ten toes down when we standing on business: Jennifer, Where Are You? Katherine Ann Longo, 2011-09-06 In November of 1982, Katherine Ann Longo's life changed forever. Her daughter disappeared. It was a mother's worst nightmare. When the authorities failed to solve the case, Kathy didn't take what we don't know for an answer. She began her own investigation. In her opinion, she gathered strong supporting evidence that pointed to a viable suspect for the police. But even with what Kathy considered to be proof, the authorities refused to cooperate. The person she deemed responsible for her daughter's disappearance went unquestioned. Even after she supplied them with photographic evidence, she couldn't get anyone to listen to her. What she was forced to endure in the course of her own personal investigation is chilling. Kathy was jailed, fired, and threatened. She was faced with sexual blackmail by those in authority, just for trying to get them to do their jobs. Hers was a terrifying descent into a world of deceit, pornography, child trafficking, and suicide. And for her efforts, she received a trip negotiated by the FBI into a state penitentiary. Her family was threatened, her friends were harassed, and a newscaster actually lost his job for airing her story on TV. Police officials didn't appreciate the bad publicity they received and actively tried to discredit Kathy. This book is her thank-you to those people who didn't give up on her or Jennifer.

But when Burnell is in Budapest, ten years of his memory, including his sexual experiences, are stolen. In this near future, where thieves sell memories on the black market, Burnell tries to resume his life, while also searching for the “bullet” that will restore his memory. “Intelligent, funny, and hopeful in spite of itself.” —Kirkus Reviews
