turkish airlines 787 9 business class: Havayollarında hizmet: konfor, faaliyet ve performans ilişkisinin değerlendirilmesi Dr. Tüzün Tolga İNAN, 2019-10-20 17 Aralık 1903 tarihinde Wright Kardeşlerin ilk başarılı motorlu uçuş denemesiyle başlayan sivil havacılık tarihi günümüzde dünyanın en büyük endüstrilerinden biri haline gelmiştir. Her ne kadar 2003 yılına kadar ülkemiz için sivil havacılık büyük bir aşama kaydetmese de, 2003 yılından sonra milat niteliğinde gelişmeler gerçekleşmiştir. Doktor ünvanını aldığım halen sivil havacılık alanında lisanslandırmaya sahip tek Üniversite olan Anadolu Üniversitesi ile başlayan sivil havacılık alanında ihtisas veren Üniversite ve Meslek Yüksekokulları, özellikle 2011 yılından itibaren sayıca üst limitlere ulaşmıştır. Ancak unutmamak gerekir ki, havacılık bir nevi aşkla ifa edilmesi gereken bir meslektir. İçerisinde pilotaj, hat ve bakım teknisyenliği, uçuş hareket yöneticiliği (dispeçerlik), uçuş ve misafir kontrol uzmanlığı, kabin, hareket, yolcu hizmetleri ve kargo memurluğu olmak üzere birçok iş tanımı bulundurmaktadır. Kendim için düşündüğüm zaman bana havacılığı sevdiren kişi babam olmuştur. Özellikle sektörel olarak 30 yılın üzerinde Türk Hava Yolları tecrübesinin bulunması ve beni havacılık alanında doktora yapmaya itmesi kariyerim için en önemli adımlardan bir tanesi oldu. Tabii herşey burada anlatmak istediğim kadar güllük gülistanlık olmamakla birlikte, vardiyalı çalışma düzeni ve yoğun tempo havacılığın olmazsa olmazıdır. Bu nedenle öğrencilere ve bu alanda kariyer yapmak isteyenlere tavsiyem, havacılığın para için yapılacak bir meslek olmadığını bilincinde olmaları gerektiridir. Bu kitabı yayımlama sebeplerimden bir tanesi de kamuoyu tarafından bilinmeyen ya da bilindiği zannedilen bu endüstride hizmet-konfor ve performans parametrelerinin ne olduğunun ve bir havayolu şirketini hangi ölçüde etkilediğini göstermek istememdir. Bu kitap umarım hem akademik hem de sektörel camiada tüm havacılık çalışanlarına ve havacılık sevdalılarına faydalı olacak bir eser olacaktır. Unutmamak gerekir ki burada önemli olan konu 5 yıllık değerler ile 2016 yılında hangi verilerin elde edildiği değil, bu verilerin havacılık şirketleri için öneminin farkına varılması olacaktır.

turkish airlines 787 9 business class: Arabic Airlines in the European Market. Strategies, Consequences and International Market Changes and Challenges Julia Teigeler, 2016-02-19 Master's Thesis from the year 2015 in the subject Business economics - Miscellaneous, grade: 1,7, University of Applied Sciences Essen, course: Business Administration, language: English, abstract: In this master thesis, the subject Arabic Airlines in the European Market - Strategies, Consequences and International Market Changes and Challenges is accurately represented and analyzed by the author, whereby different methods are used. The aim of this work is to show the extent to which Arab companies have changed the European airline market in recent years, including the opportunities, possibilities and risks that arise for European and Arab companies. For this purpose, the ten largest companies in the European and Arab market are briefly presented and compared with all key business data. In the Arab market, this includes Qatar Airways, Emirates, Etihad Airways, Oman Air, and Saudi Arabian airlines, Gulf Air, Royal Jordanian Airlines, Fly Dubai, Air Arabia and Middle East Airlines. In the European market, the following companies are considered in more detail: Turkish Airlines, Lufthansa, Swiss Int'l Air Lines, British Airways, Austrian Airlines, Air France, Aegean Airlines, KLM, Virgin Atlantic and Finnair. With the help of Porter's five forces, first the Arabic airlines are analyzed, being closely examined in the following areas: threat of new entrants, threat of substitute products or services, bargaining power of customers, bargaining power of suppliers and intensity of competitive rivalry. Subsequently, the European market is analyzed based upon globalization drivers developed by George Yip. The distinction is made based upon the following points: market drivers, cost drivers, government drivers and competitive drivers. The results of these investigations highlight that the Arab companies are still very young on the market, only existing on the market for a maximum of a few decades. By contrast, European companies have already been present on the market for much longer. However, the Arabian airlines have very quickly gained enormous market power and large market shares, backed by the vast financial reserves of state-owned enterprises. These companies not only have the financial background that reflects a great advantage over all other international airlines, but also other important advantages that favor a growth in the market.
