new york business lawyers: *Arbitration of International Intellectual Property Disputes* Thomas D. Halket, 2012-05-01 The *Arbitration of International Intellectual Property Disputes*, which is designed not only for arbitration counsel and arbitrators but also for in-house counsel and transactional lawyers, provides a thorough guide to the use of arbitration to resolve these disputes. Both practical as well as scholarly, it starts by exploring how and why arbitration can provide the best way to resolve these disputes and how to draft an effective arbitration provision. It then covers the principal unique issues which can arise in the arbitration itself, from choosing the tribunal through confidentiality, discovery, validity determinations, choice of law, provisional and final remedies and enforceability. With the world more and more dependent upon technology of all types, the continued and growing importance of intellectual property cannot be understated. There has been, and will continue to be, an accompanying explosion in the number and complexity of transactions in which intellectual property is a critical, if not the critical, element. Many of these transactions cross national boundaries; as do the disputes which inevitably arise from them. But international intellectual property disputes present complexities not encountered in either intellectual property disputes which are confined to one country or other international commercial

disputes. The Arbitration of International Intellectual Property Disputes will serve as a handy reference and guide for navigating through the complex maze of intellectual property and arbitration.

new york business lawyers: Louis Marshall and the Rise of Jewish Ethnicity in America Matthew Silver, 2013-02-21 A milestone in modern Jewish history and American ethnic history, the sweeping influence of Louis Marshall's career through the 1920s is unprecedented. A tireless advocate for and leader of an array of notable American Jewish organizations and institutions, Marshall also spearheaded civil rights campaigns for other ethnic groups, blazing the trail for the NAACP, Native American groups, and environmental protection causes in the early twentieth century. No comprehensive biography has been published that does justice to Marshall's richly diverse life as an impassioned defender of Jewish communal interests and as a prominent attorney who reportedly argued more cases before the Supreme Court than any other attorney of his era. Silver eloquently fills that gap, tracing Marshall's career in detail to reveal how Jewish subgroups of Eastern European immigrants and established Central European elites interacted in New York City and elsewhere to fuse distinctive communal perspectives on specific Jewish issues and broad American affairs. Through the chronicle of Marshall's life, Silver sheds light on immigration policies, Jewish organizational and social history, environmental activism, and minority politics during World War I, and he bears witness to the rise of American Jewish ethnicity in pre-Holocaust America.

new york business lawyers: Lawyers' Ideals/lawyers' Practices Robert L. Nelson, David M. Trubek, Rayman L. Solomon, 1992 This collection of articles is an effort to create a greater understanding of the empirical issues that lie behind the debate over whether in the practice of law the ideals of professionalism have been replaced by the demands of commercialism. This book is the most systematic attempt so far to examine what professionalism means in the various arenas of legal practice in the United States. It also seeks to advance the theoretical interpretations that lie at the heart of the scholarship on professionalism and establish a framework for analyzing the issues that is more grounded than previous idealist accounts, yet retains some of the ideas of contingency and changeability that structuralist accounts have ignored--Preface.
