review united business class: Chinese Policy Priorities and Their Implications for the United States Robert G. Sutter, 2000 How the West responds to China's emergence as a great power will go far toward determining the course of world politics in the years ahead. Yet, as Robert Sutter shows in this timely book, U.S. foreign policy in this vital arena remains remarkably unfocused and uninformed. Preoccupied with domestic imperatives and a persistent and intractable debate over China, the U.S. government, media, and public have all but ignored the interests and motivations of China's leaders. The author argues that the course of U.S.-China relations will be determined by Beijing as well as Washington, and a balanced understanding of Chinese leaders' priorities will lead to more informed and effective U.S. policy. Toward that goal, this pragmatic study examines current Chinese concerns and behavior in areas of crucial importance to the United States. Assessing the many economic, social, and political problems that continue to preoccupy China's leaders, Sutter concludes that Chinese internal difficulties and aspirations are so wide-ranging and protracted that China's leaders will remain focused on promoting economic development and reforms and maintaining social-political stability well into the twenty-first century. This analysis sets the stage for more extensive treatment of China's role in world affairs--areas where Chinese and U.S. interests interact most directly. The author contends that a balanced view of common ground and differences will temper the excessive swings seen in recent U.S. China policy and lay the groundwork for a more

realistic relationship as we move into a new century.

review united business class: *Yearbook of the United Nations, Volume 50 (1996)* United Nations, 2023-09-20 The 1996 edition of the Yearbook of the United Nations is the single most comprehensive and authoritative reference book about the work of the United Nations and related international organizations and bodies. Fully indexed and reproducing all major General Assembly, Security Council and Economic and Social Council resolutions, the volume is not only useful for diplomats, government officials and scholars, but also for researchers, writers, journalists, teachers, students and others with a serious interest in international and UN affairs. This volume of the Yearbook details the many activities of the Organization and its organs, programmes and bodies, as they are carried out in all corners of the globe. It gives an account of their endeavours to create better and more peaceful conditions for all mankind and records their efforts to deal with matters of pressing concern in a variety of areas, including peacekeeping and peacemaking, disarmament, human rights, trade and development, control of drug abuse and illicit trafficking, crime prevention, assistance to refugees and other vulnerable populations. Building on the experience of its first 50 years, the United Nations continued in 1996 to confront major global challenges. The observance of the International Year for the Eradication of Poverty can be seen as a benchmark for action to address a plethora of global ills that beset the majority of Earth's nearly 6 billion inhabitants - hunger, inadequate housing, disease, the deterioration of the environment, unemployment. During the year, the United Nations convened two major conferences - the 'City Summit' in Istanbul, centering on the two themes of adequate shelter for all, and sustainable human settlement development in an urbanizing world, and the World Food Summit in Rome, whose main goal was food security for all. The Yearbook chronicles these events and many other milestones reached, making it an invaluable tool for anyone seeking in-depth information about the United Nations family. Also available from the UN, Sales No. E.97.I.1 As of volume 51 (1997) the Yearbook of the United Nations will no longer be published by Kluwer Law International.
