smoke shop business plan: Return of the Buffalo Ambrose Lane, 1995-10-30 A small, poverty-stricken California Indian Tribe, the Cabazon Band of Mission Indians, successfully fought a long legal battle for the right to operate the business of their choice on their barren reservation—a gambling casino. This is their story, the authorized history of their epic struggle, climaxing with their victory in a 1987 ruling by the U.S. Supreme Court, the now-famous Cabazon Decision. Their

defeated opponents included California's City of Indio and County of Riverside (called one of the most racist in the U.S. by a non-Indian resident) as well as California and 29 other states that joined California's appeal. This is also the fascinating story of the role played by a white family and its radical, socialist patriarch that helped create one of the world's most capital-intensive industries and triggered today's Indian Gaming Explosion throughout America. Hundreds of hours of taped interviews and years of documents, meeting records, and official correspondence are analyzed to give the reader a clear picture of the impact of this new massive capital on tribal life and the development of a possible future without gambling—as officials in league with Nevada and Atlantic City gambling interests continue their efforts to destroy Indian gaming. The Buffalo, literal and symbolic figure of earlier Indian financial independence, has returned in a new form—cash cow casinos.

smoke shop business plan: Down and Dirty Pictures Peter Biskind, 2013-01-08 In this “dishy...superbly reported” (Entertainment Weekly) New York Times bestseller, Peter Biskind chronicles the rise of independent filmmakers who reinvented Hollywood—most notably Sundance founder Robert Redford and Harvey Weinstein, who with his brother, Bob, made Miramax Films an indie powerhouse. As he did in his acclaimed *Easy Riders, Raging Bulls*, Peter Biskind “takes on the movie industry of the 1990s and again gets the story” (The New York Times). Biskind charts in fascinating detail the meteoric rise of the controversial Harvey Weinstein, often described as the last mogul, who created an Oscar factory that became the envy of the studios, while leaving a trail of carnage in his wake. He follows Sundance as it grew from a regional film festival to the premier showcase of independent film, succeeding almost despite the mercurial Redford, whose visionary plans were nearly thwarted by his own quixotic personality. Likewise, the directors who emerged from the independent movement, such as Quentin Tarantino, Steven Soderbergh, and David O. Russell, are now among the best-known directors in Hollywood. Not to mention the actors who emerged with them, like Matt Damon, Ben Affleck, Ethan Hawke, and Uma Thurman. Candid, controversial, and “sensationally entertaining” (Los Angeles Times) *Down and Dirty Pictures* is a must-read for anyone interested in the film world.

smoke shop business plan: From Head Shops to Whole Foods Joshua C. Davis, 2017-08-08 In the 1960s and '70s, a diverse range of storefronts—including head shops, African American bookstores, feminist businesses, and organic grocers—brought the work of the New Left, Black Power, feminism, environmentalism, and other movements into the marketplace. Through shared ownership, limited growth, and democratic workplaces, these activist entrepreneurs offered alternatives to conventional profit-driven corporate business models. By the middle of the 1970s, thousands of these enterprises operated across the United States—but only a handful survive today. Some, such as Whole Foods Market, have abandoned their quest for collective political change in favor of maximizing profits. Vividly portraying the struggles, successes, and sacrifices of these unlikely entrepreneurs, *From Head Shops to Whole Foods* writes a new history of social movements and capitalism by showing how activists embraced small businesses in a way few historians have considered. The book challenges the widespread but mistaken idea that activism and political

dissent are inherently antithetical to participation in the marketplace. Joshua Clark Davis uncovers the historical roots of contemporary interest in ethical consumption, social enterprise, buying local, and mission-driven business, while also showing how today's companies have adopted the language—but not often the mission—of liberation and social change.
