Best 357 Colleges is the best-selling college guide on the market because it is the voice of the students. Now we let graduate students speak for themselves, too, in these brand-new guides for selecting the ideal business, law, medical, or arts and humanities graduate school. It includes detailed profiles; rankings based on student surveys, like those made popular by our Best 357 Colleges guide; as well as student quotes about classes, professors, the social scene, and more. Plus we cover the ins and outs of admissions and financial aid. Each guide also includes an index of all schools with the most pertinent facts, such as contact information. And we've topped it all off with our school-says section where participating schools can talk back by providing their own profiles. It's a whole new way to find the perfect match in a graduate school.

uab business: Quality Management for Competitive Advantage in Global Markets

Saiz-Álvarez, José Manuel, Olalla-Caballero, Beatriz, 2020-09-04 Quality should be treated as a culture of success in the market. Enterprises focused on quality will survive in the long term in this new environment because quality is what may create a real and robust link between a company and its clients, and these clients should always be considered the heart of any business; without them, there is neither option nor sense to continue any activity in a company. Quality Management for Competitive Advantage in Global Markets is an essential reference source that discusses the importance of quality practices and global market practices. With research that allows practitioners to improve their understanding of the strategic role of quality in the information and knowledge society, it focuses on describing a global economy formed by networks, organizations, teams, workgroups, information systems, and finally, actors in networked environments. Featuring research on topics such as consumer satisfaction, human capital, and quality management, the target audience of this book is composed of professionals and researchers working in the field of information and knowledge management in various disciplines including library, information and communication sciences, administrative sciences and management, education, adult education, sociology, computer science, and information technology. Moreover, the book provides insights and supports executives concerned with the management of expertise, knowledge, information, and organizational development in different types of work communities and environments.

uab business: Technology Transfer and Entrepreneurial Innovations Maribel Guerrero, David Urbano, 2021-06-01 Evidence suggests that economies with technology transfer initiatives provide a better supply of high-quality jobs and tend to be characterized by entrepreneurs with higher innovation contributions. This book explores the effectiveness of technology transfer policies and legislation on entrepreneurial innovation in a non-US context. It analyses the theoretical, empirical and managerial implications behind the success of technology transfer policies and legislations in stimulating entrepreneurial innovation; analyses which other contextual condition (e.g., culture) are necessary for successful implementation; and explores the extent and level of replication of US policies (e.g., Bayh-Dole Act, Small Business Innovation Research [SBIR] program) in other national and regional systems. In addition, this book looks at the effect technology transfer policies have on the adoption of open innovation and open science.
