Overview of Lending Club

Lending Club is a peer-to-peer lending platform that connects borrowers with individual and institutional investors. Founded in 2007, it has grown to become one of the largest online lending marketplaces in the United States. Lending Club offers a variety of loan products, including personal loans, auto loans, and business loans, catering to the diverse needs of borrowers.

The company's mission is to provide an efficient and transparent way for borrowers to access funds while offering investors the opportunity to earn returns on their investments. Lending Club has facilitated billions of dollars in loans, making it a trusted name in the lending industry.

Types of Business Loans Offered

Lending Club provides several types of business loans designed to meet the varying financial needs of small businesses. The primary loan options include:

Term Loans

Term loans are a popular choice for small businesses looking for a lump sum of money to fund specific projects or expenses. These loans typically have fixed interest rates and set repayment schedules.

Business Lines of Credit

A business line of credit offers more flexibility than a traditional loan. Borrowers can draw funds as needed up to a predetermined limit and only pay interest on the amount borrowed.

Working Capital Loans

Working capital loans are designed to help businesses manage day-to-day operations, covering expenses such as payroll, inventory, and other operational costs.

Application Process

The application process for a Lending Club business loan is streamlined and user-friendly, allowing borrowers to complete their applications online. Here is a step-by-step overview of the process:

1. **Pre-Qualification:** Interested borrowers can start by filling out a pre-qualification form to assess their eligibility without impacting their credit score.
2. **Application Submission:** Once pre-qualified, borrowers can complete a full application, providing detailed information about their business and financial history.
3. **Review and Approval:** Lending Club reviews the application and conducts a credit check. If approved, borrowers will receive a loan offer detailing the amount, interest rate, and terms.

4. Fund Disbursement: Upon acceptance of the loan offer, funds are disbursed, typically within a few business days.

Eligibility Requirements

To qualify for a business loan from Lending Club, borrowers must meet certain eligibility criteria. Understanding these requirements can help streamline the application process. The key eligibility factors include:

- **Business Age:** The business should be operational for at least 12 months.
- **Annual Revenue:** Most borrowers need to demonstrate a minimum annual revenue, often around \$50,000.
- **Credit Score:** A personal credit score of 600 or higher is generally required.
- **Business Type:** Lending Club offers loans to various types of businesses, including sole proprietorships, partnerships, and corporations.

Interest Rates and Fees

The interest rates for Lending Club business loans vary based on several factors, including the borrower's creditworthiness and the loan amount. Typically, interest rates range from 10% to 30%. Additionally, borrowers should be aware of the following fees:

Origination Fees

Lending Club charges an origination fee, which is a one-time fee deducted from the loan amount. This fee generally ranges from 1% to 6% of the loan amount.

Late Payment Fees

If a borrower fails to make a payment on time, a late fee may be assessed, typically around 5% of the missed payment amount.

Repayment Terms

Repayment terms for Lending Club business loans vary depending on the loan type. Generally, borrowers can expect the following:

- **Loan Amounts:** Business loans range from \$5,000 to \$500,000.
- **Repayment Period:** Loan terms can range from 1 to 5 years.
- **Payment Frequency:** Payments are usually made monthly.

Customer Reviews and Experiences

Customer feedback plays a crucial role in assessing the reliability and effectiveness of Lending Club's business loans. Many borrowers appreciate the quick and straightforward application process, as well as the transparency regarding fees and terms. However, some customers have expressed concerns about high-interest rates and late payment penalties.

Positive Feedback

- Many borrowers have praised the fast funding times, often receiving funds within a few days.
- Customers have highlighted the ease of the online application process.

Negative Feedback

- Some borrowers have reported dissatisfaction with customer service responsiveness.
- High-interest rates were a common complaint, especially for those with lower credit scores.

Pros and Cons of Lending Club Business Loans

Evaluating the pros and cons of Lending Club's business loan offerings can help potential borrowers make an informed choice.

Pros

- Quick application process and fast funding.
- Flexible loan options, including lines of credit.
- Transparent fee structure.

Cons

- High-interest rates for lower credit scores.
- Potential for high origination fees.
- Customer service may not be as responsive as desired.

Alternatives to Lending Club

For businesses that may not find Lending Club suitable, several alternatives exist in the market. These include:

- OnDeck: Offers short-term loans with fast funding for established businesses.
- BlueVine: Specializes in lines of credit and invoice factoring.
- Kiva: Provides interest-free loans for small businesses through crowdfunding.

Overall, Lending Club presents a viable option for small businesses seeking funding, with a streamlined application process and a variety of loan types. However, potential borrowers should carefully consider the interest rates and fees associated with the loans.

lending club business loan review: Getting a Business Loan Ty Kiisel, 2013-11-27 Every day, Main Street businesses wrestle with the challenge of finding the cash to finance growth or use as working capital. The local banker often wants a credit score of 720, three or more years in business, and a fat savings account. No wonder local bankers approve only 10% of loan applications. Getting a Business Loan: Financing Your Main Street Business shares something your local banker might not want you to know—small business owners have options. And this book describes those alternative lending sources in detail, as well as traditional sources of funding like banks and credit unions. Half of all business startups don't make past their fifth birthday—and often because they can't find the financing required to sustain their operations. Whether you own a small restaurant, a bicycle shop, a hardware store, a small manufacturing company, or a service business, Getting a Business Loan offers easy-to-understand descriptions of loan options that can keep you going, as well as practical advice on where to look for money and how to apply. What would you do with an extra \$40,000? Expand your restaurant? Hire a new employee to fulfill a new contract? Buy a needed piece of equipment? Getting a Business Loan will: Detail how bankers look at you and your loan application

Explain the menu of non-bank financing options available to business owners, like asset-based lending, factoring, merchant cash advance, local “hard money,” and more Show how to locate potential lenders via the Internet and other means Show how to prepare before you visit the lender or fill out an application Main Street businesses aren’t limited by the local bank’s footprint any more. There are people and institutions all across the country that lend money to small business owners. If you want to find the money you need to strengthen and expand your business, Getting aBusiness Loan will show you how.

lending club business loan review: Law and Practice of Crowdfunding and Peer-to-Peer Lending in Australia, China and Japan Pelma Rajapakse, Yinxu Huang, Hatsuru Morita, 2022-08-03 The revolution in financial technology (FinTech) has created many advancements in the lending and investment space across the world. Law and Practice of Crowdfunding and Peer-to-Peer Lending in Australia, China, and Japan is a timely publication as FinTech grows up and moved into the mainstream of finance in the last decade. Financial services is a highly regulated industry as it is the lifeblood of a modern economy. Pelma Rajapakse, Hatsuru Morita, and Yinxu Huang have done very solid work blazing a new trail in what is a new industry and how to regulate it properly instead of stifling innovation. They have carried out a deep exploration and a thorough compilation of research that will bring everyone up to date on what Australia, China, and Japan are planning and doing in the field of crowdfunding and peer-to-peer lending. In addition to peer-to-peer lending, the book focuses on laws and practices related to Central Bank digital currencies, cryptocurrency, Bitcoin, and Initial Coin Offerings (ICOs) which is very meaningful and forward-looking. The authors presented their thoughts in such clarity that, even those who lack familiarity with Asia-Pacific, will see how FinTech was growing in various ways driven by different factors. For example, peer-to-peer lending in Japan is mostly for small and medium enterprises. It was popular in China but cracked down by the authorities for a few years. It provides an alternative fundraising channel for the capital market in Australia. We also see a set of regulatory approaches among jurisdictions. Some countries draft new regulations, while others amend existing laws. The mechanism of the regulatory sandbox was introduced. As we know, one size does not fit all. What kind of best practices or lessons learned can we apply to our own jurisdiction? This book covers all available answers to date. This volume speaks highly of the quality and foresight of Pelma Rajapakse and her co-authors.

lending club business loan review: Banker's Guide to New Small Business Finance, + Website Charles H. Green, 2014-08-18 Detailed, actionable guidance for expanding your revenue in the face of a new virtual market Written by industry authority Charles H. Green, Banker's Guide to New Small Business Finance explains how a financial bust from one perfect storm—the real estate bubble and the liquidity collapse in capital markets—is leading to a boom in the market for innovative lenders that advance funds to small business owners for growth. In the book, Green skillfully reveals how the early lending pioneers capitalized on this emerging market, along with advancements in technology, to reshape small company funding. Through a discussion of the developing field of crowdfunding and the cottage industry that is quickly rising around the ability to sell business equity via the Internet, Banker's Guide to New Small Business Finance covers how small businesses are funded; capital market disruptions; the paradigm shift created by Google, Amazon, and Facebook; private equity in search of ROI; lenders, funders, and places to find money; digital lenders; non-traditional funding; digital capital brokers; and much more. Covers distinctive ideas that are challenging bank domination of the small lending marketplace Provides insight into how each lender works, as well as their application grid, pricing model, and management outlook Offers suggestions on how to engage or compete with each entity, as well as contact information to call them directly Includes a companion website with online tools and supplemental materials to enhance key concepts discussed in the book If you're a small business financing professional, Banker's Guide to New Small Business Finance gives you authoritative advice on everything you need to adapt and thrive in this rapidly growing business environment.

lending club business loan review: THE FINTECH HANDBOOK Ashish Srivastava, Sanjeev Jain, Vajha Viharika, 2024-10-11

lending club business loan review: *Fintech, Small Business & the American Dream* Karen G. Mills, 2019-03-12 Small businesses are the backbone of the U.S. economy. They are the biggest job creators and offer a path to the American Dream. But for many, it is difficult to get the capital they need to operate and succeed. In the Great Recession, access to capital for small businesses froze, and in the aftermath, many community banks shuttered their doors and other lenders that had weathered the storm turned to more profitable avenues. For years after the financial crisis, the outlook for many small businesses was bleak. But then a new dawn of financial technology, or "fintech," emerged. Beginning in 2010, new fintech entrepreneurs recognized the gaps in the small business lending market and revolutionized the customer experience for small business owners. Instead of Xeroxing a pile of paperwork and waiting weeks for an answer, small businesses filled out applications online and heard back within hours, sometimes even minutes. Banks scrambled to catch up. Technology companies like Amazon, PayPal, and Square entered the market, and new possibilities for even more transformative products and services began to appear. In *Fintech, Small Business & the American Dream*, former U.S. Small Business Administrator and Senior Fellow at Harvard Business School, Karen G. Mills, focuses on the needs of small businesses for capital and how technology will transform the small business lending market. This is a market that has been plagued by frictions: it is hard for a lender to figure out which small businesses are creditworthy, and borrowers often don't know how much money or what kind of loan they need. New streams of data have the power to illuminate the opaque nature of a small business's finances, making it easier for them to weather bumpy cash flows and providing more transparency to potential lenders. Mills charts how fintech has changed and will continue to change small business lending, and how financial innovation and wise regulation can restore a path to the American Dream. An ambitious book grappling with the broad significance of small business to the economy, the historical role of credit markets, the dynamics of innovation cycles, and the policy implications for regulation, *Fintech, Small Business & the American Dream* is relevant to bankers, fintech investors, and regulators; in fact, to anyone who is interested in the future of small business in America.
