show about business: Show Business Ron Schramm, 2012-10 Throughout the United States, businesses compete for the attention of buyers by presenting their products in striking, often outrageous, ways at trade shows. In Show Business, ex-trade show photographer Ron Schramm presents a collection of black-and-white photographs displaying the theatrical ways in which these products are marketed to American businesses, and to America. The images in this volume include selected exhibits and photographic editorials that visually reported the shows for trade newspapers and show organizers. Because trade shows are an integral opportunity for businesses to sell their goods and services, businesses are willing to do just about anything to get people's attention. Sometimes quirky but always interesting, Schramm's images present the spectacles that come with the trade show experience, from twenty-foot-tall cola bottles to a van display surrounded by women dressed in spacesuits. Show Business is a distinctive compilation of images that offers an insider's look at business and creativity at work.

show about business: It's All Show Business Connie Rae, 2019-09-17 Lee Edward Atterbury was born September 1, 1924, into the Atturbury Circus family. He was the fifth of seven children born to Robert L. and Rose Atterbury. By the time Lee was old enough for school, his older siblings were accomplished aerialists and his mother was a slack wire walker. The Atterbury Circus was a road circus, traveling the highways of rural America from Iowa and the Dakotas to Texas throughout the years of the Great Depression. After the United States entered World War II, Lee served in the Army Air Force as a radioman and gunner, first in Africa and Italy, and then in the South Pacific. When the war ended, Lee returned home to find that the economics of war and the Great Depression had ended the small road circuses. Lee and his siblings began again by building carnival shows and games and went back on the road. You'll never get anywhere in life without taking some risks, says Lee. Lee married Helen Wise of Conway Springs, Kansas, in 1949, and together they set out on the carnival circuit. Over the next seventy years, the Lee Atterbury family built a wonderful legacy of honesty and integrity with their games throughout the Midwest United States. They are loved by carnies and marks alike. People who played their games as children now return with their children and grandchildren to visit the Atterburys on the Midway. This memoir is a tribute to a true gentleman of America's greatest generation. Lee, I am so glad that I got to hear and record your stories. With grateful affection,

show about business: *Unfinished Show Business* , In this fresh approach to musical theatre history, Bruce Kirle challenges the commonly understood trajectory of the genre. Drawing on the notion that the world of the author stays fixed while the world of the audience is ever-changing, Kirle suggests that musicals are open, fluid products of the particular cultural moment in which they are performed. Incomplete as printed texts and scores, musicals take on unpredictable lives of their own in the complex transformation from page to stage. Using lenses borrowed from performance studies, cultural studies, queer studies, and ethnoracial studies, *Unfinished Show Business: Broadway Musicals as Works-in-Process* argues that musicals are as interesting for the provocative issues they raise about shifting attitudes toward American identity as for their show-stopping song-and-dance numbers and conveniently happy endings. Kirle illustrates how performers such as Ed Wynn, Fanny Brice, and the Marx Brothers used their charismatic personalities and quirkiness to provide insights into the struggle of marginalized ethnoracial groups to assimilate. Using examples from favorites including *Oklahoma!*, *Fiddler on the Roof*, *A Chorus Line*, and *Les Misérables*, Kirle demonstrates Broadway's ability to bridge seemingly insoluble tensions in society, from economic and political anxiety surrounding World War II to generational conflict and youth counterculture to corporate America and the "me" generation. Enlivened by a gallery of some of Broadway's most memorable moments—and some amusing, obscure ones as well—this study will appeal to students, scholars, and lifelong musical theatre enthusiasts.

show about business: Performing Adaptations Michelle MacArthur, Lydia Wilkinson, Keren Zaiontz, 2009-03-26 Performing Adaptations: Conversations and Essays on the Theory and Practice of Adaptation brings together scholars and artists from across North America and the United Kingdom to contribute to the growing discourse on adaptation in the arts. An ideal text for students of theatre, drama, and performance studies, this volume offers a ground-breaking set of essays, interviews, and artistic reflections that assess adaptation from the perspective of live performance, an aspect of the field that has been under-explored until now. The diverse authors and interview subjects in this anthology take a variety of approaches to both creating and analyzing adaptations, demonstrating the form's suitability for testing and speaking back to dominant models of creation, production, and analysis. Featuring articles by pioneering adaptation scholar Linda Hutcheon and critically acclaimed writer and critic George Elliott Clarke, Performing Adaptations advances the field of adaptation studies in new and exciting ways. The authors in Performing Adaptations do not comprise a comprehensive view of adaptation studies, but represent a collection of "gutsy" voices that use adaptation to test, and speak back to dominant models of creation, production, and analysis. Some of these perspectives include a group of artists from the African Diaspora, Europe, and Canada (the AfriCan Theatre Ensemble); the voice of Chinese-Canadian playwright, Marjorie Chan; the innovative storytelling of Beth Watkins, and her adaptation of letters written by transgendered student activist, Jesse Carr; the views of vanguard Canadian queer filmmaker, John Greyson; and African-Canadian poet, novelist, and critic, George Elliott Clarke. Their adaptation of sources to other genres, mediums, and cultural contexts represent the act of a radical, dialogical reading, writ large.
