Amazon reviewer Andrew David states, Gabriela Taylor really knows how to keep things simple but detailed, which I liked because I did not know what I was doing at the start. If your customer demographics skew young, your business and Tumblr could be a perfect match, since half of Tumblr's users are under 25. There are 100+ million Tumblr blogs and only 67+ million sites running on WordPress. The popular website, valued at \$1 billion plus, allows the use of multimedia and can brag of 13 billion global page views in just one recent month and 75 million posts daily. This book is really a soup to nuts guide on how to register for and set up a Tumblr blog to advanced Tumblr marketing strategies for your product or service, says Amazon reviewer Jennie Zahn. Gabriela Taylor also provides other ways to use Tumblr to make money. Is it the ultimate guide? I'd have to say Yes. It's the best guide I've read for Tumblr. There's a thoughtful comparison of Tumblr and other social media sites like Facebook & Twitter. Zahn also liked the step-by-step instructions to set up and enhance a Tumblr site. Taylor writes clearly and is obviously an expert Tumblr user. I also think the book is underpriced for what you get. I'd highly recommend it for anyone considering using Tumblr at any level.

tumblr for business: Lead Right for Your Company's Type William Schneider, 2017-07-20

Lead Right for Your Company’s Type will help you find the best strategies for success for your unique business. Every year, businesses needlessly fail because they adapted the wrong strategies suited for their organization’s strengths. A mid-tier retail chain is derailed by leadership demands for superior products instead of reliably low prices. A software giant is brought to its knees by prioritizing profits over innovation. A small arts college is destabilized by top-down rules designed for a predictable and dependable company. There is no one-size-fits-all game plan for success when it comes to the wide array of businesses today. Success starts with knowing the kind of business you’re really in. In Lead Right for Your Company’s Type, learn the four categories that every enterprise falls into, depending on their customer promise: customized (e.g., ad agency), predictable and dependable (e.g., utility company), benevolent (e.g., educational institution), and best in class (e.g., high-tech company like Apple). Then follow a proven five-step process to help you in diagnosing your organization’s ills and stop them at their source. Apply the wrong practices and the

mismatch pulls the enterprise apart. However, when leadership practices fit the customer promise and company type, the organization thrives.
