midlink business park: *Uniquely You* Ron Kitchens, 2019-05-21 For young professionals and entrepreneurs, there is no shortage of gurus, processes, and quick-fix formulas to chase in the quest to grow their business, lead their team, and find personal fulfillment. In fact, there are so many out there that it's exhausting. Wouldn't it be better to realize that the leadership lessons we need to learn are not out there somewhere, but in here, in our own lives? That instead of becoming a knock-off of someone else, we can be uniquely ourselves? That's exactly what Ron Kitchens learned, and it's what he wants to share with today's emerging leaders. Sharing his own journey of discovering what his life was trying to teach him through both trials and triumphs, Kitchens equips readers to mine their own stories for the relationships and life lessons that have made them into the unique individuals they are today. He then shows readers how to leverage those unique experiences into their own personal leadership style that is authentic, one-of-a-kind, and effective in building businesses and leading teams.

midlink business park: *Community Capitalism* Ron Kitchens, 2008 Perhaps you thought it was fantasy. Perhaps you thought it was a ruse. Perhaps you thought it was the actions of an immature heart and love that had yet to be educated by reality. Wrong! Actually your first answer was right. Now you have to be unschooled and learn love all over again, and you might want to start here at that foundation of love. But you forgot, after all it only lasted a couple of seconds, a couple of days and then that place that those eyes took you disappeared like a mirage. You no longer have what it takes to graduate to love's stage seven. Don't worry, Illuminations will take you back. If infatuation is oft the cornerstone with which we set the foundation of love, why do we throw away that foundation when we build the school of our convictions as to what love is? But remember when we thought a love was perfect and we thought that love was supreme? Remember when we thought love would find ourselves in a perfect plot and we could reside there forever? Remember when love was the most beautiful thing in existence and so was our love? Might I ask, what is wrong with that? And if there is nothing wrong with that, why isn't it considered right? If the school of love in which the world learns fails, and we are unable to graduate to love's better vision. If indeed, we fail to take our love to a higher grade, perhaps we ought to find a better school. Love instinctively knows better, and the new foundation upon which love will be reschooled goes back to our original convictions when we thought love was perfect, that love was supreme, that love would deliver and that love is perfect. There is a reason for that original conviction and it is because, love is.
