qatar business class lounge: The Chairman's Lounge Joe Aston, 2024-10-28 Shortlisted for the 2025 ABIA Awards, General Nonfiction Book of the Year and The Matt Richell Award for New Writer of the Year From the must-read journalist on how power, money and influence work in this country, the full story of how one of the nation's favourite brands brought itself to ground. Before Covid, both Qantas and its CEO Alan Joyce were flying high, the darlings of customers, staff and investors. After Covid hit, only money mattered – in particular, the company's share price and extraordinary executive bonuses. Illegally redundant workers, unethical flight credits, abysmal customer service, antique aircraft: these became Qantas' new brand. How did things go so badly wrong? Why were customers at the end of the queue? And how did an increasingly autocratic Joyce constantly get his own way, with the Qantas board and with both Liberal and Labor governments, which handed over billions in subsidies and protected lucrative flight routes from foreign competition? For the first time, The Chairman's Lounge tells the full story of how one company banked the nation's loyalty and then cashed in on it. In his celebrated column Rear Window for the Australian Financial Review, Joe Aston's reporting of the ethical failings of Qantas spurred the early retirement of its CEO and the resignation of its chairman. With fresh interviews and revelations, written in Aston's trademark swashbuckling style, The Chairman's Lounge is the definitive account of how Qantas was brought to ground and who did it. It is a parable of our times. 'A masterclass in investigative journalism ... A scathing, unflinching takedown of greed, delusion and a shameless abuse of power, both jaw-dropping and brilliantly incisive' Adele Ferguson

qatar business class lounge: The Business Year: Oman 2023 , The Business Year has charted the course of the Omani economy for a decade, and this year we focused on the Sultanate's diversification plan and its sustainability agenda. While the country is less hydrocarbons rich than its GCC neighbors, infrastructure and renewable energy development, as well as green hydrogen, could be driving forces for growth in the years to come. Both the public and private sectors closely follow the tenets of Vision 2040, a wide-ranging blueprint for growth the kind of which has become ubiquitous across the region. The Business Year: Oman 2023 features interviews, articles, and analysis over 185 pages.

qatar business class lounge: Men Like Us L.J. Hippler, 2024-08-06 When L.J. Hippler, a military contractor, reluctantly accepts the ninety-day cost tracking assignment in Qatar, he is dismayed by the realization that the gargantuan job of building Expeditionary Village will stretch from three to thirteen months. Team members will begin to sabotage each other to avoid being the next person voted off the island. After an R&R trip home, however, he can't wait to get back to his tribe. A year later, he is surprised, again, by his own actions in Afghanistan. The oldest of the team, Hippler feels a paternal need to mentor the younger people with him. Statistically, a third of them won't make it through their entire twelve-month tour. With his help, some learn how emotional exhaustion and loneliness can be outweighed by the sweet validation of completing the year. Home

at last, and a member of a quiet but indispensable new confraternity of overseas civilian contractors, he feels both lucky and proud to be one of them.

qatar business class lounge: Competition and Investment in Air Transport Ruwantissa Abeyratne, 2015-12-17 This book addresses emerging legal and economic issues in competition and investment in air transport, against the backdrop of the role governments and airlines should play in avoiding protectionism and encouraging innovation and creativity. It evaluates current trends in air transport and the direction the industry is taking in the twenty first century. There are discussions on key aspects of air transport, such as safety assurance and environmental protection, as they are impacted by competition. The rapid evolution of aerospace transport and its effect on competition in air transport is also examined. A recurring theme of the book is the influence of creative destruction and disruptive innovation on air transport. This is addressed through an in-depth study of the contentious areas of law relating to the abuse of dominant positions and state aid, as reflected in the ongoing claim by the three largest US carriers against Gulf carriers such as Emirates Airlines, Etihad and Qatar Airways. The US carriers claim that Emirates and Etihad - which operate air services into the United States by virtue of an open-skies agreement between the US and The United Arab Emirates - are using generous subsidies given to them by their governments to illegally capture the "legitimate" market belonging to the US carriers. These issues are clarified in the book using analyses of competition law and investment law as they apply to air transport, free-trade-agreement analogies and an open-skies case study.

qatar business class lounge: The Airbus A380 Graham M. Simons, 2014-08-13 The Airbus A380 is a commemorative volume preserving the history of this iconic craft in words and images from aviation writer and historian Graham Simons. Every seven minutes, an A380 takes off or lands somewhere in the world. The Airbus was initially designed and developed in order to provide a contender to the Boeing's growing monopoly of the skies in the biggest large-aircraft market in the world. Ambitious in design, the undertaking seemed mammoth. Yet scores of aviation engineers and pilots worked to get the design off the ground and the Airbus in our skies. This double-decker, wide-body, 4 engine jet airliner promised to redefine expectations when it came to commercial flight. In The Airbus A380, Graham Simons provides an impressively illustrated narrative history of the craft, its achievements, and the legacy it looks set to provide to a new generation of aviation engineers, enthusiasts and passengers. Operated by airlines such as Emirates, Singapore Airlines, Qantas, and Lufthansa, the story of the A380 could be said to represent the story of modern-day travel itself, characterized by major technological advances across the world that constantly push the boundaries of expectation.
