snhu business degrees: Remote Learning and Distance Education William H. Pruden III,

2024-11-14 Remote learning and distance education burst into the national consciousness with the onset of the COVID-19 pandemic - yet it remains poorly understood in many ways. Explore a range of debates around this timely topic, including: can remote learning models of educational instruction produce the same (or better?) academic results than in-school learning? What are the socialization impacts of remote learning? What do education experts think is the next frontier in remote learning? This book explores those questions and many more. Remote Learning and Distance Education provides the historical background and context for understanding the origins and evolution of distance education - an evolution which was accelerated dramatically, and in unpredictable ways, when the COVID-19 pandemic transformed millions of actual classrooms into virtual ones. Readers will better understand the problems, controversies and solutions surrounding distance education, from access and equity issues to maintaining academic integrity. Profiles of key figures and organizations, such as Khan Academy, give readers an introduction to important players in this potentially revolutionary approach to teaching and learning.

snhu business degrees: Global Demand for Borderless Online Degrees Hogan, Robert P., 2019-08-30 In recent decades, community colleges and universities have struggled with less funding, increased competition, and shrinking enrollment. Borderless online degrees offer opportunities to make higher education more accessible and to make foreign study without having to travel abroad an option. Lower cost, high retention, and reduced time to graduate are all key selling points for these degrees. *Global Demand for Borderless Online Degrees* is an essential research publication that provides the benefits, risks, and solutions for entering the borderless online degree market and discusses novel online approaches that are cost-effective for higher education institutions and affordable for customers at home and abroad. This book describes innovative pedagogy in fused learning classrooms that builds relationships and promotes retention and student satisfaction. Featuring a wide range of topics such as community college, accreditation, and international education, this book is ideal for university presidents, provosts, rectors, chancellors, international educators, administrators, academicians, policymakers, researchers, and students.

snhu business degrees: *Strategic Transformation of Higher Education* Stewart E. Sutin, W. James Jacob, 2016-09-23 *Strategic Transformation of Higher Education* examines the broken

revenue-driven business model characteristic of higher education in an environment that demands greater access, more affordable tuition, accountable leaders, and faculty who deliver a consistently high quality of relevant education. The authors demonstrate that enduring business models must support institutional academic missions and that they are integral to systemic and strategic transformation by diagnosing the case for change and offering a practitioners' guide for reform. This book surveys deficient government education policies, practices and funding formulas of select countries and offers remedies. It identifies impediments to change, along with ways to develop and deliver evidence-based solutions to improve institutional effectiveness and operating efficiencies, and it cites exemplars of change in these areas. Special attention is given to leadership attributes requisite of driving institutional redesign and to a paradigm shift that calls for transition from knowledge creation to plan implementation. *Strategic Transformation of Higher Education* emphasizes a collective need for reflection, a will to consistently question prevailing assumptions, and the courage to afford practical application to innovation.

snhu business degrees: Pursuing Quality, Access, and Affordability Stephen C. Ehrmann, 2023-07-03 Whether they recognize it or not, virtually all colleges and universities face three GrandChallenges:·Improve the learning outcomes of a higher education: A large majority of college graduates are weak in capabilities that faculty and employers both see as crucial.·Extend more equitable access to degrees: Too often, students from underserved groups and poor households either don't enter college or else drop out without a degree. The latter group may be worse off economically than if they'd never attempted college.·Make academic programs more affordable (in money and time) for students and other important stakeholder groups: Many potential students believe they lack the money or time needed for academic success. Many faculty believe they don't have time to make their courses and degree programs more effective. Many institutions believe they can't afford to improve outcomes.These challenges are global. But, in a higher education system such as that in the United States, the primary response must be institutional. This book analyzes how, over the years, six pioneering colleges and universities have begun to make visible, cumulative progress on all three fronts.

snhu business degrees: Habitual Rhetoric Alex Mueller, 2023-09-19 Writing has always been digital. Just as digits scribble with the quill or tap the typewriter, digits compose binary code and produce text on a screen. Over time, however, digital writing has come to be defined by numbers and chips, not fingers and parchment. We therefore assume that digital writing began with the invention of the computer and created new writing habits, such as copying, pasting, and sharing. *Habitual Rhetoric: Digital Writing before Digital Technology* makes the counterargument that these digital writing practices were established by the handwritten cultures of early medieval universities, which codified rhetorical habits—from translation to compilation to disputation to amplification to appropriation to salutation—through repetitive classroom practices and within annotatable manuscript environments. These embodied habits have persisted across time and space to develop durable dispositions, or *habitus*, which have the potential to challenge computational cultures of disinformation and surveillance that pervade the social media of today.

snhu business degrees: American Higher Education John R. Thelin, 2017-02-17 The latest book in the Core Concepts in Higher Education series brings to life issues of governance, organization, teaching and learning, student life, faculty, finances, college sports, public policy, fundraising, and innovations in higher education today. Written by renowned author John R. Thelin, each chapter bridges research, theory, and practice and discusses a range of institutions – including the often overlooked for-profits, community colleges, and minority serving institutions. A blend of stories and analysis, this exciting new book challenges present and future higher education practitioners to be informed and active participants, capable of improving their institutions.

snhu business degrees: Higher Education and Employability Peter J. Stokes, 2017-11-14 2016 Phillip E. Frandson Award for Literature in the Field of Professional, Continuing, and/or Online Education, University Professional and Continuing Education Association (UPCEA) *Higher Education and Employability* makes a crucial contribution to the current reassessment of higher education in the United States by focusing on how colleges and universities can collaborate with businesses in order to serve the educational and professional interests of their students. Drawing on his extensive experience with universities and the business world, Peter J. Stokes argues that the need for closer alignment between the two sectors has never been more critical—and that the opportunities for partnership have never been greater. This book includes a series of trenchant case studies of particular universities that have developed ambitious collaborative programs—New York University, Northeastern University, and the Georgia Institute of Technology. Incisive and practical, this book surveys the full range of current partnerships between businesses and higher education and points to opportunities that will best serve students now and in the future.

snhu business degrees: *Reclaiming the American Dream* Ben Hecht, 2018-05-29 Unlocking the American Dream At a time when deep divisions headline the national discourse on equality, *Reclaiming the American Dream: Proven Solutions for Creating Economic Opportunity for All* uses real-world examples to illustrate how America can evolve to include everyone in its promise of opportunity. Living Cities President and CEO Ben Hecht has spent decades exploring how leaders take proactive measures to combat growing racial disparity, without relying on slow-moving policies or the whims of Washington, D.C., to make changes in their own backyards. The strategies highlighted in *Reclaiming the American Dream* offer a blueprint for how communities can rekindle the promise of the American Dream through improving educational opportunities, strengthening civic engagement, and providing a ladder to economic security. Each of us-whether as an elected leader, engaged neighbor, corporate CEO, philanthropist, or investor-can act right now to secure the economic future of our country and help level the playing field for struggling Americans everywhere.

snhu business degrees: *American Universities and Colleges* Praeger Publishers, 2010-04-16 For well over a half century, *American Universities and Colleges* has been the most comprehensive and highly respected directory of four-year institutions of higher education in the United States. A two-volume set that *Choice* magazine hailed as a most important resource in its November 2006 issue, this revised edition features the most up-to-date statistical data available to guide students in making a smart yet practical decision in choosing the university or college of their dreams. In addition, the set serves as an indispensable reference source for parents, college advisors, educators, and public, academic, and high school librarians. These two volumes provide extensive information on 1,900 institutions of higher education, including all accredited colleges and universities that offer at least the baccalaureate degree. This essential resource offers pertinent, statistical data on such topics as tuition, room and board; admission requirements; financial aid; enrollments; student life; library holdings; accelerated and study abroad programs; departments and teaching staff; buildings and grounds; and degrees conferred. Volume two of the set provides four indexes, including an institutional Index, a subject accreditation index, a levels of degrees offered index, and a tabular index of summary data by state. These helpful indexes allow readers to find information easily and to make comparisons among institutions effectively. Also contained within the text are charts and tables that provide easy access to comparative data on relevant topics.
