san diego business degree: Grit and Hope Barbara Davenport, 2016-06-10 Grit and Hope tells the story of five inner-city Hispanic students who start their college applications in the midst of the country's worst recession and of Reality Changers, the program that aims to help them become the first in their families to go college. This year they must keep up their grades in AP courses, write compelling essays for their applications, and find scholarships to fund their dreams. One lives in a garage and struggles to get enough to eat. Two are academic standouts, but are undocumented, ineligible for state and federal financial assistance. One tries to keep his balance as his mother gets a life-threatening diagnosis; another bonds with her sister when their parents are sidelined by substance abuse. The book also follows Christopher Yanov, the program's youthful, charismatic founder in a year that's as critical for Reality Changers' future as it is for the seniors. Yanov wants to grow Reality Changers into national visibility. He's doubled the program's size, and hired new employees, but he hasn't anticipated that growing means he'll have to surrender some control, and trust his new staff. It's the story of a highly successful, yet flawed organization that must change in order to grow. Told with deep affection and without sentimentality, the students stories show that although poverty and cultural deprivation seriously complicate youths' efforts to launch into young adulthood, the support of a strong program makes a critical difference.

san diego business degree: Outstanding in Their Field Elizabeth Ghaffari, 2009-06-08 In a book businesswomen can rally around and use as a manual, an expert in female board representation shows what it takes to get nominated to a corporate board and become a productive and respected member. This book blazes a trail. Rather than focusing on lack of opportunity or loudly calling for the appointment of more women to boards, it simply shows women what they can do to get on boards. In its pages, businesswomen will gain refreshing insights into the many opportunities that exist for them to rise to leadership. The result of two years' research and interviews, the book identifies specific steps a woman can take to become qualified and competent to serve at the very top—as a director on a for-profit corporate board. Arguing that women need to learn from the leaders, the author lets 15 female directors tell the truth about how to find a seat at the table. Each story is different; no one path or decision worked for every woman. Their advice closes each chapter, providing encouragement and perspective from over three decades of practical experience with public company boards.

san diego business degree: Air Force Cop: An Autobiography Kelly D. Harrison, 2019-09-10 *Air Force Cop An Autobiography* By: Kelly D. Harrison The enforcement of law in the US Armed Forces is covered by the Uniform Code of Military Justice and, when applicable, Title 18 of the US Code. There are other regulations and directives that can result in punitive action. The US Armed Forces is a US taxpayer funded enterprise with the US Army and US Navy almost as old as the nation itself. Crimes against property in the armed forces are not like that of breaking into a privately owned jewelry store in New York City, since all property "owned" by the military branches is property of the US Government. Military members and others who damage, destroy or steal property of the US Government and fellow military members are dealt with harshly. This includes those military members and civilians who commit murder, rape, acts of serious bodily injury and other "index crimes" such as auto theft, arson, kidnapping, etc., within the jurisdiction of the federal government. The US Armed Forces have several consolidated confinement facilities and the US Disciplinary Barracks at Ft. Leavenworth, Kansas. Each military branch has their own police and investigative agencies for dealing with crimes against property and people. In the US Air Force, there are the Security Forces (previously known as Air Police and Security Police) for protection of base resources, traffic control enforcement and investigation of misdemeanor offenses. The Air Force Office of Special Investigations (AFOSI) is a cadre of enlisted, officer and civilian special agents (all with Federal Law Enforcement Officer status) who are highly trained in specialties such as forensics, fraud, counter-intelligence, polygraph, computer crimes, electronic technical support (hidden cameras, electronic sweeping for covert recording devices, etc.) and general crimes such as arson, homicides, child abuse along with every other imaginable offense against property and

people.
