing information and communication technology (ICT) to the fore of our understanding of migrants’ experiences in, and practices of, connectivity and mobility. During recent decades, migration within and from East Asia has become paradigmatic of the changing substance and patterns of global mobility. Focusing on migration within and beyond East Asia, a region defined by its global migration and its leading role in ICT use and development, this volume explores the pervasive use of smartphones as an everyday reality for East Asian migrants, advocating the necessity of understanding how they live their lives both online and offline. In this respect, the originality of this volume lies in its interdisciplinary analysis of migrants’ activities at the crossroads between physical and digital spaces. Our theoretical innovation and empirical findings will open an avenue to investigate the novel shape and scales of contemporary connectivity and mobility.

lili business bank: The Queen's Sacrifice LeBron Sims, 2025-01-05 This book chronicles the lives of a Jewish family, the Kovacs, living on a small farm southwest of Budapest during the 1880’s. Their lives were profoundly impacted by the extraordinary circumstances that occurred during the first half of the twentieth century.... The catastrophe of World War One, the horrors wrought by the Spanish flu, and the atrocities of World War Two took the lives of untold millions. The lives of those who were fortunate to survive were forever changed. One hundred years ago, what was intended to be a small regional conflict between the belligerent nations of Serbia and the Austro-Hungarian Empire, quickly evolved into one of the most decisive, but least understood events of the twentieth century. The so called “Great War” or “the war to end all wars” became a war of endless slaughter where twenty million people forfeited their lives for little or no gain. The war forever altered the physical landscape of Europe and created the collapse of empires that had existed for centuries. It also brought forth the worst global pandemic the world had seen since the bubonic plague of the

fourteenth century, killing millions more. World War One, The Treaty of Versailles, The Treaty of Trianon, and the Great Depression provided fertile ground for the social, economic, and political unrest leading Europe and ultimately the United States into World War Two. We still hear the echoes of that dark and dangerous period today, and how our sense of humanity remains in question.
