the family business new orleans episodes: *Reality TV* Jon Kraszewski, 2017-02-24 From early first-wave programs such as *Candid Camera*, *An American Family*, and *The Real World* to the shows on our television screens and portable devices today, reality television consistently takes us to cities—such as New York, Los Angeles, and Boston—to imagine the place of urbanity in American culture and society. Jon Kraszewski offers the first extended account of this phenomenon, as he makes the politics of urban space the center of his history and theory of reality television. Kraszewski situates reality television in a larger economic transformation that started in the 1980s when America went from an industrial economy, when cities were home to all classes, to its post-industrial economy as cities became key points in a web of global financing, expelling all economic classes except the elite and the poor. Reality television in the industrial era reworked social relationships based on class, race, and gender for liberatory purposes, which resulted in an egalitarian ethos in the genre. However, reality television of the post-industrial era attempts to convince viewers that cities still serve their interests, even though most viewers find city life today economically untenable. Each chapter uses a key theoretical concept from spatial theory—such as power geometries, diasporic nostalgia, orientalism, the imagination of social expulsions, and the relationship between the country and the city—to illuminate the way reality television engages this larger transformation of urban space in America.

the family business new orleans episodes: William Tecumseh Sherman: Memoirs of General W. T. Sherman (LOA #51) William Tecumseh Sherman, 1990-10-01 Hailed as prophet of modern war and condemned as a harbinger of modern barbarism, William Tecumseh Sherman is the most controversial general of the American Civil War. “War is cruelty, and you cannot refine it,” he wrote in fury to the Confederate mayor of Atlanta, and his memoir is filled with dozens of such wartime exchanges. With the propulsive energy and intelligence that marked his campaigns, Sherman describes striking incidents and anecdotes and collects dozens of his incisive and often outspoken wartime orders and reports. This complex self-portrait of an innovative and relentless American warrior provides firsthand accounts of the war's crucial events—Shiloh, Vicksburg, Chattanooga, the Atlanta campaign, the marches through Georgia and the Carolinas. the family business new orleans episodes: Louisiana Creole Literature Catharine Savage Brosman, 2013-10-17 Louisiana Creole Literature is a broad-ranging critical reading of belles lettres—in both French and English—connected to and generally produced by the distinctive Louisiana Creole peoples, chiefly in the southeastern part of the state. The book covers primarily the nineteenth and twentieth centuries, the flourishing period during which the term Creole had broad and contested cultural reference in Louisiana. The study consists in part of literary history and biography. When available and appropriate, each discussion—arranged chronologically—provides pertinent personal information on authors, as well as publishing facts. Readers will find also summaries and evaluation of key texts, some virtually unknown, others of difficult access. Brosman illuminates the biographies and works of Kate Chopin, Lafcadio Hearn, George Washington Cable, Grace King, and Adolphe Duhart, among others. In addition, she challenges views that appear to be skewed regarding canon formation. The book places emphasis on poetry and fiction, reaching from early nineteenth-century writing through the twentieth century to selected works by poets still writing in the early twenty-first century. A few plays are treated also, especially by Victor Séjour. Louisiana Creole Literature examines at length the writings of important Francophone figures, and certain Anglophone novelists likewise receive extended treatment. Since much of nineteenth-century Louisiana literature was transnational, the book considers Creole-based works which appeared in Paris as well as those published locally.
