monkey business the black eyed peas: Will.i.am Tammy Gagne, 2012-09-30 Few people would have guessed that William James Adams, Jr. would grow up to be famous. Born in the poor Boyle Heights area of Los Angeles, statistically, Will was more likely to join a gang than to become Will.i.am, the famous rapper and songwriter from the wildly popular Black Eyed Peas. Will might have had an idea of what lay ahead of him, though. At the age of 11, he promised his mother that he would buy her a house one day. Once he made it big, he did just that—and one for his grandmother as well. It is no wonder that the words i.am are the end of this amazing artist's name. Today, Will is known for being many things to many people. In addition to performing with the Peas, he writes music for both his own group and for many other well-known artists, as well. He also acts in films, supports presidential candidates, and heads several charities. His story is truly one of inspiration.

monkey business the black eyed peas: *Appetite for Self-Destruction* Steve Knopper, 2009-12-15 For the first time, *Appetite for Self-Destruction* recounts the epic story of the precipitous rise and fall of the modern recording industry, from an author who has been writing about it for more than ten years. With unparalleled access to those intimately involved in the music world's highs and lows—including Warner Music chairman Edgar Bronfman Jr., renegade Napster creator Shawn Fanning, and more than 200 others—Steve Knopper is the first to offer such a detailed and

sweeping contemporary history of the industry's wild ride through the past three decades. From the birth of the compact disc, the explosion of CD sales, and the emergence of MP3-sharing websites that led to iTunes, to the current collapse of the industry as CD sales plummet, Knopper takes us inside the boardrooms, recording studios, private estates, garage computer labs, company jets, corporate infighting, and secret deals of the big names and behind-the-scenes players who made it all happen. Just as the incredible success of the CD turned the music business into one of the most glamorous, high-profile industries in the world, the advent of file sharing brought it to its knees, and Knopper saw it all.

monkey business the black eyed peas: The Dark Side 2 Pauline Fatien Diochon, Albert J. Mills, Emmanuel Raufflet, 2017-09-08 This second collection of outstanding shortlisted contributions from the Critical Management Studies (CMS) Interest Group of the Academy of Management (AOM) Dark Side case-writing competition continues to go where other business case studies fear to tread. There are very many case studies of business best practice when engaging with social, environmental and ethical issues. But when educators look for resources to illustrate to students the more typical examples of bad – let alone scandalous – practices of some firms, the cupboard is almost entirely bare. And yet there is a critical need for business educators to expose students and managers to such issues to understand the different multifaceted phenomena of our late capitalist era; to support critical, reflective moral development; and to reflect and understand the complexities of organizational life. To argue that such cases deal with the bad apples in an otherwise functioning system misses the point. Whether focusing on the phone-hacking scandals at national newspapers, the influence of big pharma companies on clinical trials, the Bhopal tragedy or the use of child labour in the garment industry, the problems discussed are of major importance and in many cases have been demonstrated to be common practice for particular companies. Good news they are not, but all are stimulating and present students with dilemmas and decisions to make in a myriad of ways. Each of these 14 selected cases from 2009–2012 has been thoroughly documented, peer-reviewed and edited. They cover four continents (Asia, the Americas, Europe, and Oceania) and both business and public organizations. The industries covered range from extractive industries, the energy industry, consumer products, pulp and paper, movies, media, municipal affairs, academia, banking, and the drug industry. The book is split into three sections: 'Community and Environment'; 'Human Rights and Business'; and 'Ethics and Policy'. Online Teaching Notes to accompany each chapter are available on request with the purchase of the book.
