Legal Compliance and Risk Management

One of the fundamental duties of a business lawyer is to help organizations understand and adhere to the intricate web of regulations that govern their industry. This includes understanding zoning laws, employment regulations, and health and safety standards. By ensuring compliance, business lawyers help mitigate the risk of legal disputes and penalties that can be costly and damaging to a business's reputation.

Contract Drafting and Review

Contracts are the backbone of any business transaction. A business lawyer in Riverside can draft, review, and negotiate contracts to ensure that they are legally binding and protect the interests of their clients. This includes partnership agreements, vendor contracts, employment contracts, and non-disclosure agreements. A well-drafted contract can prevent disputes and provide clarity on the terms agreed upon by all parties involved.

riverside business lawyer: Justice in Plain Sight Dan Bernstein, 2019-01-01 2024 American Legacy Book Awards Winner Justice in Plain Sight is the story of a hometown newspaper in Riverside, California, that set out to do its job: tell readers about shocking crimes in their own backyard. But when judges slammed the courtroom door on the public, including the press, it became impossible to tell the whole story. Pinning its hopes on business lawyer Jim Ward, whom Press-Enterprise editor Tim Hays had come to know and trust, the newspaper took two cases to the U.S. Supreme Court in the 1980s. Hays was convinced that the public—including the press—needed to have these rights and needed to bear witness to justice because healing in the aftermath of a horrible crime could not occur without community catharsis. The newspaper won both cases and established First Amendment rights that significantly broadened public access to the judicial system, including the right for the public to witness jury selection and preliminary hearings. Justice in Plain Sight is a unique story that, for the first time, details two improbable journeys to the Supreme Court in which the stakes were as high as they could possibly be (and still are): the public's trust in its own government.
