prayer for the business owner: An Investigation Into Christian Sme Owner-Managers' Conceptualisations of Practice Andrea Werner, 2008 This study investigates how Christianity impacts on the way owner-managers of small to medium-sized enterprises (SMEs) conceptualise their worlds of business practice. The context for the research is the more general issue of how civil society and its institutions influence economic activity and how they might provide a counterbalance to the potentially negative impacts of 'unrestrained' self-interested economic behaviour. The study is based on qualitative interviews with SME owner-managers in Germany and the U.K. who regard themselves as practising Christians. Using a socio-psychological approach, the data analysis yielded a range of linguistic and conceptual resources that are peculiar to Christian discourse and that have the potential to influence business activity in rather distinctive ways. This book outlines the effects that these Christian resources can have on these owner-managers and how they may be linked to specific business practices. Attention is drawn to the fact that Christian conceptual resources can be interpreted and exploited in different ways, which leads to differences in how Christian owner-managers apply their faith to their business. Furthermore, the study maps out the - often interacting - influence of other discursive contexts and resources. The specific influence of the SME context will be discussed and some differences with regards to the two national contexts in which the research was conducted will be highlighted. The book also addresses how the socio-psychological approach that was chosen for this study may be used for investigations into the impact of other civil society contexts.

Artist, Polly Alice McCann, has served in every capacity at your local church except lawn care and Pastor (and well, she has never baptized anyone.) Just when her hope seemed the most shattered, Polly was blown away by the story of Tabitha—an artist who came back to life. With the images of Tabitha's grieving friends holding up her creations fresh in Polly's mind, she set out to explore the idea of healing through prayer. First through small textile collages, then large oil paintings, and finally sixty-six letters to friends. Twelve of those meditations became this memoir, *Pray Like a Woman*.
