the family business new orleans trailer: Markets of Sorrow, Labors of Faith Vincanne Adams, 2013-03-04 Markets of Sorrow, Labors of Faith is an ethnographic account of long-term recovery in post-Katrina New Orleans. It is also a sobering exploration of the privatization of vital social services under market-driven governance. In the wake of Hurricane Katrina, public agencies subcontracted disaster relief to private companies that turned the humanitarian work of recovery into lucrative business. These enterprises profited from the very suffering that they failed to ameliorate, producing a second-order disaster that exacerbated inequalities based on race and class and leaving residents to rebuild almost entirely on their own. Filled with the often desperate voices of residents who returned to New Orleans, Markets of Sorrow, Labors of Faith describes the human toll of disaster capitalism and the affect economy it has produced. While for-profit companies delayed delivery of federal resources to returning residents, faith-based and nonprofit groups stepped in to rebuild, compelled by the moral pull of charity and the emotional rewards of volunteer labor. Adams traces the success of charity efforts, even while noting an irony of neoliberalism, which encourages the very same for-profit companies to exploit these charities as another market opportunity. In so doing, the companies profit not once but twice on disaster.

the family business new orleans trailer: THE JFK FILES Peter Kross, 2019-02-12 In October 2017, 2,800 files about the 1963 murder were made public for the first time, bringing to the fore revelations that an alleged Cuban intelligence officer met Lee Harvey Oswald in Mexico City, and praised his shooting ability, and that the Soviet spy agency KGB believed then-Vice President Lyndon Johnson may have conspired to assassinate Kennedy. On April 26, 2018, the U.S. Government released 19,000 newly declassified government documents on the Kennedy assassination. It is said that investigators learned little, except that the government's ideas about what needs to be secret, and what doesn't, are cryptic and unpredictable. Some stuff in the documents that had been open for years is now classified again, and some stuff that had been

classified and is now open is so innocuous that nobody can figure out what the point was. In some cases, the documents had re-redacted material that had already been declassified in previous versions. Often that seemed to reflect Trump administration sensitivities to the feelings of foreign governments. A 1975 CIA report on the surveillance of shooter Lee Harvey Oswald during his visit to the Soviet embassy in Mexico City just a few weeks before Kennedy's death was released years ago identifying a particular photo as coming from "a Mexican police surveillance camera." In the same document, re-released April 26, the words "Mexican police" had been covered over. Why are these documents even more redacted than previously known versions of the same document? What astonishing information was released by the documents, if any? Why aren't all of the documents released in their entirety without any information redacted? Are the intelligence agencies afraid they will look incompetent and unable to protect the President? Or do they further confirm that Vice President Lyndon Johnson was involved in the assassination as earlier documents suggested?

the family business new orleans trailer: Children of Katrina Alice Fothergill, Lori Peek, 2015-09-01 Winner, Betty and Alfred McClung Lee Book Award, Association for Humanist Sociology, 2016 Outstanding Scholarly Contribution Award of the Section on Children and Youth, American Sociological Association, 2016 Honorable Mention, Leo Goodman Award, Methodology Section, American Sociological Association, 2016 When children experience upheaval and trauma, adults often view them as either vulnerable and helpless or as resilient and able to easily "bounce back." But the reality is far more complex for the children and youth whose lives are suddenly upended by disaster. How are children actually affected by catastrophic events and how do they cope with the damage and disruption? Children of Katrina offers one of the only long-term, multiyear studies of young people following disaster. Sociologists Alice Fothergill and Lori Peek spent seven years after Hurricane Katrina interviewing and observing several hundred children and their family members, friends, neighbors, teachers, and other caregivers. In this book, they focus intimately on seven children between the ages of three and eighteen, selected because they exemplify the varied experiences of the larger group. They find that children followed three different post-disaster trajectories—declining, finding equilibrium, and fluctuating—as they tried to regain stability. The children's moving stories illuminate how a devastating disaster affects individual health and well-being, family situations, housing and neighborhood contexts, schooling, peer relationships, and

extracurricular activities. This work also demonstrates how outcomes were often worse for children who were vulnerable and living in crisis before the storm. Fothergill and Peek clarify what kinds of assistance children need during emergency response and recovery periods, as well as the individual, familial, social, and structural factors that aid or hinder children in getting that support.

the family business new orleans trailer: Building Resilience Daniel P. Aldrich, 2020-03-04 The factor that makes some communities rebound quickly from disasters while others fall apart: A fascinating book on an important topic.—E.L. Hirsch, in *Choice* Each year, natural disasters threaten the strength and stability of communities worldwide. Yet responses to the challenges of recovery vary greatly and in ways that aren't explained by the magnitude of the catastrophe or the amount of aid provided by national governments or the international community. The difference between resilience and disrepair, as Daniel P. Aldrich shows, lies in the depth of communities' social capital. *Building Resilience* highlights the critical role of social capital in the ability of a community to withstand disaster and rebuild both the infrastructure and the ties that are at the foundation of any community. Aldrich examines the post-disaster responses of four distinct communities—Tokyo following the 1923 earthquake, Kobe after the 1995 earthquake, Tamil Nadu after the 2004 Indian Ocean Tsunami, and New Orleans post-Katrina—and finds that those with robust social networks were better able to coordinate recovery. In addition to quickly disseminating information and financial and physical assistance, communities with an abundance of social capital were able to minimize the migration of people and valuable resources out of the area. With governments increasingly overstretched and natural disasters likely to increase in frequency and intensity, a thorough understanding of what contributes to efficient reconstruction is more important than ever. *Building Resilience* underscores a critical component of an effective response.

the family business new orleans trailer: The Yellow House Sarah M. Broom, 2019-08-13 A NEW YORK TIMES BESTSELLER WINNER OF THE 2019 NATIONAL BOOK AWARD FOR NONFICTION A brilliant, haunting and unforgettable memoir from a stunning new talent about the inexorable pull of home and family, set in a shotgun house in New Orleans East. In 1961, Sarah M. Broom's mother Ivory Mae bought a shotgun house in the then-promising neighborhood of New Orleans East and built her world inside of it. It was the height of the Space Race and the neighborhood was home to a major NASA plant—the postwar optimism seemed assured. Widowed,

Ivory Mae remarried Sarah's father Simon Broom; their combined family would eventually number twelve children. But after Simon died, six months after Sarah's birth, the Yellow House would become Ivory Mae's thirteenth and most unruly child. A book of great ambition, Sarah M. Broom's *The Yellow House* tells a hundred years of her family and their relationship to home in a neglected area of one of America's most mythologized cities. This is the story of a mother's struggle against a house's entropy, and that of a prodigal daughter who left home only to reckon with the pull that home exerts, even after the Yellow House was wiped off the map after Hurricane Katrina. The Yellow House expands the map of New Orleans to include the stories of its lesser known natives, guided deftly by one of its native daughters, to demonstrate how enduring drives of clan, pride, and familial love resist and defy erasure. Located in the gap between the "Big Easy" of tourist guides and the New Orleans in which Broom was raised, *The Yellow House* is a brilliant memoir of place, class, race, the seeping rot of inequality, and the internalized shame that often follows. It is a transformative, deeply moving story from an unparalleled new voice of startling clarity, authority, and power.
